June 30, 2006

(1) The Governor’s appointment of justices of the Supreme Court confirmed by the Senate.
 (2) The Board of Education is elected.

STATE OF HAWAII
DEPARTMENT OF ACCOUNTING
AND GENERAL SERVICES
P.O. BOX 119
HONOLULU, HAWAII 96810-0119

March 15, 2007

To the Honorable Governor of the State of Hawaii
To the Honorable Members of the Twenty-Fourth State
Legislature of the State of Hawaii:

In accordance with the provisions of Section 40-5 of the Hawaii Revised Statutes, it is my privilege to present to you the Comprehensive Annual Financial Report (CAFR) of the State of Hawaii (State) for the fiscal year ended June 30, 2006. This report has been prepared by the State's Department of Accounting and General Services. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the State. I believe the information, as presented, is fairly stated in all material aspects; that it is presented in a manner designed to fairly set forth the financial position and results of operations of the State as measured by the financial activity of its various funds; and that all the information necessary to enable the reader to gain the maximum understanding of the State's financial affairs has been included.

The report is presented in three sections: introductory, financial, and statistical. The introductory section includes this transmittal letter, the State's organizational chart, a list of principal officials, and the GFOA Certificate of Achievement. The financial section includes the independent auditors' report, management's discussion and analysis (MD&A), basic financial statements, notes to basic financial statements, and supplementary information. The statistical section includes selected financial and demographic information.

Governmental Accounting Standards Board (GASB) Statement No. 34, *Basic Financial Statements – and Management's Discussion and Analysis – for State and Local Governments*, requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of an MD&A. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The State's MD&A is included in Part II of this report.

THE REPORTING ENTITY AND ITS SERVICES

With Hawaii's highly centralized state government, the State provides a full range of services as mandated by statute. These services include, but are not limited to, education (lower and higher), welfare, transportation (highways, airports, and harbors), health, hospitals, public safety, housing, culture and recreation, economic development, and conservation of natural resources.

This report includes the various funds comprising the State, including all entities that are accountable to the State. The Employees' Retirement System of the State of Hawaii, which is administered on behalf of public employees for both the State and county governments, and the Office of Hawaiian Affairs, which exists for the betterment of the conditions of native Hawaiians, are not included in the State's basic financial statements because those agencies, based on their fiscal independence and/or separate legal entity status, are not accountable to the State.

FACTORS AFFECTING FINANCIAL CONDITION

The information presented in the basic financial statements is perhaps best understood when considered from the broader perspective of the specific environment within which the State operates.

State of the Economy

Overview

Indicators of the State's economy in the third quarter continued to reflect the strong economic position in 2006, but the growth rates in many areas are somewhat lower than in the previous two years. Employment and job growth continue to be very strong, which should lead to income growth for Hawaii's households and tax revenues for the State. The State's unemployment rate continued to be the lowest in the nation. Total visitor arrivals slowed in the third quarter, bringing the year-to-date growth to a meager 0.2%. Building permit values also slowed in the third quarter and although construction jobs continued to increase, the pace of growth has slowed from the rapid growth of the previous year.

Labor

Hawaii's total civilian employment averaged 631,450 persons during the first nine months of 2006, up 2.9% from the same period of 2005. Hawaii's civilian unemployment rate (not seasonally adjusted) averaged 2.8% in the first eight months of 2006. According to the Bureau of Labor Statistics, at 2.8%, Hawaii had the lowest unemployment rate in the nation in August 2006. Hawaii's total civilian wage and salary jobs grew 2.7% to 620,550 during the first eight months of 2006, a gain of 16,600 jobs over the first eight months of 2005. All private non-agricultural sectors showed job growth during the first eight months of 2006, most notably professional and business services; natural resources, construction, and mining; transportation and utilities; retail trade; and accommodation and food service, while agricultural wage and salary jobs decreased 9.8%, averaging about 6,250 jobs.

Taxes

Tax revenues distributed to the State's General Fund were up \$159.9 million, or 4.9%, during the first two quarters of 2006 compared to the same period in 2005. Among its components, general excise and use tax (GET) collections were up \$118.1 million, or 6.9%, individual net income tax collections up \$102.5 million, or 9.3%, and transient accommodations tax (TAT) collections up \$11.0 million, or 6.8%.

Personal Income

Total nominal personal income, not adjusted for inflation, increased \$2.8 billion, or 6.4%, in the first six months of 2006 compared to the same period of 2005. Among its components, the fastest growth was seen in wages and salaries (7.3%), followed by dividends, interest, and rent (6.6%), proprietors' income (6.0%), personal current transfer receipts (5.4%), and supplements to wages and salaries (5.2%). Contributions for government social insurance, subtracted from personal income, increased by 9.1%.

Prices

Honolulu's consumer price index (CPI) increased 5.8% in the first half of 2006, the highest increase since 1991. This increase was significantly higher than the 4.5% increase for the second half of 2005 and the 3.8% increase for all of 2005. In the first half of 2006, the increase in Honolulu's CPI was 2.0% points higher than the United States (U.S.) average of 3.8%. The Honolulu increase was primarily due to a big jump in the housing and transportation (mostly fuels) components, which increased by 8.5% and 7.1%, respectively.

Recent Developments in Hawaii's Major Industries

Visitor Industry

The number of visitors arriving by air was up 0.1% during the first nine months of 2006 compared to the same period of 2005. Domestic visitor arrivals were up 2.5%, while international arrivals (visitors on flights originating outside of the U.S.) were down 5.9%. Similarly, total visitor days (visitor arrivals multiplied by average length of stay) were up 0.2% during the first nine months of 2006 compared to the same period last year. Total visitor spending rose 3.8%, largely due to a 3.6% increase in per person per day spending. Statewide hotel occupancy rate averaged 81.6% in the first nine months of 2006, 0.7% lower than in the same period of 2005.

Construction

Hawaii's construction industry continued to show robust growth in the first half of 2006. In the first six months of 2006, the natural resources, mining, and construction sector added 3,150 jobs to the State's economy, a 9.7% job growth from the first six months of 2005. Total value of private building authorizations increased 17.2% to nearly \$1.7 billion. In the first six months of 2006, government contracts awarded totaled nearly \$472 million, a 47.8% increase from the same period of 2005.

Outlook for Hawaii's Economy

The latest Department of Business, Economic Development and Tourism (DBEDT) forecast for Hawaii's economy expects both real (inflation-adjusted) Personal Income growth and real Gross State Product (GSP) growth to be positive in 2006, but due to sharp increases in price levels, the rate of growth is projected to be lower than in the previous two years.

The latest consensus forecasts provide optimistic outlook for both the U.S. and Japanese economies, which influence Hawaii the most. The September 2006 Blue Chip Economic Consensus Forecasts expect real Gross Domestic Product (GDP) growth in 2006 to be 3.5% for the U.S. and 2.9% for Japan. In 2007, GDP growth is expected to be somewhat lower at 2.7% for the U.S. and 2.3% for Japan.

DBEDT sees continued growth for Hawaii's tourism industry, with total visitor days, visitor arrivals, and total nominal (current dollar) visitor expenditures being projected to increase, respectively, 2.8%, 2.0%, and 7.1% in 2006, and 2.9%, 2.8%, and 6.3% in 2007.

DBEDT expects total wage and salary jobs to increase 2.5% in 2006 and 1.5% in 2007. Real Personal Income is expected to grow 2.1% in 2006 and 2007. Similarly, real GSP is projected to increase 2.7% in 2006 and 2.4% in 2007.

DBEDT projects Hawaii's inflation, as measured in terms of changes in the Honolulu CPI, to increase 4.8% in 2006 and 3.8% in 2007. The GSP deflator is expected to grow 4.0% in 2006 and 2.8% in 2007.

ACCOUNTING SYSTEM AND BUDGETARY CONTROL

In developing and maintaining the State's accounting system, consideration is given to the effectiveness of internal control, which is designed to accomplish certain objectives of management, including:

1. Transactions are executed in accordance with management's general and specific authorization.
2. Transactions are recorded as necessary to permit preparation of financial statements in conformity with U.S. generally accepted accounting principles and to maintain accountability for assets.
3. Access to assets is permitted only in accordance with management's authorization.

I believe that the State's internal control is effective in accomplishing management's objectives.

By statutory provision, the State prepares a biennial budget for its programs. Budgeted expenditures are derived primarily from the General Appropriations Act of 2005, and from other authorizations contained in the State Constitution, the Hawaii Revised Statutes, and other specific appropriations acts in various Session Laws of Hawaii. Revenue estimates are provided to the State Legislature at the time of budget consideration and are revised and updated periodically during the fiscal year.

An allotment system and encumbrance accounting are utilized by the State for budgetary control purposes. Obligations in the form of purchase orders or contracts are recorded as encumbrances at the time purchase orders or contracts are awarded and executed. Open encumbrances are reported as reservations of fund balances at June 30, 2006. To the extent not expended or encumbered, General Fund and Special Revenue Fund appropriations subject to budgetary control generally lapse at the end of the fiscal year for which the appropriations were made. The State Legislature specifies the lapse date and any other particular conditions relating to terminating the authorizations for other appropriations.

CASH MANAGEMENT

During fiscal 2006, the State Treasury earned \$41.9 million for the General Fund by investing its temporary cash surpluses, an increase of \$16.7 million from the amount earned in the previous fiscal year. The fiscal 2006 earnings represent an average investment yield of 3.7%, an increase of 1.2% in the average investment yield from the previous fiscal year.

RISK MANAGEMENT

The State obtains third-party coverage for property losses. The property loss limit is \$100 million per occurrence, except for flood and earthquake which individually is a \$50 million aggregate loss, and terrorism and boiler and machinery which is \$50 million per occurrence. The State also acquires general liability insurance, medical insurance, faithful performance of duty, and depositors' forgery insurance for state employees, but is self-insured for other perils, including workers' compensation and automobile losses. Expenditures for workers' compensation, automobile losses, and general liability (for amounts not covered by insurance) are appropriated annually.

EMPLOYEE UNION CONTRACTS

The State Constitution grants public employees in Hawaii the right to organize for the purpose of collective bargaining as provided by law. There are 13 bargaining units, of which 12 bargaining units have state employees as members. The 12 bargaining units have contractual agreements in force as of the date of this letter.

INDEPENDENT AUDIT

Although the state statutes do not require an annual audit of the State's financial statements, the State engaged a firm of independent certified public accountants to audit the State's basic financial statements for the fiscal year ended June 30, 2006. The Independent Auditors' Report has been included in Part II of this report.

CERTIFICATE OF ACHIEVEMENT

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the State for its Comprehensive Annual Financial Report for the fiscal year ended June 30, 2005. This was the seventeenth consecutive year that the State has received this prestigious award.

In order to be awarded a Certificate of Achievement, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report whose contents conform to program standards. Such reports must satisfy both U.S. generally accepted accounting principles and applicable legal requirements. A Certificate of Achievement is valid for a period of one year.

I believe our current report continues to conform to the Certificate of Achievement Program's requirements and I am submitting it to the GFOA to determine its eligibility for the certificate.

ACKNOWLEDGEMENTS

I extend my appreciation to the staff of the various state agencies whose dedicated time and effort made the preparation of this report possible. Their combined efforts have produced a report that I believe will serve as a helpful source of information for anyone having an interest in the financial operations of the State.

Respectfully submitted,

RUSS K. SAITO
Comptroller, State of Hawaii

Independent Auditors' Report

The Auditor
State of Hawaii:

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Hawaii as of and for the year ended June 30, 2006, which collectively comprise the State of Hawaii's basic financial statements as listed in the table of contents. These financial statements are the responsibility of the State of Hawaii's management. Our responsibility is to express opinions on these financial statements based on our audit. We did not audit the financial statements of the Department of Transportation – Airports and Harbors Divisions, which are major enterprise funds, which represent 84% and 68%, respectively, of the assets and revenues of the business-type activities, and the University of Hawaii, the Housing and Community Development Corporation of Hawaii, the Hawaii Health Systems Corporation, and the Hawaii Hurricane Relief Fund, which represent all of the assets and revenues of the aggregate discretely presented component units. Those financial statements were audited by other auditors whose reports thereon have been furnished to us, and our opinions, insofar as they relate to the amounts included for the Department of Transportation – Airports and Harbors Divisions, the University of Hawaii, the Housing and Community Development Corporation of Hawaii, the Hawaii Health Systems Corporation, and the Hawaii Hurricane Relief Fund, are based solely on the reports of the other auditors.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes consideration of internal control over financial reporting as a basis for designing audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the State of Hawaii's internal control over financial reporting. Accordingly, we express no such opinion. An audit also includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements, assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, based on our audit and the reports of the other auditors, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the State of Hawaii as of June 30, 2006, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the General Fund for the year then ended in conformity with U.S. generally accepted accounting principles.

In accordance with *Government Auditing Standards*, we have also issued our report dated March 13, 2007 on our consideration of the State of Hawaii's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

The management's discussion and analysis on pages 15 through 30 is not a required part of the basic financial statements, but is supplementary information required by U.S. generally accepted accounting principles. We have applied certain limited procedures, which consisted principally of inquiries of management regarding the methods of measurement and presentation of the required supplementary information. However, we did not audit the information and express no opinion on it.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the State of Hawaii's basic financial statements. The introductory section, combining and individual fund statements and schedules, and the statistical section are presented for purposes of additional analysis and are not a required part of the basic financial statements. The combining and individual fund statements and schedules have been subjected to the auditing procedures applied by us in the audit of the basic financial statements and, in our opinion, are fairly stated in all material respects in relation to the basic financial statements taken as a whole. The introductory section and the statistical section have not been subjected to the auditing procedures applied by us and the other auditors in the audit of the basic financial statements, and accordingly, we express no opinion on them.

KPMG LLP

March 13, 2007

STATE OF HAWAII

Management's Discussion and Analysis

June 30, 2006

As management of the State of Hawaii (the State), we offer readers of the State's basic financial statements this narrative overview and analysis of the financial activities of the State for the fiscal year ended June 30, 2006. We encourage readers to consider the information presented here in conjunction with additional information that has been furnished in our letter of transmittal, which can be found on pages 3 – 7 of this report.

Financial Highlights

Government-Wide Highlights

The assets of the State exceeded its liabilities at June 30, 2006 by \$8.9 billion (net assets). Of this amount, \$2.4 billion (unrestricted net assets) may be used to meet the State's ongoing obligations to citizens and creditors. Net assets of governmental activities decreased by \$77.7 million and net assets of business-type activities increased by \$178.6 million for a net increase to the State of \$100.8 million from the prior fiscal year.

Fund Highlights

At June 30, 2006, the State's Governmental Funds reported combined ending fund balances of \$2.9 billion, an increase of \$334.3 million from the prior fiscal year. Of this amount, \$773.5 million, or 26.9%, of total fund balances are available for spending at the State's discretion (unreserved fund balance) and the remaining \$2.1 billion represent amounts reserved for specific purposes. The Proprietary Funds reported net assets at June 30, 2006 of \$2.6 billion, an increase of \$178.6 million during the fiscal year.

Long-Term Liabilities

The State's long-term liabilities decreased during the current fiscal year to \$6.1 billion, a decrease of \$2.3 billion. During fiscal 2006, the State issued \$350.0 million in general obligation bonds for the purpose of financing the Hawaiian Home Lands Trust settlement and public improvement projects.

Overview of the Basic Financial Statements

This discussion and analysis is intended to serve as an introduction to the State's basic financial statements. The State's basic financial statements are comprised of three components: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to basic financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-Wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the State's finances, in a manner similar to a private sector business.

The statement of net assets presents information on all of the State's assets and liabilities, with the difference between the two reported as net assets. Over time, increases or decreases in net assets may serve as a useful indicator of whether the financial position of the State is improving or deteriorating.

The statement of activities presents information showing how the State's net assets changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected taxes and unused vacation leave).

Management's Discussion and Analysis

June 30, 2006

Both of the government-wide financial statements distinguish functions of the State that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the State include general government, public safety, conservation of natural resources, highways, health, welfare, education, culture and recreation, urban redevelopment and housing, economic development and assistance, and interest on long-term debt. The business-type activities of the State include the Department of Transportation – Airports Division (Airports), Department of Transportation – Harbors Division (Harbors), and the Unemployment Compensation Fund, which are considered to be major funds, while the remaining business-type activities are combined into a single aggregate presentation.

The government-wide financial statements include not only the State itself (known as the Primary Government), but also the activities of four legally separate Component Units: the Hawaii Health Systems Corporation, the Hawaii Hurricane Relief Fund, the Housing and Community Development Corporation of Hawaii, and the University of Hawaii, comprised of the State's public institutions of higher education, for which the State is financially accountable. Financial information for these Component Units is reported separately from the financial information presented for the Primary Government itself. The Component Units issue separate financial statements containing management's discussion and analysis.

The government-wide financial statements can be found on pages 32 – 34 of this report.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The State, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the State can be divided into three categories: (1) Governmental Funds, (2) Proprietary Funds, and (3) Fiduciary Funds.

Governmental Funds

Governmental Funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, Governmental Funds financial statements focus on near-term inflows and outflows of spendable resources, as well as on the balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the State's near-term financing requirements.

Because the focus of Governmental Funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for Governmental Funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the State's near-term financing decisions. Both the Governmental Funds balance sheet and the Governmental Funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between Governmental Funds and governmental activities in the government-wide financial statements.

Information is presented separately in the Governmental Funds balance sheet and in the Governmental Funds statement of revenues, expenditures, and changes in fund balances for the General Fund and Capital Projects Fund, each of which are considered to be major funds. Data from the other Governmental Funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor

Management's Discussion and Analysis

June 30, 2006

Governmental Funds is provided in the form of combining financial statements in the supplementary information section of this report.

The State adopts an annual appropriated budget for its General Fund and Special Revenue Funds. A budgetary comparison statement has been provided for the General Fund and each Special Revenue Fund to demonstrate compliance with this budget. The budgetary comparison statement for the General Fund is located in the basic financial statements and the budgetary comparison statements for each of the Special Revenue Funds is located in the supplementary information section of this report.

The basic Governmental Funds financial statements can be found on pages 35 – 39 of this report.

Proprietary Funds

Proprietary Funds are used to show activities that operate more like those of commercial enterprises. They are known as Enterprise Funds because they charge fees for services provided to outsiders. They are used to report the same functions presented as business-type activities in the government-wide financial statements. The State uses Enterprise Funds to account for the operations of Airports, Harbors, the Unemployment Compensation Fund, and its other business-type activities.

Proprietary Funds provide the same type of information as the government-wide financial statements, only in more detail. The Proprietary Funds financial statements provide separate information for Airports, Harbors, and the Unemployment Compensation Fund, each of which are considered to be major funds of the State. Conversely, the other business-type activities are combined into a single, aggregate presentation in the Proprietary Funds financial statements.

The basic Proprietary Funds financial statements can be found on pages 40 – 44 of this report.

Fiduciary Funds

Fiduciary Funds are used to account for resources held for the benefit of parties outside the State. Fiduciary Funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the State's own programs. The accounting used for Fiduciary Funds is much like that used for Proprietary Funds.

The basic Fiduciary Funds financial statements can be found on pages 45 – 47 of this report.

Notes to Basic Financial Statements

The notes to basic financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes to basic financial statements can be found on pages 51 – 99 of this report.

Other Supplementary Information

In addition to the basic financial statements and accompanying notes, this report presents the combining financial statements referred to earlier in connection with non-major Governmental and Fiduciary Funds. These statements are presented immediately following the notes to basic financial statements. The total columns of these combining financial statements carry to the applicable fund financial statements.

STATE OF HAWAII

Management’s Discussion and Analysis

June 30, 2006

Government-Wide Financial Analysis

The following financial analysis focuses on the Primary Government (governmental and business-type activities of the State). Separate financial statements for each of the State’s Component Units, including their respective management’s discussion and analysis, can be obtained from the Department of Accounting and General Services.

Net assets are a useful indicator of a government’s financial position. For the State, total assets exceed liabilities by \$8.9 billion as of June 30, 2006, and increased \$100.8 million, or 1.1%, over the course of this fiscal year’s operations. The net assets of the governmental activities decreased by \$77.7 million, or 1.2%, and business-type activities had an increase of \$178.6 million, or 7.3%. The following table was derived from the government-wide statement of net assets.

Summary Schedule of Net Assets

STATE OF HAWAII

Management's Discussion and Analysis

June 30, 2006

Analysis of Net Assets

By far the largest portion of the State's net assets (\$5.0 billion or 56.0%) reflects its investment in capital assets (e.g., land, infrastructure, buildings, and equipment), less any related debt used to acquire those assets that is still outstanding. The State uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the State's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

An additional portion of the State's net assets (\$1.5 billion or 16.9%) represents resources that are subject to external restrictions or enabling legislation on how they may be used. The remaining balance of unrestricted net assets (\$2.4 billion or 27.1%) may be used to meet the State's ongoing obligations to citizens and creditors.

At June 30, 2006, the State is able to report positive balances in all three categories of net assets for both governmental activities and business-type activities.

Changes in Net Assets

The State's net assets increased by \$100.8 million, or 1.1%, during the fiscal year ended June 30, 2006. Approximately 60.2% of the State's total revenues came from taxes, while 26.4% resulted from grants and contributions (including federal aid). Charges for various goods and services provided 11.6% of the total revenues. The State's expenses cover a range of services. The largest expenses were for higher and lower education, welfare, health, and transportation (highways).

**Tax Revenues by Source – Governmental Activities
Fiscal Year Ended June 30, 2006**

STATE OF HAWAII

Management’s Discussion and Analysis

June 30, 2006

Analysis of Changes in Net Assets

The State’s net assets increased by \$100.8 million during the current fiscal year. This increase is explained in the governmental and business-type activities discussion below, and is primarily due to increases in the net assets of Airports and the Unemployment Compensation Fund of \$74.6 million and \$75.4 million, respectively.

Governmental Activities

Governmental activities decreased the State’s net assets by \$77.7 million. The key elements of this decrease are a result of higher expenses for lower and higher education, highways, and health.

	Governmental Activities (Amounts in thousands)	
	2006	2005
General revenues:		
Taxes	\$ 4,755,131	\$ 4,321,167
Interest and investment income and other	99,546	61,389

Increase (decrease) in governmental activities net assets	<u>\$ (77,727)</u>	<u>\$ 419,061</u>

Management's Discussion and Analysis

June 30, 2006

Tax revenues increased by \$434.0 million, or 10.0%, from the previous fiscal year. The increase was primarily due to increases in general excise taxes of \$213.7 million and in individual and corporate income taxes of \$184.2 million. The increase in tax revenues reflects the State's economic resurgence in tourism, construction, and real estate.

Public safety net expenses increased by \$88.4 million, or 49.8%, from the previous fiscal year due to an increase in costs to operate correctional facilities, which includes the costs to house additional inmates in mainland facilities, subsidies paid to the counties, and a decrease in the capitalization of capital project costs.

Highways net expenses increased by \$390.0 million, or 284.3%, from the previous fiscal year due to an increase in depreciation expense of \$56.5 million, a decrease in capitalization of capital project costs of \$323.3 million, and a decrease in capital contributions of \$22.5 million.

Health net expenses increased by \$100.1 million, or 32.8%, from the previous fiscal year due to an increase in expenditures for medical services programs.

Lower education net expenses increased by \$412.7 million, or 27.7%, from the previous fiscal year due to an increase of \$202.4 million for school-based budgeting programs, a decrease in capitalization of capital project costs of \$199.0 million, and a decrease of \$22.3 million in operating grants and contributions.

Higher education net expenses increased by \$119.0 million, or 21.3%, from the previous fiscal year due primarily to the increase in expenses for the University of Hawaii's operating budget.

Urban redevelopment and housing net expenses decreased by \$131.2 million, or 2,447.4%, from the previous fiscal year due to an increase of \$158.7 million in capital contributions.

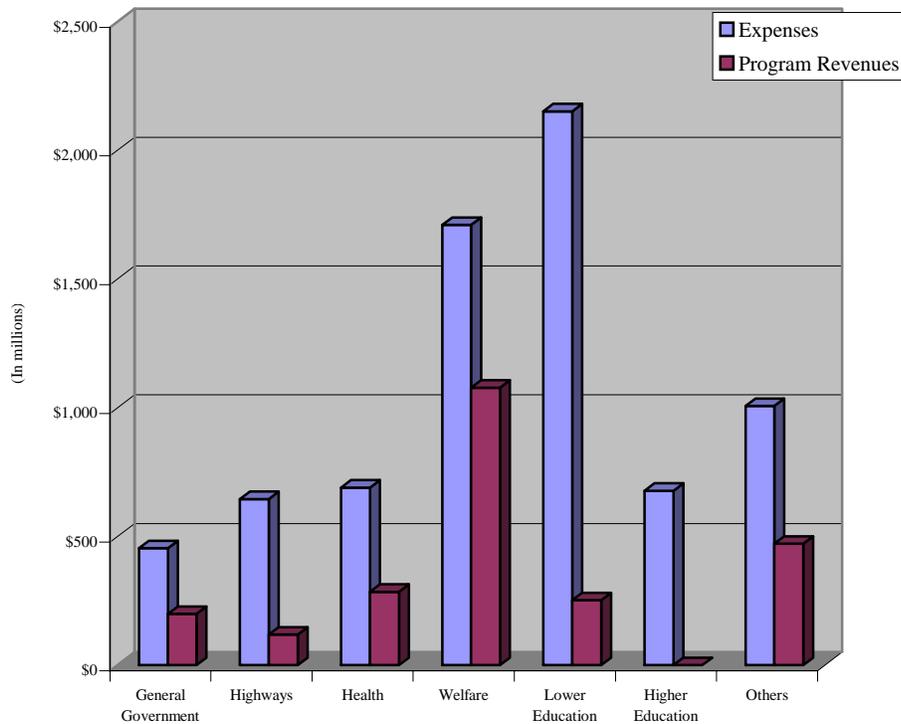

STATE OF HAWAII

Management's Discussion and Analysis

June 30, 2006

A comparison of the cost of services by function of the State's governmental activities is shown below, along with the revenues used to cover the net expenses of the governmental activities. This format identifies the extent to which each governmental function is self-financing through fees and intergovernmental aid or draws from the general revenues of the State:

**Expenses and Program Revenues – Governmental Activities
Fiscal Year Ended June 30, 2006**

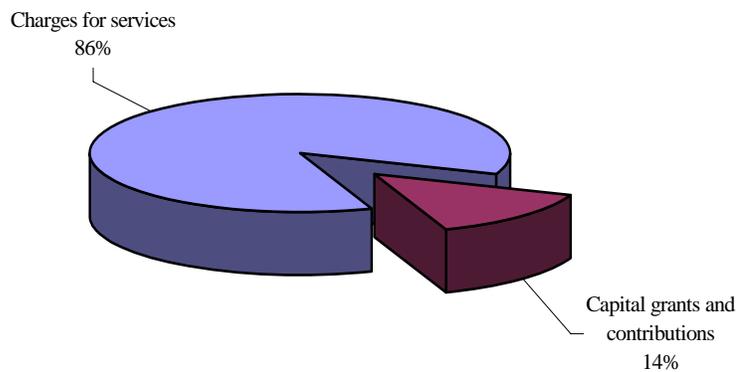

Management's Discussion and Analysis

June 30, 2006

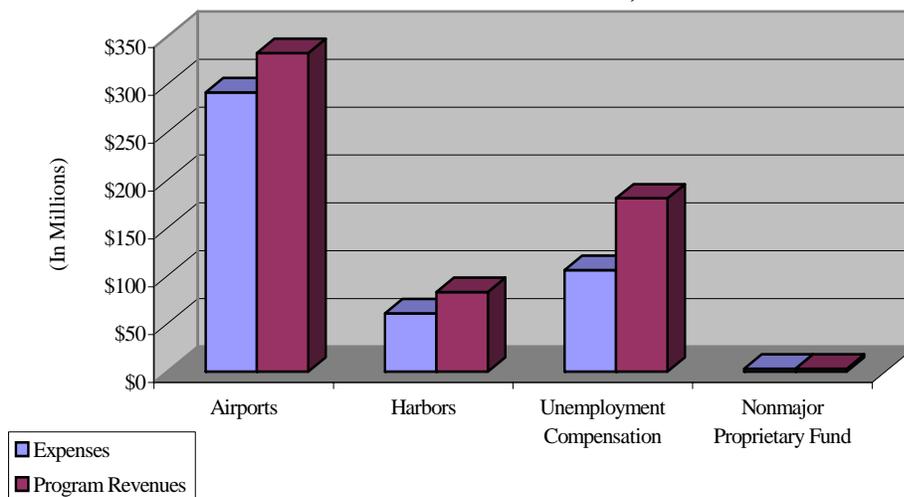

Business-Type Activities

The following charts depict revenues and expenses of the business-type activities for the fiscal year:

**Program Revenues by Source – Business-Type Activities
Fiscal Year Ended June 30, 2006**

**Expenses and Program Revenues – Business-Type Activities
Fiscal Year Ended June 30, 2006**

STATE OF HAWAII

Management's Discussion and Analysis

June 30, 2006

Business-type activities increased the State's net assets by \$178.6 million, or 7.3%, during the current fiscal year. Key elements of this increase are as follows:

- Airport's net assets increased \$74.6 million during the fiscal year ended June 30, 2006. The increase was primarily due to an increase of interest income of \$10.9 million and an increase in capital contributions of \$40.1 million.
- Harbor's net assets increased \$28.1 million compared to an increase of \$15.0 million in the previous fiscal year. The increase was primarily attributed to an increase in operating and nonoperating revenues of \$10.1 million and a reduction in operating and nonoperating expenses of \$3.3 million.
- The Unemployment Compensation Fund's net assets increased \$75.4 million because of an increase in unemployment tax revenues and lower unemployment benefits paid due to Hawaii's low unemployment rate.

Key elements of the State's business-type activities for the fiscal years ended June 30, 2006 and 2005 are as follows:

	Business-Type Activities									
	(Amounts in thousands)									
	Program Revenues									
	Operating/Capital				Total		Expenses		Program Revenues	
	Charges for Services		Grants and Contributions		Total		Expenses		Net of Expenses	
2006	2005	2006	2005	2006	2005	2006	2005	2006	2005

Total	\$ 519,174	\$ 484,164	\$ 81,145	\$ 35,048	\$ 600,319	\$ 519,212	\$ 461,867	\$ 453,729	\$ 138,452	\$ 65,483

Financial Analysis of the State's Individual Funds

As noted earlier, the State uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the State's Governmental Funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the State's financing requirements. In particular, unreserved fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

As of the end of the current fiscal year, the State's Governmental Funds reported combined ending fund balances of \$2.9 billion, an increase of \$334.3 million over the prior fiscal year. Approximately \$773.5 million, or 26.9%, of this total amount constitutes unreserved fund balance, which is available for spending at the State's discretion in the coming fiscal year. The remainder of fund balance is reserved to

Management's Discussion and Analysis

June 30, 2006

indicate that it is not available for new spending because it has already been committed (1) to liquidate contracts and purchase orders of the prior period or are legally segregated for a specific future use (\$1.6 billion), (2) for notes and loan receivable, advances, and investments (\$224.9 million), (3) for federal aid highway projects encumbrances (\$220.3 million), or (4) for a variety of other restricted purposes (\$40.4 million).

The General Fund is the chief operating fund of the State. At the end of the current fiscal year, unreserved fund balance of the General Fund was \$1.0 billion, an increase of \$268.2 million, or 36.0%, over the prior fiscal year, and the reserved fund balance was \$249.6 million, an increase of \$29.8 million, or 13.5%, over the prior fiscal year. As a measure of the General Fund's liquidity, it may be useful to compare both unreserved fund balance and total fund balance to total fund expenditures. Unreserved fund balance represents 25.4% of total General Fund expenditures, an increase of 5.0% over the prior fiscal year, while total fund balance represents 31.7% of that same amount, an increase of 5.3% over the prior fiscal year.

The fund balance of the State's General Fund increased by \$298.0 million during the current fiscal year, which was due primarily to an increase in tax revenues. The fund balance of the State's Capital Projects Fund decreased by \$81.4 million during the current fiscal year. Because of adequate cash reserves, the State issued \$100 million less general obligation bonds this fiscal year, which was the primary reason for the decrease in fund balance. The fund balance of the State's other nonmajor Governmental Funds increased by \$117.8 million during the current fiscal year. The increase was due to increases in the collections of the deposit beverage container fee of \$25.6 million, the conveyance tax of \$13.7 million, and the transient accommodations tax of \$10.0 million. Decreases in transfers to the General Fund of \$56.7 million and to the Capital Projects Fund of \$29.6 million, also contributed to the increase in fund balance.

Proprietary Funds

The State's Proprietary Funds provide the same type of information found in the government-wide financial statements, but in more detail. At the end of the current fiscal year, Airports had an increase in net assets of \$74.6 million, Harbors had an increase in net assets of \$28.1 million, and the Unemployment Compensation Fund had an increase in net assets of \$75.4 million. Other factors concerning the finances of Airports, Harbors, and the Unemployment Compensation Fund have already been addressed in the discussion of the State's business-type activities.

Fiduciary Funds

The State maintains Fiduciary Funds for the assets of the Hawaiian Home Lands Trust. As of the end of the current fiscal year, the net assets of the Hawaiian Home Lands Trust totaled \$181.8 million, representing an increase of \$6.5 million in total net assets since June 30, 2005.

General Fund Budgetary Highlights

The General Fund revenues were \$101.3 million, or 2.1%, more than the final budget. The increase was primarily attributed to higher individual net income taxes and charges for current services of \$40.7 million and \$13.0 million, respectively.

Management's Discussion and Analysis

June 30, 2006

The General Fund expenditure budget increased by \$193.4 million from the original to the final budget. Most of the increase is due to the original budget consisting only of the appropriations contained in the general appropriation acts of the executive and judicial branches. Amounts that were not part of this original budget include: \$70.6 million in employees' salary adjustments, \$28.5 million for the State Legislature, \$27.7 million for various health programs, including adult mental health, Title XIX waiver program and pandemic influenza, \$13.5 million in various lower education programs, and \$4.4 million in legislative relief for claims. Also, \$17.5 million to pay the Office of Hawaiian Affairs for the use of public land trust lands were not in the original budget.

The difference between the final budget and actual expenditures on a budgetary basis was \$138.7 million. The positive variance in general government is primarily attributed to \$13.6 million of appropriations made to the State Legislature that can be carried over to the next fiscal year and \$5.2 million appropriated for employees' salary adjustments that lapsed. The positive variance in general government was also due to a reduction in health benefit premiums of approximately \$26.9 million, a premium holiday in December 2005, where employer and employees were not charged for premiums, and lower rates for retirees in January 2006. As in previous fiscal years, the positive variance in lower education resulted when the Department of Education carried over \$33.3 million of unencumbered appropriations into the next fiscal year. By law, the Department of Education is allowed to carry over up to 5% of its unencumbered appropriations. The positive variance in higher education resulted when the University of Hawaii carried over \$26.9 million of appropriations to the next fiscal year.

Capital Asset and Debt Administration

Capital Assets

The State's investment in capital assets for its governmental and business-type activities as of June 30, 2006 amounted to \$10.8 billion (net of accumulated depreciation of \$6.8 billion), a decrease of \$311.3 million from fiscal 2005. The decrease is due to the current year's depreciation expense in excess of net additions for the year. This investment in capital assets includes land, buildings and improvements, machinery and equipment, park facilities, roads, highways, and bridges. Major capital improvement projects, which received funding in the fiscal year ended June 30, 2006, included the following:

- \$93.1 million of funding for the Kapolei Judiciary Complex in Oahu, Hawaii
- \$11.0 million for Haleakala Highway Widening in Maui
- \$12.6 million for asbestos removal for the Kamamalu Building
- \$184.1 million for various capital improvement projects for public school facilities throughout the State.

Additional information on the State's capital assets can be found in note 4 of the notes to basic financial statements.

STATE OF HAWAII

Management's Discussion and Analysis

June 30, 2006

Debt Administration

At the end of the current fiscal year, the State had total bonded debt outstanding of \$5.5 billion. Of this amount, \$4.3 billion comprises debt backed by the full faith and credit of the State and \$1.2 billion (i.e., revenue bonds) is revenue bonded debt that is payable from and secured solely by the specified revenue sources. A breakdown of the State's total bonded debt is shown below:

Long-Term Debt

June 30, 2006 and 2005

(Amounts in thousands)

	Governmental Activities		Business-Type Activities		Total	
	June 30, 2006	June 30, 2005	June 30, 2006	June 30, 2005	June 30, 2006	June 30, 2005
General obligation bonds	\$ 4,322,964	\$ 4,256,633	\$ 137	\$ 167	\$ 4,323,101	\$ 4,256,800
Revenue bonds	306,255	319,305	883,823	918,142	1,190,078	1,237,447
Total	<u>\$ 4,629,219</u>	<u>\$ 4,575,938</u>	<u>\$ 883,960</u>	<u>\$ 918,309</u>	<u>\$ 5,513,179</u>	<u>\$ 5,494,247</u>

The State's total long-term debt increased by \$18.9 million, or 0.3%, during the current fiscal year. The key factor in this increase was the issuance of \$350.0 million in general obligation bonds for financing the Hawaiian Home Lands Trust settlement and public improvement projects.

The State maintained its Aa2 credit rating with Moody's Investors Service and AA- with Standard and Poor's Corporation while Fitch IBCA, Inc. upgraded the State's rating to AA from AA-.

The State Constitution limits the amount of general obligation bonds that may be issued. As required by law, the Director of Finance has confirmed that the State was within its legal debt limit. The legal debt margin at June 30, 2006 was \$284.5 million.

Additional information on the State's long-term debt can be found in notes 5, 6, and 7 of the notes to basic financial statements.

Economic Factors and Next Year's Budget

Unemployment is at record low levels with the statewide seasonally adjusted unemployment rate being 2.1% for the month of October 2006. One year ago, Hawaii's seasonally adjusted unemployment rate stood at 2.8%, while the seasonally adjusted national unemployment rate was 4.4%.

Cumulative tax collections for the first five months of fiscal 2007 exceeded \$2.1 billion or \$64.1 million more than the corresponding period last year. General excise and use tax collections, which is the largest source of revenue and a good measure of economic growth, increased 10.0% in the same period.

STATE OF HAWAII

Management's Discussion and Analysis

June 30, 2006

The Council on Revenues in September 2006 estimated that the General Fund growth rate would be 6.0% in fiscal 2007 and fiscal 2008. Actual General Fund tax collections rose by 3.8% in the first five months of fiscal 2007 over the corresponding 2006 period. However, adjusting for a large one-time corporate net income tax collection of \$40 million in September 2005, fiscal year-to-date General Fund tax collections would have grown by 6.1% over last year. Higher general excise and use tax collections and the substantial rise in corporate net income tax collections were the primary factors underlying this strong performance. In November 2006, the Council on Revenues forecast Hawaii's growth at 6.0% in 2007 total personal income.

Requests for Information

Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Comptroller, Department of Accounting and General Services, P.O. Box 119, Honolulu, Hawaii 96810-0119. General information about the State can be found at the State's website, <http://www.hawaii.gov>.

**Reconciliation of the Governmental Funds Balance Sheet
to the Statement of Net Assets**

June 30, 2006

(Amounts in thousands)

Total Fund Balance – Governmental Funds	\$	2,874,263
Amounts reported for governmental activities in the statement of net assets are different because:		
Capital assets used in governmental activities are not financial resources and therefore are not reported in the funds. Those assets consist of:		
Land and land improvements	\$	2,308,543
Infrastructure		7,926,740
Construction in progress		602,823
Buildings, improvements, and equipment		3,224,933
Accumulated depreciation		<u>(5,335,983)</u>
		8,727,056
Accrued interest and other payables are not recognized in governmental funds.		(329,500)
Other assets are not available to pay for current-period expenditures and are deferred, or not recognized, in governmental funds, such as deferred tax revenue.		144,933
Some liabilities are not due and payable in the current period and therefore are not reported in the funds. Those liabilities consist of:		
General obligation bonds payable	(4,322,964)	
Accrued vacation payable	(185,023)	
Revenue bonds payable	(306,255)	
Reserve for losses and loss adjustment costs	(77,500)	
Claims and judgments payable	(204,000)	
Capital lease obligations	<u>(58,035)</u>	
		<u>(5,153,777)</u>
Net Assets of Governmental Activities	\$	<u><u>6,262,975</u></u>

See accompanying notes to basic financial statements.

STATE OF HAWAII

**Reconciliation of the Governmental Funds Statement of Revenues,
Expenditures, and Changes in Fund Balances to the Statement of Activities**

For the Fiscal Year Ended June 30, 2006

(Amounts in thousands)

Total Net Change in Fund Balances – Governmental Funds	\$	334,347
Amounts reported for governmental activities in the statement of activities are different because:		
Capital outlays are reported as expenditures in governmental funds; however, in the statement of activities, the cost of capital assets is allocated over their estimated useful lives as depreciation expense. In the current period, these amounts are:		
Capital outlay, net of disposals	\$	(579)
Depreciation expense (note 4)		<u>(368,357)</u>
Excess of capital outlay over depreciation expense		(368,936)
Bond proceeds provide current financial resources to governmental funds; however, issuing debt increases long-term liabilities in the statement of net assets. In the current period, this is the amount of proceeds received from general obligation bonds issued.		
		(367,585)
Repayment of long-term debt is reported as an expenditure in governmental funds, but the repayment reduces long-term liabilities in the statement of net assets. In the current year, these amounts consist of:		
Bond principal retirement	296,719	
Capital lease payments	3,305	
Claims and judgment payments	<u>30,000</u>	
Total long-term debt repayment		330,024
Revenue timing differences result in greater revenue in the government-wide financial statements.		
		28,733
Bond issue and deferred costs reflected as other financing uses in governmental funds and reported in the statement of net assets, net of amortization.		
		(21,815)
Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in the governmental funds:		
Change in claims and judgments payable	(13,200)	
Change in accrued vacation payable	(10,895)	
Change in reserve for losses and loss adjustment costs	<u>11,600</u>	
		<u>(12,495)</u>
Change in Net Assets of Governmental Activities	\$	<u><u>(77,727)</u></u>

See accompanying notes to basic financial statements.

Notes to Basic Financial Statements

June 30, 2006

(1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the State of Hawaii (the State) have been prepared in conformity with U.S. generally accepted accounting principles (GAAP). The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the State's accounting policies are described below.

A. Reporting Entity

The accompanying basic financial statements present the financial activity of the State (Primary Government) and its Component Units, entities for which the Primary Government is considered to be financially accountable. Discretely presented Component Units are legally separate organizations for which the Primary Government is financially accountable or for which the nature and significance of their relationship to the Primary Government are such that exclusion would cause the State's reporting entity to be misleading or incomplete.

Primary Government

The following branches and departments are included in the State's reporting entity because of the significance of their operational or financial relationships with the State.

Executive:

- Accounting and General Services
- Agriculture
- Attorney General
- Budget and Finance
- Business, Economic Development and Tourism
- Commerce and Consumer Affairs
- Defense
- Education
- Hawaiian Home Lands
- Health
- Human Resources Development
- Human Services
- Labor and Industrial Relations
- Land and Natural Resources
- Public Safety
- Taxation
- Transportation

Judicial

Legislative

Notes to Basic Financial Statements

June 30, 2006

Discretely Presented Component Units

The Component Units column in the basic financial statements includes the financial data of the State's discretely presented Component Units. They are reported in a separate column to emphasize that they are legally separate from the State. The governing bodies of these discretely presented Component Units are appointed by the Governor. The discretely presented Component Units are as follows:

University of Hawaii

The State's public institutions of higher education provide instruction and conduct research in, and disseminate knowledge of, agriculture, economics, history, languages, literature, mathematics, mechanical arts, natural sciences, philosophy, political and social sciences, physics, and such other branches of advanced learning as the Board of Regents of the University of Hawaii (UH) may prescribe and the federal government require.

Hawaii Revised Statutes (HRS) Chapter 304 governs the activities of the UH. The activities of the UH are under the general management of the Board of Regents consisting of 12 members who are appointed and may be removed by the Governor.

Housing and Community Development Corporation of Hawaii

The Housing and Community Development Corporation of Hawaii (HCDCH) was established as a corporate body to be placed within the Department of Human Services for administrative purposes. The HCDCH's housing programs include performing housing finance, housing development, and residential leasehold functions; and clearing, replanning, and reconstructing areas in response to the State Legislature's determination that there exists a critical shortage of safe and sanitary, affordable housing units for lower income residents. The State has the ability to influence the budget and programs of the HCDCH.

HRS Chapter 201G states that the HCDCH shall be a public body and a body corporate and politic. The statute provides that the HCDCH shall be headed by a Board of Directors comprised of eight members. The eight members consist of the following:

- Five public members appointed by the Governor (one appointed at large, and the remaining four appointed from each of the counties of Honolulu, Hawaii, Kauai, and Maui);
- The Director of Business, Economic Development and Tourism;
- The Director of Human Services; and
- The Representative of the Governor's Office.

Hawaii Health Systems Corporation

The Hawaii Health Systems Corporation (HHSC) was established as a corporate body to be placed within the Department of Health for administrative purposes. The HHSC, consisting of the state hospitals, was created to provide quality health care for all of the people in the State, including those served by small rural facilities, by freeing the facilities from unwarranted bureaucratic oversight.

STATE OF HAWAII

Notes to Basic Financial Statements

June 30, 2006

Act 262, Session Laws of Hawaii (SLH) of 1996, states that the HHSC shall be a public body corporate and politic and an instrumentality and agency of the State. The HHSC commenced operations on July 1, 1996. The statute provides that the HHSC shall be governed by a Board of Directors. The Board consists of the following 13 members:

- Ten members appointed by the Governor:
 - One member from each of the counties of Honolulu, Kauai, and Maui;
 - Two members from the county of Hawaii;
 - One member from either the county of Kauai, or the county of Maui (district of Hana or island of Lanai); and
 - Four at-large members;
- The chairperson of the executive public health facility management advisory committee, as an Ex Officio voting member;
- A physician appointed by the executive public health facility management advisory committee; and
- The Director of Health, as an Ex Officio voting member.

The State provides significant operating subsidies to the HHSC. Accordingly, a financial benefit/burden relationship exists between the State and the HHSC.

Negotiations between the HHSC and the State relating to the allocation of assets, liabilities, and fund balances between the Department of Health and the HHSC pursuant to Act 262 has not been finalized as of June 30, 2006. Accordingly, the assets, liabilities, and net assets of the HHSC reflected in the accompanying basic financial statements may be significantly different from those included in the final settlement.

The HHSC is comprised of the following state hospitals:

Hale Ho'ola Hamakua	Lanai Community Hospital
Hilo Medical Center	Leahi Hospital
Ka'u Hospital	Samuel Mahelona Memorial Hospital
Kauai Veterans Memorial Hospital	Maluhia
Kohala Hospital	Maui Memorial Medical Center
Kona Community Hospital	Yukio Okutsu Veterans Care Home
Kula Hospital	

Notes to Basic Financial Statements

June 30, 2006

Hawaii Hurricane Relief Fund

The Hawaii Hurricane Relief Fund (HHRF) was organized pursuant to, and operates in accordance with, HRS Chapter 431P. The HHRF, which began its operations on July 1, 1993, was established as a public body and a body corporate and politic to be placed within the Department of Commerce and Consumer Affairs for administrative purposes. The HHRF was primarily organized to provide hurricane property insurance policies in Hawaii in the event the private insurance market does not make such policies readily available to consumers in Hawaii.

Due to the increase in the availability of hurricane property insurance coverage from the private sector, the HHRF ceased writing hurricane property insurance policies effective December 1, 2000.

In conjunction with the HHRF's cessation of providing hurricane property insurance coverage, servicing carriers are exempted from the 3.75% assessment of their gross direct written premiums for property and casualty insurance in Hawaii, once they begin to offer their own policies. All remaining carriers are exempted effective September 30, 2001. Further, the collection of the special mortgage recording fees from mortgagors has also been suspended as of July 1, 2001.

Although the HHRF no longer functions in its capacity to provide hurricane property insurance coverage subsequent to November 2001, it has been determined at this time that the HHRF should not be dissolved in the event it may need to re-enter the insurance market.

The HHRF is administered and operated by a Board of Directors. The Board consists of the following seven members:

- The Insurance Commissioner, as an Ex Officio voting member, appointed by the Governor; and
- Six members appointed by the Governor with the advice and consent of the Senate:
 - Two members appointed by the Governor;
 - Two members appointed by the Governor from a list of nominations submitted by the President of the Senate; and
 - Two members appointed by the Governor from a list of nominations submitted by the Speaker of the House of Representatives.

Information for obtaining financial statements for the discretely presented Component Units may be obtained from the Department of Accounting and General Services.

The Employees' Retirement System of the State of Hawaii (ERS), which is administered on behalf of public employees for both the state and county governments, and the Office of Hawaiian Affairs (OHA), which exists for the betterment of the conditions of native Hawaiians, are excluded from the State's reporting entity because those agencies, based on the fiscal independence and/or separate legal entity status, are not accountable to the State.

Notes to Basic Financial Statements

June 30, 2006

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (the statement of net assets and the statement of activities) report information of all of the nonfiduciary activities of the Primary Government and its Component Units. For the most part, the effect of interfund activity has been removed from these government-wide statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. Likewise, the Primary Government is reported separately from the legally separate Component Units for which the Primary Government is financially accountable.

The statement of activities demonstrates the degree to which the direct expenses of a given function, segment, or component unit are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function, segment, or component unit. Program revenues include charges to customers who purchase, use, or directly benefit from goods or services provided by a given function, segment, or component unit. Program revenues also include grants and contributions that are restricted to meeting the operational or capital requirements of a particular function, segment, or component unit. Taxes and other items not properly included among program revenues are reported instead as general revenues. Resources that are dedicated internally are reported as general revenues rather than as program revenues. The State does not allocate general government (indirect) expenses to other functions.

Net assets are restricted when legally enforceable enabling legislation places restrictions or are externally imposed by citizens and/or public interest groups. Additionally, restricted net assets are reevaluated if any of the resources raised by the enabling legislation are used for a purpose not specified by the enabling legislation or if the government has other cause for reconsideration. Internally imposed designations of resources are not presented as restricted net assets. When both restricted and unrestricted resources are available for use, generally it is the State's policy to use restricted resources first, then unrestricted resources as they are needed.

Separate financial statements are provided for Governmental Funds, Proprietary Funds, Fiduciary Funds, and major Component Units. However, the Fiduciary Funds are not included in the government-wide financial statements. Major individual Governmental Funds and major individual Proprietary Funds are reported as separate columns in the fund financial statements.

C. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Government-Wide Financial Statements – The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements have been met.

Governmental Funds Financial Statements – The Governmental Funds financial statements are reported using the current financial resources measurement focus and the modified-accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the State considers revenues other

STATE OF HAWAII

Notes to Basic Financial Statements

June 30, 2006

than federal grants and assistance awards to be available if they are collected within 60 days of the end of the current fiscal year. Revenues susceptible to accrual include taxpayer-assessed tax revenues. Taxpayer-assessed tax revenues primarily consist of income and general excise taxes. Other revenues which are not considered susceptible to accrual, and therefore, are not accrued include fines, forfeitures and penalties, licenses, permits, and franchises.

Federal grants and assistance awards made on the basis of entitlement periods are recorded as revenue when available and entitlement occurs which is generally within 12 months of the end of the current fiscal year. All other federal reimbursement-type grants are recorded as intergovernmental receivables and revenues when the related expenditures or expenses are incurred as of fiscal year-end and funds are available.

Expenditures are generally recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Encumbrances are recorded obligations in the form of purchase orders or contracts. The State records encumbrances at the time purchase orders or contracts are awarded and executed. Encumbrances outstanding at fiscal year-end are reported as reservations of fund balances since they do not constitute expenditures or liabilities.

Proprietary Funds, Fiduciary Funds, and Component Units Financial Statements – The financial statements of the Proprietary Funds, Fiduciary Funds, and Component Units are reported using the economic resources measurement focus and the accrual basis of accounting, similar to the government-wide financial statements described above.

In accordance with GASB Statement No. 20, *Accounting and Financial Reporting for Proprietary Funds and Other Governmental Entities That Use Proprietary Fund Accounting*, the State has elected not to apply all Financial Accounting Standards Board (FASB) pronouncements issued after November 30, 1989.

Proprietary Funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a Proprietary Fund's principal ongoing operations. Revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

D. Fund Accounting

The financial activities of the State are recorded in individual funds, each of which is deemed to be a separate accounting entity. The State uses fund accounting to report on its financial position and results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities. A fund is a separate accounting entity with a self-balancing set of accounts.

Notes to Basic Financial Statements

June 30, 2006

The financial activities of the State that are reported in the accompanying fund financial statements have been classified into the following major and nonmajor Governmental and Proprietary Funds. In addition, a description of the Fiduciary Funds and Component Units are as follows:

Governmental Fund Types

The State reports the following major Governmental Funds:

General Fund

This fund is the State's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

Capital Projects Fund

This fund accounts for substantially all of the financial resources obtained and used for the acquisition or construction of the State's capital assets and facilities. Such resources are derived principally from proceeds of general obligation and revenue bond issues, federal grants, and transfers from the Special Revenue Funds.

The nonmajor Governmental Funds are comprised of the following:

Special Revenue Funds

These funds account for the financial resources obtained from specific revenue sources and used for restricted purposes.

Debt Service Fund

This fund accounts for the financial resources obtained and used for the payment of principal and interest on general and revenue long-term bond obligations.

Proprietary Fund Type – Enterprise Funds

The major Enterprise Funds are comprised of the following:

Department of Transportation – Airports Division (Airports)

Airports operates the State's airports and air navigation facilities and is responsible for general supervision of aeronautics within the State.

Department of Transportation – Harbors Division (Harbors)

Harbors maintains and operates the State's commercial harbors system.

Unemployment Compensation Fund

This fund accounts for the unemployment compensation benefits to qualified recipients.

Notes to Basic Financial Statements

June 30, 2006

The nonmajor Enterprise Fund is comprised of the Health Fund. This fund accounts for the Hawaii Employer-Union Health Benefits Trust Fund (EUTF), which includes medical, dental, and life insurance coverage.

Fiduciary Fund Types

Private-Purpose Trust Fund

Act 14, Special SLH of 1995, was approved by the Governor on June 29, 1995 and obligates the State to make 20 annual deposits of \$30,000,000, or their discounted value equivalent, into the Hawaiian Home Lands Trust Fund beginning in the fiscal year ended June 30, 1996. The primary purpose of Act 14 is to resolve controversies and claims related to the Hawaiian Home Lands trust, which arose between August 31, 1959 and July 1, 1988. Act 14 also established in the State Treasury a trust fund known as the Hawaiian Home Lands Trust Fund.

Agency Funds

Agency funds account for various taxes, deposits, and property held by the State pending distribution to other governments and individuals.

Component Units

Component Units are comprised of (1) the UH, which is comprised of the State's public institutions of higher education; (2) the HCDCH, which provides dwelling units for low- and moderate-income residents of the State; (3) the HHSC, which was established to provide quality health care for all of the people of the State; and (4) the HHRF, which funds, assesses, and provides, when necessary, hurricane property insurance to residents of the State.

E. Cash and Short-Term Investments

Cash and short-term investments include all cash, repurchase agreements, and U.S. government securities with original maturities of three months or less, and all time certificates of deposit.

For purposes of the statement of cash flows, the State has defined cash equivalents to be all highly liquid investments (including restricted assets) with a maturity of three months or less when purchased.

F. Receivables and Payables

Activities between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as interfund receivables/interfund payables. Any residual balances outstanding between the governmental activities and the business-type activities are reported in the government-wide financial statements as internal balances.

Advances between funds, as reported in the fund financial statements, are offset by a fund balance reserve account in the applicable Governmental Funds to indicate that they are not available for appropriation and are not expendable available financial resources.

All tax and other receivables are shown net of an allowance for uncollectible accounts and estimated refunds due.

Notes to Basic Financial Statements

June 30, 2006

G. Investments

Investments in U.S. government securities are carried at fair value based on quoted market prices. Investments in time certificates of deposit and repurchase agreements are carried at cost.

H. Inventories

Inventories of developments in progress and units available for sale are stated at the lower of cost or estimated net realizable value, with cost being determined by the specific-identification method. All estimated carrying costs to the anticipated date of disposition are considered in the determination of estimated net realizable value. Units available for sale include constructed units, developed lots, and repurchased units available for sale. Developments in progress include construction in progress and land held for future development.

Materials and supplies inventories are stated at the lower of cost or market, with cost being determined principally using the first-in, first-out method.

Inventories in the Governmental Funds are recorded as expenditures when consumed rather than when purchased.

I. Restricted Assets

Revenue bond indentures authorize the State's trustees to invest monies in time certificates of deposit, money market funds, and investment securities, including U.S. government or agency obligations, certain municipal bonds, and repurchase agreements. Uninsured time certificates of deposit are required to be collateralized by investment securities of an equal or greater market value. The underlying securities for repurchase agreements are required to be U.S. government or agency obligations of an equal or greater market value held by the State's agent in the State's name.

J. Capital Assets

Capital assets, which include land and land improvements, infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), buildings and improvements, and equipment, are reported in the applicable governmental and business-type activities columns, as well as the Component Units column, in the government-wide financial statements. Capital assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at their estimated fair market value at the date of donation.

Major outlays for capital assets and improvements are capitalized as projects are constructed to the extent the State's capitalization thresholds are met. Interest incurred during the construction phase of the capital assets of business-type activities is reflected in the capitalized value of the asset constructed, net of interest earned, on the invested proceeds over the same period.

The State's capitalization thresholds are \$5,000 for equipment, and \$100,000 for land and land improvements, infrastructure, and buildings and improvements. Maintenance and repairs are charged to operations when incurred. Betterments and major improvements which significantly increase values, change capacities, or extend useful lives are capitalized. Upon sale or retirement of capital assets, the cost and the related accumulated depreciation, as applicable, are removed from the respective accounts, and any resulting gain or loss is recognized in the statement of activities.

STATE OF HAWAII

Notes to Basic Financial Statements

June 30, 2006

Capital assets of the Primary Government, as well as the Component Units, are depreciated or amortized using the straight-line method over the following estimated useful lives:

Infrastructure	12 to 50 years
Buildings and improvements	15 to 30 years
Equipment	5 to 7 years

Works of art and historical treasures held for public exhibition, education, or research in furtherance of public service, rather than financial gain, are capitalized. These items are protected, kept encumbered, conserved, and preserved by the State. It is the State's policy to utilize proceeds from the sale of these items for the acquisition of other items for collection and display.

K. Compensated Absences

It is the State's policy to permit employees to accumulate earned but unused vacation and sick leave benefits. There is no liability for unpaid accumulated sick leave since sick leave is not convertible to pay upon termination of employment. All vacation pay is accrued when incurred in the government-wide, Proprietary Funds, and Component Units financial statements. A liability for these amounts is reported in the Governmental Funds only if they have matured, for example, as a result of employee resignations and retirements.

L. Long-Term Obligations

In the government-wide financial statements and Proprietary Fund Type in the fund financial statements, as well as in the Component Units financial statements, long-term debt, and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, Proprietary Fund Type, or Component Units statement of net assets. Initial-issue bond premiums and discounts, as well as issuance costs, are deferred and amortized over the life of the bonds using the effective-interest method. The difference between the reacquisition price of refunding bonds and the net carrying amount of refunded debt (deferred amount on refunding) is amortized over the shorter of the life of the refunding debt or the remaining life of the refunded debt. Bonds payable are reported net of the unamortized portion of applicable premium, discount, or deferred amount on refunding. Bond issuance costs, including underwriters' discount, are reported as deferred bond issuance costs. Amortization of bond premiums or discounts, issuance costs, and deferred amounts on refunding is included in interest expense.

In the fund financial statements, Governmental Funds recognize bond premiums, discounts, and issuance costs during the period issued. The face amount of debt issued is reported as other financing sources. Premiums received are reported as other financing sources, while discounts are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

M. Net Assets and Fund Equity

In the government-wide financial statements and Proprietary Funds and Component Units financial statements, net assets are reported in three categories: net assets invested in capital assets, net of related debt; restricted net assets; and unrestricted net assets. Restricted net assets represent net assets

STATE OF HAWAII

Notes to Basic Financial Statements

June 30, 2006

restricted by parties outside of the State (such as citizens, public interest groups, or the judiciary), or imposed by law through enabling legislation, and include unspent proceeds of bonds issued to acquire or construct capital assets.

In the fund financial statements, Governmental Funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balance represent tentative management plans that are subject to change.

Portions of fund balances are reserved in the fund financial statements for the following:

- Continuing appropriations which are comprised of encumbrances and unencumbered allotment balances. Encumbrances represent outstanding commitments which generally are liquidated in the subsequent fiscal year. Unencumbered allotment balances represent amounts that have been released and made available for encumbrance or expenditure and are legally segregated for a specific future use.
- Notes and loans receivable, advances, and investments which are not currently available for expenditure at the Governmental Funds' balance sheet date.
- Federal aid highway projects encumbrances.
- Bond redemption and other.
- Private-Purpose Trust Fund balances which are restricted to the purpose of the accounts.

Portions of the unreserved fund balances are designated for future capital and operating expenditures. Those designated fund balances represent appropriations which have not been allotted and are established to reflect tentative plans for the future use of financial resources.

N. Nonexchange Transactions

The Enterprise Funds and Component Units recognize contributed capital as nonoperating revenues.

O. Medicare and Medicaid Reimbursements

Revenues from services reimbursed under Medicare and Medicaid programs are recorded at the estimated reimbursable amounts. Final determination of the amounts earned is subject to review by the fiscal intermediary or a peer review organization. The State has the opinion that adequate provision has been made for any adjustments that may result from such reviews.

P. Risk Management

The State is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors or omissions; and workers' compensation. The State generally retains the first \$250,000 per occurrence of property losses, the first \$4 million with respect to general liability claims, and the first \$500,000 of losses due to crime. Losses in excess of those retention amounts are insured with commercial insurance carriers. The limit per occurrence for property losses is \$100 million, except for flood and earthquake which individually is a \$50 million aggregate loss, and terrorism which is \$50 million per occurrence. The annual aggregate for general liability losses and

Notes to Basic Financial Statements

June 30, 2006

losses due to crime per occurrence is \$10 million each. The State also has an insurance policy to cover medical malpractice risk in the amount of \$20 million per occurrence and in the aggregate. The State is generally self-insured for workers' compensation and automobile claims.

The estimated reserve for losses and loss adjustment costs includes the accumulation of estimates for losses and claims reported prior to fiscal year-end, estimates (based on projections of historical developments) of claims incurred but not reported, and estimates of costs for investigating and adjusting all incurred and unadjusted claims. Amounts reported are subject to the impact of future changes in economic and social conditions. The State believes that, given the inherent variability in any such estimates, the reserves are within a reasonable and acceptable range of adequacy. Reserves are continually monitored and reviewed, and as settlements are made and reserves adjusted, the differences are reported in current operations. A liability for a claim is established if information indicates that it is probable that a liability has been incurred at the date of the basic financial statements and the amount of the loss is reasonably estimable.

Q. Deferred Compensation Plan

The State offers its employees a deferred compensation plan created in accordance with Internal Revenue Code Section 457. The plan, available to all state employees, permits employees to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death, or unforeseeable emergency.

All plan assets are held in a trust fund to protect them from claims of general creditors. The State has no responsibility for loss due to the investment or failure of investment of funds and assets in the plan, but does have the duty of due care that would be required of an ordinary prudent investor. Accordingly, the assets and liabilities of the State's deferred compensation plan are not reported in the accompanying basic financial statements.

R. Estimates and Restatements

The preparation of basic financial statements in conformity with GAAP requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results may differ from those estimates.

Net assets of Harbors as of July 1, 2005 have been restated for the cumulative effect of an overstatement of capital assets, accumulated depreciation, and construction in progress. Net assets as of July 1, 2005 decreased by \$3,894,652 as a result of the overstatement of capital assets of \$23,958,295, overstatement of accumulated depreciation of \$21,525,529, and overstatement of construction in progress of \$1,461,886. For the fiscal year ended June 30, 2005, maintenance expenses and interest expense would have increased by \$562,840 and \$183,587, respectively, and general administration and depreciation expense would have decreased by \$5,070 and \$1,249,462, respectively, in the statement of revenues, expenses, and changes in fund net assets.

Notes to Basic Financial Statements

June 30, 2006

S. New Accounting Pronouncements

Governmental Accounting Standards Board Statement No. 42

The State adopted GASB Statement No. 42, *Accounting and Financial Reporting for Impairment of Capital Assets and for Insurance Recoveries*, effective July 1, 2005. This statement establishes guidance for accounting and reporting for the impairment of capital assets and for insurance proceeds. GASB Statement No. 42 did not have an impact on the State's basic financial statements for the fiscal year ended June 30, 2006.

Governmental Accounting Standards Board Statement No. 44

The State adopted GASB Statement No. 44, *Economic Condition Reporting: The Statistical Section – an Amendment of National Council on Government Accounting (NCGA) Statement 1*, effective July 1, 2005. This statement improves the understandability and usefulness of statistical section information by addressing the comparability problems that have developed in practice and by adding information from the new financial reporting model for state and local governments required by GASB Statement No. 34. GASB Statement No. 44 did not have an impact on the State's basic financial statements for the fiscal year ended June 30, 2006, but required additional disclosures in the statistical section of the Comprehensive Annual Financial Report.

Governmental Accounting Standards Board Statement No. 46

The State adopted GASB Statement No. 46, *Net Assets Restricted by Enabling Legislation—an amendment of GASB Statement No. 34*, effective July 1, 2005. This statement clarifies that a legally enforceable enabling legislation restriction is one that a party external to the government—such as citizens, public interest groups, or the judiciary—can compel a government to honor. GASB Statement No. 46 did not have an impact on the State's basic financial statements for the fiscal year ended June 30, 2006.

Governmental Accounting Standards Board Statement No. 47

The State adopted GASB Statement No. 47, *Accounting for Termination Benefits*, effective July 1, 2005. This statement establishes standards for employers accounting of benefits associated with either voluntary or involuntary terminations. GASB Statement No. 47 did not have an impact on the State's basic financial statements for the fiscal year ended June 30, 2006.

(2) BUDGETING AND BUDGETARY CONTROL

The budget of the State is a detailed operating plan identifying estimated costs and results in relation to estimated revenues. The budget includes (1) the programs, services, and activities to be provided during the fiscal year; (2) the estimated revenues available to finance the operating plan; and (3) the estimated spending requirements of the operating plan. The budget represents a process through which policy decisions are made, implemented, and controlled. Revenue estimates are provided to the State Legislature at the time of budget consideration and are revised and updated periodically during the fiscal year. Amounts reflected as budgeted revenues in the general fund statement of revenues and expenditures – budget and actual (budgetary basis) are those estimates as compiled by the Council on Revenues and the

STATE OF HAWAII

Notes to Basic Financial Statements

June 30, 2006

Director of Finance. Budgeted expenditures are derived primarily from the General Appropriations Act of 2005 (Act 178, SLH of 2005) and from other authorizations contained in the State Constitution, the HRS, and other specific appropriations acts in various SLH.

All expenditures of appropriated funds have been made pursuant to the appropriations in the fiscal 2004 – 2006 biennial budget.

The General Fund and Special Revenue Funds have legally appropriated annual budgets. The Capital Projects Fund's appropriated budgets are for projects that may extend over several fiscal years.

The final legally adopted budget in the accompanying general fund statement of revenues and expenditures – budget and actual (budgetary basis) represents the original appropriations, transfers, and other legally authorized legislative and executive changes.

The legal level of budgetary control is maintained at the appropriation line item level by department, program, and source of funds as established in the appropriations acts. The Governor is authorized to transfer appropriations between programs within the same department and source of funds; however, transfers of appropriations between departments generally require legislative authorization. Records and reports reflecting the detail level of control are maintained by and are available at the Department of Accounting and General Services. During the fiscal year ended June 30, 2006, there were no expenditures in excess of appropriations in the individual funds.

To the extent not expended or encumbered, the General Fund's appropriations generally lapse at the end of the fiscal year for which the appropriations are made. The State Legislature specifies the lapse dates and any other contingencies which may terminate the authorizations for other appropriations.

Budgets adopted by the State Legislature for the General Fund are presented in the general fund statement of revenues and expenditures – budget and actual (budgetary basis). The State's annual budget is prepared on the modified-accrual basis of accounting with several differences, principally related to (1) the encumbrance of purchase order and contract obligations and equipment acquired through long-term financing (basis difference) and (2) the accounting for transfers of debt service payments through the General Fund (perspective difference), which represent departures from GAAP.

STATE OF HAWAII

Notes to Basic Financial Statements

June 30, 2006

A reconciliation of the budgetary to GAAP basis operating results for the fiscal year ended June 30, 2006 follows (amounts expressed in thousands):

	<u>General Fund</u>
Excess of revenues and other sources over expenditures – actual (budgetary basis)	\$ 324,996
Reserve for encumbrances at fiscal year-end*	204,664
Expenditures for liquidation of prior fiscal year encumbrances	(192,335)
Revenues and expenditures for unbudgeted programs and capital projects accounts, net	(3,236)
Tax refunds payable	(4,000)
Accrued liabilities	(22,276)
Accrued revenues	(9,814)
	<u> </u>
Net change in fund balance – GAAP basis	<u>\$ 297,999</u>

* Amount reflects the encumbrance balances (included in continuing appropriations) for budgeted programs only.

(3) CASH AND INVESTMENTS

The Director of Finance is responsible for the safekeeping of all monies paid into the State Treasury. The Director of Finance pools and invests any monies of the State which in the Director's judgment are in excess of the amounts necessary for meeting the specific requirements of the State. Investment earnings are allocated to the Primary Government based on its equity interest in the pooled monies. Legally authorized investments include obligations of or guaranteed by the U.S. government, obligations of the State, federally-insured savings and checking accounts, time certificates of deposit and repurchase agreements with federally-insured financial institutions.

A. Cash

The State maintains approximately 20 bank accounts for various purposes at locations throughout the State and the nation. Bank deposits are under the custody of the Director of Finance. For financial statement reporting purposes, cash and short-term investments consist of cash, time certificates of deposit, and money market accounts. Cash and short-term investments also include repurchase agreements and U.S. government securities with original maturities of three months or less.

The carrying amount of the State's unrestricted and restricted deposits (cash, time certificates of deposit, and money market accounts) as of June 30, 2006 was \$1,843,121,000 and \$274,338,000, respectively, for the Primary Government and \$130,700,000 for the Fiduciary Funds.

STATE OF HAWAII

Notes to Basic Financial Statements

June 30, 2006

Information relating to the bank balance, insurance, and collateral of cash deposits is determined on a statewide basis and not for individual departments or divisions. Total bank balances of deposits for the Primary Government and Fiduciary Funds amounted to \$1,945,181,560 at June 30, 2006. Of that amount, \$1,412,406,334 represent bank balances covered by federal deposit insurance or by collateral held either by the State Treasury or by the State's fiscal agents in the name of the State. The remaining bank balances of \$532,775,226 represent deposits with the U.S. Department of the Treasury for the State's Unemployment Trust Fund, which were uncollateralized and the Special Revenue Funds' and Proprietary Funds' cash in bank, which was uninsured and uncollateralized. The Special Revenue Funds' and Proprietary Funds' cash balances were held by fiscal agents in the State's name for the purpose of satisfying outstanding bond obligations. Accordingly, these deposits were exposed to custodial credit risk. Custodial credit risk is the risk that in the event of a bank failure, the State's deposits may not be returned to it. For demand or checking accounts and time certificates of deposit, the State requires that the depository banks pledge collateral based on the daily available bank balances to limit its exposure to custodial credit risk. The use of daily available bank balances to determine collateral requirements results in the available balances being under-collateralized at various times during the fiscal year. All securities pledged as collateral are held either by the State Treasury or by the State's fiscal agents in the name of the State. The State also requires that no more than 60% of the State's total funds available for deposit and on deposit in the State Treasury may be deposited in any one financial institution.

B. Investments

The State holds investments both for its own benefit and as an agent for other parties. The State's investment of funds not required for immediate payments are predominantly comprised of U.S. government securities.

STATE OF HAWAII

Notes to Basic Financial Statements

June 30, 2006

The following tables present the State's investments and maturities at June 30, 2006 (amounts expressed in thousands).

	Fair Value	Maturity (in years)		
		Less than 1	1-5	30
Investments – Primary				
Government:				
Certificates of deposit	\$ 74,598	\$ 18,299	\$ 56,299	\$ —
U.S. government securities	1,284,579	—	1,284,579	—
Repurchase agreements	560,821	331,952	228,869	—
	1,919,998	350,251	1,569,747	—
Less:				
Restricted assets investments	(75,251)	(75,251)	—	—
	<u>\$ 1,844,747</u>	<u>\$ 275,000</u>	<u>\$ 1,569,747</u>	<u>\$ —</u>
Investments – Fiduciary Funds:				
Certificates of deposit	\$ 2,046	\$ —	\$ 2,046	\$ —
U.S. government securities	182,146	182,135	—	11
Repurchase agreements	20,467	—	20,467	—
	<u>\$ 204,659</u>	<u>\$ 182,135</u>	<u>\$ 22,513</u>	<u>\$ 11</u>

Interest Rate Risk: As a means of limiting its exposure to fair value losses arising from rising interest rates, the State's investment policy generally limits maturities on investments to not more than five years from the date of investment.

Credit Risk: The State's investment policy limits investments in state and U.S. Treasury securities, time certificates of deposit, U.S. government or agency obligations, repurchase agreements, commercial paper, bankers' acceptances, and money market funds and student loan resource securities maintaining a Triple-A rating. As of June 30, 2006, the State held short-term investments in student loan resource securities maintaining a Triple-A rating.

Custodial Risk: For an investment, custodial risk is the risk that, in the event of the failure of the counterparty, the State will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The State's investments are held at broker/dealer firms which are protected by the Securities Investor Protection Corporation (SIPC) up to a maximum amount. In addition, excess-SIPC coverage is provided by the firms' insurance policies. In addition, the State requires the institutions to set aside in safekeeping, certain types of securities to collateralize repurchase agreements. The State monitors the market value of these securities and obtains additional collateral when appropriate.

Concentration of Credit Risk: The State's policy provides guidelines for portfolio diversification by placing limits on the amount the State may invest in any one issuer, types of investment instruments, and position limits per issue of an investment instrument.

Total depreciation expense – business-type activities	<u>\$ 89,396</u>

STATE OF HAWAII

Notes to Basic Financial Statements

June 30, 2006

5) GENERAL OBLIGATION BONDS PAYABLE

The State issues general obligation bonds primarily to provide for the acquisition and construction of major capital facilities. Although certain general obligation debt is being retired from the resources of the Proprietary Funds and Component Unit – UH and is recorded in those funds, all general obligation bonds are backed solely by the full faith and credit of the State.

All issues, except Series BL, issued December 6, 1988; certain maturities of Series BQ, issued November 28, 1989; Series BW, issued March 1, 1992; Series BZ, issued October 1, 1992; Series CA and CB, issued January 1, 1993; Series CH and CI, issued November 1, 1993; Series CM, issued December 1, 1996; Series CO, issued March 1, 1997; and Series CS, issued April 1, 1998, contain call provisions (call prices range from \$100 to \$103). Stated interest rates range from 2.650% to 7.150%.

In fiscal 2006, the State issued \$350,000,000 of general obligation bonds, Series DI, dated March 23, 2006, with interest rates ranging from 3.50% to 5.50%. Bonds maturing after March 1, 2016 will be subject to redemption of the State at any time on and after March 1, 2016 at a price equal to the principal amount thereof plus accrued interest to the redemption date. The bonds were issued for the purpose of financing the Hawaiian Homes Lands Trust settlement and public improvement projects.

At June 30, 2006, the general obligation bonds consisted of the following (amounts expressed in thousands):

Callable		\$	3,556,140
Noncallable			<u>774,528</u>
Total general obligation bonds outstanding			4,330,668
Less amount recorded as a liability of:			
Proprietary Funds (business-type activities)	\$	137	
Component Unit – UH		<u>7,567</u>	
			<u>7,704</u>
Amount recorded in the governmental activities of the Primary Government		\$	<u><u>4,322,964</u></u>

STATE OF HAWAII

2022 – 2026	463,740	52,064	515,804
	<u>\$ 4,322,964</u>	<u>\$ 1,769,158</u>	<u>\$ 6,092,122</u>

A summary of debt service requirements to maturity on the business-type activities' general obligation bonds is as follows (amounts expressed in thousands):

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
Fiscal year:			
2007	\$ 99	\$ 4	\$ 103
2008	11	2	13
2009	13	2	15
2010	14	2	16
	<u>\$ 137</u>	<u>\$ 9</u>	<u>\$ 146</u>

The State defeased general obligation bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the refunding bonds. Accordingly, the trust accounts and the refunded bonds are not included in the State's basic financial statements. At June 30, 2006, \$1,092,090,000 of bonds outstanding is considered defeased.

The State Constitution limits the amount of general obligation bonds which may be issued. As required by law, the Director of Finance has confirmed that the State was within its legal debt limit on the aforementioned issues. The legal debt margin at June 30, 2006 was \$284,480,000.

At June 30, 2006, general obligation bonds authorized but unissued were approximately \$716,265,000.

Notes to Basic Financial Statements

June 30, 2006

(6) REVENUE BONDS PAYABLE

A. Governmental Activities

On March 15, 2005, the Department of Transportation – Highways Division (Highways) issued \$60,000,000 in State of Hawaii Highway Revenue Bonds of 2005, Series A, with interest rates ranging from 3.00% and 5.00% to finance certain highway capital improvement projects and related projects. The bonds are payable semiannually on January and July 1 through 2025.

On March 15, 2005, Highways issued \$123,915,000 of State of Hawaii Highway Revenue Bonds of 2005, Series B, with interest rates of 5.00% and 5.25% to advance refund \$128,705,000 of certain outstanding highway revenue bonds previously issued. The bonds are payable semiannually on January and July 1 through 2021.

On April 15, 2003, Highways issued \$44,940,000 in State of Hawaii Highway Revenue Bonds, Series of 2003, with an average interest rate of 4.33% to advance refund \$45,350,000 of outstanding State of Hawaii Highway Revenue Bonds, Series of 1993, with an average interest rate of 4.42%. The bonds are payable semiannually on January and July 1 through 2013.

On October 25, 2001, Highways issued \$70,000,000 of State of Hawaii Highway Revenue Bonds, Series of 2001. The bonds bear interest at rates ranging from 3.75% to 5.375% and are payable semiannually on January and July 1 through July 2022.

On October 31, 2000, Highways issued State of Hawaii Highway Revenue Bonds, Series of 2000, in the principal amount of \$45,360,000. The bonds bear interest at rates ranging from 4.40% to 5.50% and mature in annual installments through fiscal 2011.

On January 15, 1999, the Department of Hawaiian Home Lands (DHHL) issued revenue bonds, Refunding Series of 1999, in the principal amount of \$13,370,000. Bond proceeds related to this issue amounted to \$13,334,000. The difference in the principal amount and proceeds relates to bond discount and accrued interest. The bonds bear interest at rates ranging from 3.80% to 4.45% and mature in increasing annual installments through fiscal 2012. The proceeds from the bonds were used to advance refund certain maturities of the Series of 1991 bonds. The bonds are payable from and secured by the DHHL's revenues from available lands.

On July 1, 1998, Highways issued State of Hawaii Highway Revenue Bonds, Series of 1998, in the principal amount of \$94,920,000. Bond proceeds related to this issue amounted to \$97,542,000, of which \$71,921,000 is to be used to finance certain highway improvements and other related projects for the state highways system, and \$25,621,000 was used to refund certain outstanding highway revenue bonds. The difference in the principal amount and proceeds relates to bond premium and accrued interest. The bonds bear interest at rates ranging from 4.00% to 5.50% and mature in annual installments through fiscal 2019.

On September 1, 1996, Highways issued \$55,000,000 in State of Hawaii Highway Revenue Bonds, Series of 1996. The bonds bear interest at rates ranging from 3.80% to 6.00% and mature in increasing annual installments through fiscal 2010.

STATE OF HAWAII

Notes to Basic Financial Statements

June 30, 2006

The bonds are payable solely from and collateralized by the revenues, consisting primarily of highway fuel taxes, vehicle registration fees, vehicle weight taxes, and rental motor vehicle and tour vehicle surcharge taxes.

In addition to the proceeds from the State of Hawaii Highway Revenue Bonds of 2005, Series B, the proceeds of the State of Hawaii Highway Revenue Bonds, Series of 2003, DHHL's revenue bonds, Refunding Series of 1999, and a portion of the proceeds of the State of Hawaii Highway Revenue Bonds, Series of 1998 (see above), were placed in irrevocable trusts and used to purchase securities of the U.S. government to meet the debt service requirements of the refunded bonds.

The liabilities for the refunded bond issues and the related securities and trust accounts are not included in the accompanying basic financial statements, as DHHL and Highways defeased their obligations for payment of those bonds upon completion of those refunding transactions. As of June 30, 2006, bonds outstanding considered defeased amounted to \$131,225,000.

The following is a summary of Highways' and DHHL's revenue bonds issued and outstanding at June 30, 2006 (amounts expressed in thousands):

Series	Date of Issue	Interest Rates	Maturity Dates	Outstanding Amount
Highways:				
1996	September 1, 1996	3.80% – 6.00%	July 1, 2007 – July 1, 2009	\$ 8,500
1998	July 1, 1998	4.00% – 5.50%	July 1, 2006 – July 1, 2018	35,340
2000	October 31, 2000	4.40% – 5.50%	July 1, 2006 – July 1, 2010	10,660
2001	October 25, 2001	3.75% – 5.375%	July 1, 2006 – July 1, 2022	22,085
2003	April 15, 2003	2.50% – 5.00%	July 1, 2006 – July 1, 2013	37,105
2005 A	March 15, 2005	3.00% – 5.00%	July 1, 2006 – July 1, 2025	60,000
2005 B	March 15, 2005	5.00% – 5.25%	July 1, 2010 – July 1, 2021	123,915
DHHL:				
1999	January 15, 1999	3.80% – 4.45%	July 1, 2006 – July 1, 2011	8,650
				\$ 306,255

STATE OF HAWAII

Notes to Basic Financial Statements

June 30, 2006

Debt service requirements to maturity on DHHL's and Highways' revenue bonds are aggregated below (amounts expressed in thousands):

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
Fiscal year:			
2007	\$ 15,595	\$ 14,165	\$ 29,760
2008	16,240	13,528	29,768
2009	16,905	12,826	29,731
2010	17,615	12,049	29,664
2011	18,460	11,260	29,720
2012 – 2016	98,200	43,552	141,752

	<u>\$ 306,255</u>	<u>\$ 128,295</u>	<u>\$ 434,550</u>

B. Business-Type Activities

Revenue bonds are backed by a pledge of resources derived from users of the related facilities and are not supported by the full faith and credit of the State.

Airports System Revenue Bonds

The Airports system revenue bonds are payable solely from and collateralized by airport revenues, which include all aviation fuel taxes levied. The Airports system revenue bonds are subject to redemption at the option of the Department of Transportation (DOT) and the State during specific years at prices ranging from \$102 to \$100.

The following is a summary of the Airports system revenue bonds issued and outstanding at June 30, 2006 (amounts expressed in thousands):

<u>Series</u>	<u>Interest Rates</u>	<u>Final Maturity Date (July 1)</u>	<u>Original Amount of Issue</u>	<u>Outstanding Amount</u>
2000A, refunding	5.50% – 6.00%	2021	\$ 26,415	\$ 26,415

Deferred loss on refunding				(14,485)
Current portion				<u>(30,565)</u>
Noncurrent portion				<u>\$ 639,516</u>

STATE OF HAWAII

Notes to Basic Financial Statements

June 30, 2006

The liabilities for refunded bond issues and the related securities and trust accounts are not included in the accompanying basic financial statements as Airports defeased its obligations for payment of those bonds upon completion of those refunding transactions. As of June 30, 2006, bonds outstanding considered defeased amounted to \$74,030,000.

The certificate providing for the issuance of revenue bonds provides for the levying and collection of minimum net revenues to service and provides reserves for maturing debt principal, interest, sinking fund, and replacement and maintenance reserve requirements, and also provides for the maintenance of certain insurance coverages for fire, workers' compensation, and public liability. At June 30, 2006, \$188,511,000 was on credit in the revenue bond debt service sinking fund and reserve accounts.

Airports Special Facility Revenue Bonds

Airports entered into three special facility lease agreements, two with Continental Airlines, Inc. in November 1997 and July 2000, and one with Caterair International Corporation in December 1990, which was subsequently assigned to Sky Chefs, Inc. effective January 2002. The construction of the related facilities was financed by special facility revenue bonds issued by Airports in the amounts of \$25,255,000, \$16,600,000, and \$6,600,000, respectively. Those bonds are payable solely from and collateralized solely by certain rentals and other monies derived from the special facilities and aggregated to \$37,895,000 at June 30, 2006.

The following is a summary of pertinent information on the Airports special facility revenue bonds at June 30, 2006:

\$25,255,000 Issue

The bonds bear interest at 5.625% and are subject to redemption at the option of Airports, upon the request of Continental Airlines, Inc., at prices ranging from \$101 to \$100, depending on the dates of redemption, or at \$100 plus interest if the facilities are destroyed or damaged extensively.

Interest only payments are due semiannually on May 15 and November 15 of each year until the bonds mature on November 15, 2027, at which time the entire principal amount is due.

\$16,600,000 Issue

On July 15, 2000, Airports issued \$16,600,000 of term special facility bonds (Continental Airlines, Inc.), Refunding Series of 2000, with an interest rate of 7.00%, due June 1, 2020, to, in part, refund \$18,225,000 of its outstanding Series of 1990 bonds (Continental Airlines, Inc.), with interest rates ranging from 9.60% to 9.70%. The bonds are subject to redemption on or after June 1, 2010, at the option of Airports, upon the request of Continental Airlines, Inc. or, if the facilities are destroyed or damaged extensively, at 100% of principal plus interest.

\$6,600,000 Issue

The bonds bear interest at 10.125% and are subject to redemption on or after December 1, 2000, at the option of Airports, upon the request of Caterair International Corporation, at prices ranging from \$103 to \$100, depending on the dates of redemption, or at \$100 plus interest if the facilities are destroyed or damaged extensively.

STATE OF HAWAII

Notes to Basic Financial Statements

June 30, 2006

The special facility leases are accounted for and recorded as direct financing leases. The remaining lease payments to be paid by the lessees (including debt service requirements on the special facility revenue bonds) are recorded as a restricted asset, and the special facility revenue bonds outstanding are recorded as a liability in the accompanying basic financial statements.

Harbors Revenue Bonds

The Harbors revenue bonds are collateralized by a charge and lien on the gross revenues of the commercial harbors system and upon all improvements and betterments thereto, and all funds and securities created in whole or in part from revenues or from the proceeds of any bonds issued. The Harbors revenue bonds are subject to redemption at the option of the DOT and the State during specific years at prices ranging from \$102.50 to \$100.

The following is a summary of the Harbors revenue bonds as of June 30, 2006 (amounts expressed in thousands):

Year of Issue	Final Redemption Date	Interest Rates	Original Amount of Issue	Current Principal Due		Total	Noncurrent
				July 1, 2006	January 1, 2007		
1997	July 1, 2027	3.95% – 5.75%	\$ 56,290	\$ 510	\$ —	\$ 510	\$ 52,405
2000	July 1, 2029	4.50% – 6.00%	79,405	2,255	—	2,255	63,890
2002	July 1, 2019	3.00% – 5.50%	24,420	2,100	—	2,100	16,190
2004	January 1, 2024	2.50% – 6.00%	52,030	—	4,570	4,570	38,945
			<u>\$ 212,145</u>	4,865	4,570	9,435	171,430
	Add unamortized premium					161	803
	Less:						
	Unamortized discount					(140)	(1,630)
	Unamortized deferred loss on refunding					(519)	(3,693)
				<u>\$ 4,865</u>	<u>\$ 4,570</u>	<u>\$ 8,937</u>	<u>\$ 166,910</u>

STATE OF HAWAII

Notes to Basic Financial Statements

June 30, 2006

Debt service requirements to maturity on the business-type activities' revenue bonds for fiscal years ending June 30 are aggregated below (amounts expressed in thousands):

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
Fiscal year:			
2007	\$ 43,053	\$ 49,755	\$ 92,808
2008	31,680	47,400	79,080
2009	31,403	45,686	77,089
2010	33,270	43,912	77,182
2011	34,470	41,714	76,184
2012 – 2016	278,313	167,835	446,148
2017 – 2021	340,283	72,298	412,581
2022 – 2026	32,250	13,075	45,325
2027 – 2030	30,020	2,572	32,592
	<u>\$ 854,742</u>	<u>\$ 484,247</u>	<u>\$ 1,338,989</u>

The above debt service requirements are set forth based upon funding requirements. Principal and interest payments are required to be funded in the 12-month and 6-month periods, respectively, preceding the date on which the payments are due. Accordingly, the above debt service requirements do not include debt service reserves as of June 30, 2006, which are held in anticipation of principal and interest payments due on July 1, 2006 and January 1, 2007.

C. Revenue Bonds Authorized But Unissued

At June 30, 2006, revenue bonds authorized but unissued were approximately \$2,835,757,000.

D. Special Purpose Revenue Bonds

HRS Chapter 39A authorizes the State (with legislative approval) to issue special purpose revenue bonds. Proceeds from those bonds are loaned to certain enterprises for projects deemed to be in the public interest. The bonds are not general obligations of the State and are payable solely from monies received by the State under project agreements with the recipients of the bond proceeds. Accordingly, the State has not included those bonds in its basic financial statements. Bonds outstanding at June 30, 2006 amounted to \$1,383,146,000. At June 30, 2006, special purpose revenue bonds of \$1,278,510,000 were authorized but unissued.

E. Improvement District Bonds

The Hawaii Community Development Authority is authorized to issue improvement district bonds under HRS Chapter 206E. Proceeds from the bond issues are utilized to finance the redevelopment of districts designated by the State Legislature. The bonds are not general obligations of the State and are payable solely by assessment liens on the real property of the designated district. Accordingly, the State has not included those bonds in its basic financial statements. Bonds outstanding as of June 30, 2006 amount to nil.

STATE OF HAWAII

Notes to Basic Financial Statements

Reserve for losses and loss adjustment costs (note 13)	89,100	14,600	(26,200)	77,500	55,900
Claims and judgments payable (note 12)	220,800	13,200	(30,000)	204,000	30,000
Capital lease obligations (note 10)	61,340	—	(3,305)	58,035	3,445
Total	\$ 5,121,306	\$ 463,219	\$ (430,748)	\$ 5,153,777	\$ 471,969

	Business-Type Activities				
	Balance, July 1, 2005	Additions	Deductions	Balance, June 30, 2006	Due within one year
General obligation bonds payable, net (note 5)	\$ 167	\$ —	\$ (30)	\$ 137	\$ 99
Accrued vacation and retirement benefits payable	9,982	4,105	(4,570)	9,517	2,899
Revenue bonds payable (note 6)	927,695	—	(35,240)	892,455	41,000
Reserve for losses and loss adjustment costs	4,553	1,086	(1,079)	4,560	1,049
Other	953	—	—	953	—
	943,350	5,191	(40,919)	907,622	45,047
Add unamortized premium	14,319	—	(1,684)	12,635	161
Less:					
Unamortized net discount	(2,776)	—	206	(2,570)	(140)
Deferred loss on refunding	(21,096)	—	2,399	(18,697)	(519)
	\$ 933,797	\$ 5,191	\$ (39,998)	\$ 898,990	\$ 44,549

The accrued vacation liability attributable to the governmental activities will be liquidated by the State's Governmental Funds. Approximately 80% and 18% of the accrued vacation liability has been paid by the General Fund and Special Revenue Funds, respectively, during the fiscal year ended June 30, 2006.

STATE OF HAWAII

Notes to Basic Financial Statements

June 30, 2006

(8) INTERFUND RECEIVABLES AND PAYABLES

Interfund receivables and payables consisted of the following at June 30, 2006 (amounts expressed in thousands):

	<u>Due From</u>	<u>Due To</u>
Governmental Funds:		
General Fund:		
Capital Projects Fund	\$ 89,900	\$ —
Nonmajor Governmental Funds	72,100	83
UH	6,000	7,965
HHSC	13,300	—
	<u>181,300</u>	<u>8,048</u>
Capital Projects Fund:		
General Fund	—	89,900
Harbors	8,517	—
	<u>8,517</u>	<u>89,900</u>
Nonmajor Governmental Funds:		
General Fund	83	72,100
	<u>83</u>	<u>72,100</u>
Proprietary Funds:		
Harbors:		
Capital Projects Fund	—	8,517
	<u>—</u>	<u>8,517</u>
Component Units:		
UH:		
General Fund	7,965	6,000
	<u>7,965</u>	<u>6,000</u>
HHSC:		
General Fund	—	13,300
	<u>—</u>	<u>13,300</u>
	<u>\$ 197,865</u>	<u>\$ 197,865</u>

The due from Capital Projects Fund in the General Fund consists primarily of funds transferred prior to the issuance of bonds. Remaining interfund balances result from the time lag between the dates that interfund goods and services are provided or reimbursable expenditures occur, transactions are recorded, and payment between funds are made.

STATE OF HAWAII

Notes to Basic Financial Statements

June 30, 2006

(9) TRANSFERS

Transfers between funds occur when a fund receiving revenues transfers resources to a fund where the resources are to be expended or when nonrecurring or nonroutine transfers of equity between funds occur. For the fiscal year ended June 30, 2006, transfers by fund were as follows (amounts expressed in thousands):

	<u>Transfers In</u>	<u>Transfers Out</u>
Governmental Funds:		
General Fund:		
Nonmajor Governmental Funds	\$ 11,485	\$ 386,559
Capital Projects Fund:		
Nonmajor Governmental Funds	94,906	6,705
Nonmajor Governmental Funds:		
General Fund	393,264	11,485
Capital Projects Fund	—	94,906
	<u>393,264</u>	<u>106,391</u>
	<u>\$ 499,655</u>	<u>\$ 499,655</u>

The General Fund transferred approximately \$376,070,000 to the Nonmajor Governmental Funds for debt service payments and approximately \$10,489,000 to subsidize various Special Revenue Funds programs. Approximately \$94,906,000 of Highways receipts were transferred from the Nonmajor Governmental Funds to the Capital Projects Fund to finance capital projects.

(10) LEASES

A. Lease Commitments

Governmental Activities

The State leases office facilities and equipment under various operating leases expiring through fiscal 2028. Future minimum lease commitments for noncancelable operating leases as of June 30, 2006 were as follows (amounts expressed in thousands):

Fiscal year:		
2007	\$	14,183
2008		10,880
2009		7,573
2010		4,557
2011		2,533
2012 – 2016		5,070
2017 – 2021		4,696
2022 – 2026		1,239
2027 – 2028		75
		<u>75</u>
Total future minimum lease payments	\$	<u>50,806</u>

STATE OF HAWAII

Notes to Basic Financial Statements

June 30, 2006

Rent expenditures for operating leases for the fiscal year ended June 30, 2006 amounted to approximately \$45,420,000.

In November 1998, the State issued \$54,850,000 in Certificates of Participation (COPS) to purchase the Kapolei State Office Building (Kapolei Building). The proceeds of the COPS were remitted to the Kapolei Building's developer. The holders of the COPS are the current owners of the Kapolei Building. Accordingly, the State's rental payments for the use of the Kapolei Building are paid to a trustee, who then remits those amounts to the holders of the COPS. Payments commenced on May 1, 1999 and continue through May 1, 2018, with interest rates ranging from 3.10% to 5.25%. Title to the Kapolei Building will transfer to the State upon the payment of all required rents.

In December 2000, the State issued \$23,140,000 in COPS to purchase the No. 1 Capitol District State Office Building (Capitol District Building). The proceeds of the COPS were remitted to the former owners of the Capitol District Building. Accordingly, the State's rental payments for the use of the Capitol District Building are paid to a trustee, who then remits those amounts to the holders of the COPS. Payments commenced on May 1, 2002 and continue through May 1, 2020, with interest rates ranging from 4.50% to 5.375%. Title to the Capitol District Building will transfer to the State upon the payment of all required rents.

Future minimum lease payments for these capital leases are as follows (amounts expressed in thousands):

Fiscal year:		
2007	\$	6,352
2008		6,347
2009		6,354
2010		6,350
2011		6,350
2012 – 2016		31,756
2017 – 2020		16,601
		<hr/>
Total future minimum lease payments		80,110
Less amount representing interest		(22,075)
		<hr/>
Present value of net minimum lease payments	\$	58,035
		<hr/> <hr/>

B. Lease Rentals

Airports – Airport-Airline Lease Agreement

Airports and the airline companies serving the Airports system (signatory airlines) operated pursuant to an airport-airline lease agreement that was originally set to expire on July 31, 1992. Under the lease agreement, the signatory airlines each have the nonexclusive right to use the facilities, equipment, improvements, and services of the Airports system and to occupy certain premises and facilities thereon. The lease agreement was extended under a series of five subsequent agreements, the last of which was executed in June 1994, and extended the expiration date to June 30, 1997 (hereafter the lease agreement and the five subsequent agreements are collectively referred to as the "lease extension agreement"). The lease extension agreement contains a provision under which the

Notes to Basic Financial Statements

June 30, 2006

expiration date is automatically extended on a quarterly basis after June 30, 1997, unless terminated by either party upon at least 60 days prior written notice. As of the date hereof, the lease extension agreement remains in effect, with annual ad-hoc adjustments to Airports system rates and charges and related terms.

Under the lease extension agreement, the Airports system rates and charges are calculated using a residual rate-setting methodology that excludes duty free revenues in excess of \$100 million per year and any interest income earned on funds set aside for the Capital Improvements Program. The airports system rates and charges consist of the following: (1) exclusive use terminal charges based on appraisal and recovered on a per square foot basis, (2) joint use premises charges (for nonexclusive use of terminal space) based on appraisal and recovered on a per revenue passenger landing basis, (3) international arrivals building charges based on appraisal and recovered on a per deplaning international passenger basis, (4) landing fees based on a cost center residual rate setting methodology and recovered on a revenue landing landed weight basis (per thousand pound units), and (5) system support charges based on an Airports system residual rate setting methodology and recovered on a revenue landing landed weight basis (per thousand pound units).

Airports – Prepaid Airport Use Charge Fund

The DOT and the signatory airlines entered into an agreement in August 1995 to extend the prepaid airport use charge fund (PAUCF). During fiscal 2000, the parties agreed to transfer the signatory airlines' net excess payments into the PAUCF. Net excess payments for fiscal years 1996 through 2006 have been transferred to the PAUCF. Airports paid \$1,348,000 out of the PAUCF to the signatory airlines in fiscal 2006.

Airports – Aviation Fuel Tax

In May 1996, the Department of Taxation issued a tax information release which stated that effective July 1, 1996, the Hawaii fuel tax will not apply to the sale of bonded aviation/jet fuel to air carriers departing for foreign ports or arriving from foreign ports on stopovers before continuing on to their final destination. The aviation fuel tax amounted to \$2,590,355 for fiscal 2006.

Airports – System Rates and Charges

Signatory and nonsignatory airlines were assessed the following rates and charges:

- Landing fees, net of aviation fuel tax credits, amounted to \$36,084,719 for fiscal 2006 based on a computed rate per 1,000-pound units of approved maximum landing weight for each aircraft used in revenue landings. The Airports interisland landing fees for signatory airlines are set at 36% of the Airports landing fees for overseas flights.
- Nonexclusive joint-use premise charges for terminal rentals amounted to \$25,795,048 for fiscal 2006. For fiscal 2006, the over payment of \$867,093 was transferred into the PAUCF. Overseas and interisland joint-use premise charges were established to recover Airports system costs allocable to the overseas and interisland terminals joint-use space based on terminal rental rates, and are recovered based on a computed rate per revenue passenger landing.

STATE OF HAWAII

Notes to Basic Financial Statements

June 30, 2006

- Exclusive use premise charges amounted to \$28,596,553 for fiscal 2006 and were computed using a fixed rate per square footage. Exclusive use premise charges for terminal rentals amounted to \$15,926,032 for fiscal 2006.
- Airports system support charges amounted to \$631,406 for fiscal 2006. The charges were established to recover residual costs of the Airports system and are based on a computed rate per 1,000-pound units of approved maximum landing weight for each aircraft used in revenue landings. The Airports system interisland support charges for nonsignatory airlines are set at 32% of the Airports system support charges for overseas flights.

Airports – Other Operating Leases

Airports leases building spaces and improvements to concessionaires, airline carriers, and other airport users. The terms of those leases range from 4 to 15 years for concessionaires and up to 65 years for other airport users. Concessionaire lease rentals are generally based on the greater of a percentage of sales or a basic minimum rent. Percentage rent included in concession fees revenues for the fiscal year ended June 30, 2006 was approximately \$60,176,554.

In fiscal 2006, Airports converted certain past-due amounts from three lessees into promissory notes. The notes bear interest at rates ranging from 2.5% to 6%, and are due over periods ranging from 11 months to 36 months. The balance of \$5,240,454 at June 30, 2006 is due as follows: 2007 – \$2,109,422, 2008 – \$342,693, and 2009 – \$2,788,339.

Concession fees revenues from the DFS Group L.P. (DFS), which operates the in-bond (duty free) concession, the Honolulu International Airport retail concession, and the Kona International Airport at Keahole retail concession, accounted for approximately 41% of total concession fees revenues for the fiscal year ended June 30, 2006.

DFS was originally awarded a five-year lease agreement for the in-bond concession in February 2001. By 2003, DFS had been in significant arrears in rents due to Airports as a result of financial difficulties arising from the downturn in Hawaii's economy due to the decrease in international visitor travel. As a result, in August 2003, Airports and DFS entered into a Withdrawal and Settlement Agreement, which provided DFS with certain relief for past due rents, and which allowed Airports to withdraw and recapture all of the leased premises and to terminate the in-bond lease early.

The in-bond concession was re-bid in September 2003, and DFS was awarded the lease for the period from October 1, 2003 to May 31, 2006. The lease contract provided for the minimum annual guarantee rent as well as a percentage rent on annual gross receipts exceeding certain levels. For the period from June 1, 2005 to May 31, 2006, the minimum annual guarantee rent was \$37,311,121, and the percentage rent was as follows: (1) for total concession receipts greater than \$165 million, but less than \$200 million, 22.5% for on-airport sales and 18.5% for off-airport sales; and (2) for total concession receipts greater than \$200 million, 30% for on-airport sales, and 22.5% for off-airport sales.

Notes to Basic Financial Statements

June 30, 2006

Effective June 1, 2006, the lease was extended for a period of one year pursuant to a holdover clause in the lease agreement. During the holdover period, DFS will have a month-to-month tenancy, with rents and terms the same as those in effect immediately prior to the holdover.

In February 2001, DFS was awarded a five-year lease agreement for the retail concession at the Honolulu International Airport, with the term commencing on March 15, 2001 and terminating on March 14, 2006. Rents were computed as the higher of (1) percentage rent of 20% of gross receipts and (2) minimum annual guarantee rent (\$9,950,000 during the last year of the five-year term.) In December 2005, the lease agreement was amended, whereby the lease period was extended for an additional 36 months, commencing on March 15, 2006. The lease rent remained the same as that which was in effect during the lease year ended March 14, 2006.

Harbors – Aloha Tower Complex Development

The Aloha Tower Development Corporation (ATDC) is a state agency established under HRS Chapter 206J, primarily to redevelop the Aloha Tower complex. The complex encompasses Piers 5 to 23 of Honolulu Harbor. In September 1993, Harbors entered into a lease with the ATDC transferring to the ATDC portions of the Aloha Tower complex. The ATDC is required annually to reimburse Harbors for any losses in revenues during the term of the lease caused by any action of the ATDC or the developer and to provide replacement facilities for maritime activities at no cost to Harbors.

In September 1993, the ATDC subleased lands surrounded by Piers 8 and 9 and a portion of land surrounded by Pier 10 to a developer and entered into a capital improvements, maintenance, operations, and securities agreement (Operations Agreement) with the developer and Harbors. The Operations Agreement allows Harbors to operate the harbor facilities at Piers 8, 9, and 10. The lease between the ATDC and the developer requires the developer to construct, at the developer's cost, various facilities, including a marketplace.

The developer later went into bankruptcy. The subsequent operator of the marketplace assumed the obligations of the sublease and the Operations Agreement in March of 1998. This replacement operator has also gone through a bankruptcy proceeding and there is a new operator who has assumed the same obligations. Although the marketplace construction was substantially completed, several items on Harbors' construction punchlist have yet to be completed and are being pursued with the new operator.

An amendment of the lease executed in fiscal 2006 altered the obligations of the ATDC to reimburse Harbors on an annual basis. For the fiscal year commencing July 1, 2004, the amendment provides that the ATDC shall pay \$225,000 as a minimum annual base payment. The amendment further provides that for the fiscal year commencing July 1, 2005 onward, for any year in which the ATDC shall pay for all or any portion of the cost of personnel and other expenses relating to the Hawaii Harbors Project, the parties agree that the minimum annual base payment shall be commensurately reduced by such payments.

STATE OF HAWAII

Notes to Basic Financial Statements

June 30, 2006

In addition to the minimum annual base payment, the ATDC shall also pay an amount equal to 50% of the difference between the total revenues received by the ATDC for such fiscal year and the operating expenses of the ATDC for such fiscal year (equity participation payment) to reduce the amount owed to Harbors for losses in revenues by the ATDC prior to July 1, 2004. The amendment provides for an increase in the equity participation payment as the ATDC's revenues increase.

Revenues for the fiscal year ended June 30, 2006 amounted to \$98,322, and have been included in rental revenues. As of June 30, 2006, the amount due to Harbors was \$8,063,547. Accordingly, Harbors has fully provided an allowance for such amount.

Harbors – Leasing Operations

Harbors leases land, wharf, and building spaces under month-to-month revocable permits and long-term leases. The long-term leases expire during various years through fiscal 2058. Those leases generally call for rental increases every five to ten years based on independent appraisals of the fair rental value of the leased property.

The following schedule presents the approximate future minimum lease rentals under noncancelable operating leases of the Proprietary Funds as of June 30, 2006 (amounts expressed in thousands):

	Proprietary Funds		
	Airports	Harbors	Total
Fiscal year:			
2007	\$ 59,114	\$ 6,670	\$ 65,784
2008	22,738	6,436	29,174
2009	15,751	6,385	22,136
2010	8,548	6,216	14,764
2011	8,277	6,306	14,583
Thereafter	81,386	96,456	177,842
	<u>\$ 195,814</u>	<u>\$ 128,469</u>	<u>\$ 324,283</u>

C. Net Investment in Direct Financing Leases

Certain leases of state-owned special facilities to parties engaged in airline operations are accounted for as direct financing leases. At June 30, 2006, net direct financing leases of Airports consisted of the following (amounts expressed in thousands):

Total minimum lease payments receivable	\$ 69,654
Less amount representing interest	<u>(35,504)</u>
	34,150
Cash with trustee and other	<u>3,999</u>
	<u>\$ 38,149</u>

STATE OF HAWAII

Notes to Basic Financial Statements

June 30, 2006

Minimum future rentals to be received under direct financing leases of Airports as of June 30, 2006 consisted of the following (amounts expressed in thousands):

Fiscal year:		
2007	\$	3,425
2008		3,383
2009		3,357
2010		3,398
2011		3,716
Thereafter		55,867
	\$	<u>73,146</u>

(11) RETIREMENT BENEFITS

A. Plan Description

All eligible employees of the State and counties are required by HRS Chapter 88 to become members of the ERS, a cost-sharing multiple-employer defined benefit public employee retirement plan. The ERS provides retirement benefits, as well as death and disability benefits. The ERS is governed by a Board of Trustees. All contributions, benefits, and eligibility requirements are established by HRS Chapter 88 and can be amended by legislative action. The ERS issues a comprehensive annual financial report that is available to the public. That report may be obtained by writing to the ERS at 201 Merchant Street, Suite 1400, Honolulu, Hawaii 96813.

Prior to June 30, 1984, the plan consisted of only a contributory plan. In 1984, legislation was enacted to add a new noncontributory plan for members of the ERS who are also covered under Social Security. Police officers, firefighters, judges, elected officials, and persons employed in positions not covered by Social Security are precluded from the noncontributory plan. The noncontributory plan provides for reduced benefits and covers most eligible employees hired after June 30, 1984. Employees hired before that date were allowed to continue under the contributory plan or to elect the new noncontributory plan and receive a refund of employee contributions. All benefits vest after five and ten years of credited service under the contributory and noncontributory plans, respectively.

Both plans provide a monthly retirement allowance based on the employee's age, years of credited service, and average final compensation (AFC). The AFC is the average salary earned during the five highest paid years of service, including the vacation payment, if the employee became a member prior to January 1, 1971. The AFC for members hired on or after that date is based on the three highest paid years of service, excluding the vacation payment.

On July 1, 2006, a new hybrid contributory plan will become effective pursuant to Act 179, SLH of 2004. Members in the hybrid plan will be eligible for retirement at age 62 with 5 years of credited service or age 55 and 30 years of credited service. Members will receive a benefit multiplier of 2% for each year of credited service in the hybrid plan. The benefit payment options are similar to the

Notes to Basic Financial Statements

June 30, 2006

current contributory plan. Almost 58,000 current members, all members of the noncontributory plan and certain members of the contributory plan, will be eligible to join the new hybrid plan. Most of the new employees hired from July 1, 2006 will be required to join the hybrid plan.

B. Funding Policy

Most covered employees of the contributory option are required to contribute 7.8% of their salary. Police officers, firefighters, investigators of the departments of the County Prosecuting Attorney and the Attorney General, narcotics enforcement investigators, and public safety investigators are required to contribute 12.2% of their salary. The funding method used to calculate the total employer contribution requirement is the Entry Age Normal Actuarial Cost Method. Effective July 1, 2005, employer contribution rates are a fixed percentage of compensation, including the normal cost plus amounts required to pay for the unfunded actuarial accrued liability.

The State's contribution requirements as of June 30, 2006, 2005, and 2004 were approximately \$318,144,000, \$251,685,000, and \$181,614,000 respectively. The State contributed 100% of its required contributions for those years. Covered payroll for the fiscal year ended June 30, 2006 was approximately \$2,184,793,000.

C. Post-Retirement Health Care and Life Insurance Benefits

In addition to providing pension benefits, the State, pursuant to HRS Chapter 87, provides certain health care and life insurance benefits to all qualified employees.

For employees hired before July 1, 1996, the State pays the entire monthly health care premium for employees retiring with ten or more years of credited service, and 50% of the monthly premium for employees retiring with fewer than ten years of credited service.

For employees hired after June 30, 1996, and who retire with fewer than 10 years of service, the State makes no contributions. For those retiring with at least 10 years but fewer than 15 years of service, the State pays 50% of the retired employees' monthly Medicare or non-Medicare premium. For employees hired after June 30, 1996, and who retire with at least 15 years but fewer than 25 years of service, the State pays 75% of the retired employees' monthly Medicare or non-Medicare premium; for those retiring with over 25 years of service, the State pays the entire health care premium.

There are currently approximately 26,000 state retirees receiving such benefits. Free life insurance coverage for retirees and free dental coverage for dependents under age 19 are also available. Retirees covered by the medical portion of Medicare are eligible to receive reimbursement of the basic medical coverage premium. Contributions are financed on a pay-as-you-go basis. During fiscal 2006, expenditures of \$178,675,000 were recognized for post-retirement health care and life insurance benefits, approximately \$38,193,000 of which is attributable to the Component Units.

Effective July 1, 2003, the EUTF replaced the Hawaii Public Employees Health Fund under Act 88, SLH of 2001. The EUTF was established to provide a single delivery system of health benefits for state and county employees, retirees, and their dependents.

STATE OF HAWAII

Notes to Basic Financial Statements

June 30, 2006

(12) COMMITMENTS AND CONTINGENCIES

A. Commitments

General Obligation Bonds

The State has issued general obligation bonds in which repayments, including interest, are reimbursed from specific revenue sources of the Special Revenue Funds with terms corresponding to that of the related general obligation bonds (see note 5). At June 30, 2006, outstanding commitments to repay general obligation bonds consisted of the following (amounts expressed in thousands):

Special Revenue Funds:		
Economic Development	\$	232,169
Highways		81,247
Agriculture		8,075
Natural Resources		6,814
All Other		818
Administrative Support		7,244
	\$	<u>336,367</u>

Accumulated Sick Leave

Sick leave accumulates at the rate of one and three-quarters working days for each month of service without limit, but may be taken only in the event of illness and is not convertible to pay upon termination of employment. However, a state employee who retires or leaves government service in good standing with 60 days or more of unused sick leave is entitled to additional service credit in the ERS. At June 30, 2006, accumulated sick leave was approximately \$1,333,448,000.

Intergovernmental Expenditures

In accordance with Act 250, SLH of 2002, 45% of revenues generated by the transient accommodations tax are to be distributed to the counties.

Guarantees of Indebtedness

The State is authorized to guarantee indebtedness of others at a maximum amount of approximately \$191,000,000 for aquacultural loans, Hawaiian Home Lands loans, various projects involving mortgage loans for rental homes made by private nonprofit corporations or governmental corporations, mortgage loans for housing projects, and rental assistance obligations of Component Unit – HCDCH. The State has not paid, nor does it expect to pay, any amounts as a result of such guarantees as of June 30, 2006.

B. Proprietary Fund Type – Enterprise Funds

Construction and Service Contracts

At June 30, 2006, the Enterprise Funds had commitments of approximately \$210,286,000 for construction and service contracts.

Notes to Basic Financial Statements

June 30, 2006

C. Contingencies

The State has been named as defendant in numerous lawsuits and claims arising in the normal course of operations. To the extent that the outcome of such litigation has been determined to result in probable financial loss to the State, such loss has been accrued in the basic financial statements. Of the remaining claims, a number of claims may possibly result in adverse judgments against the State. However, such claim amounts cannot be reasonably estimated at this time. The litigation payments relating to the fiscal years ended June 30, 2006, 2005, and 2004 approximated \$20,700,000, \$1,200,000, and \$6,200,000, respectively.

Tobacco Settlement

In November 1998, the State settled its tobacco lawsuit as part of a nationwide settlement involving 46 other states and various tobacco industry defendants. Under the settlement, those tobacco companies that have joined in the Master Settlement Agreement will pay the State approximately \$1.3 billion over a 25-year period. The State is to receive proceeds from this settlement in January and April of the subsequent year through 2004 and thereafter on April 15 of each subsequent year. The State has received approximately \$34,863,000 during the fiscal year ended June 30, 2006. As of June 30, 2006, the State expects to receive \$19,100,000 for the first six months of 2007.

Office of Hawaiian Affairs

In 1898, the Republic of Hawaii transferred certain lands to the United States. Upon Hawaii's admission to the Union in 1959, the United States reconveyed title to those lands (collectively, the ceded lands) back to the State to be held as a public trust for five purposes: (1) public education; (2) betterment of the conditions of native Hawaiians; (3) development of farm and home ownership; (4) making public improvements; and (5) provision of land for public use. In 1978, the State Constitution was amended expressly to provide that the ceded lands were to be held as a public trust for native Hawaiians and the general public, and to establish OHA to administer and manage the proceeds and income derived from a pro rata portion of the ceded lands for native Hawaiians.

In 1979, the State Legislature adopted HRS Chapter 10, which, as amended in 1980, specified, among other things, that OHA expend 20% of all funds derived by the State from the ceded lands for the betterment of the conditions of native Hawaiians.

In 1987, in *Trustees of the Office of Hawaiian Affairs v. Yamasaki*, 69 Haw. 154 (1987), the Hawaii Supreme Court concluded that HRS Chapter 10 was insufficiently clear regarding the amount of monies OHA was entitled to receive from the public trust lands.

In 1990, in response to *Yamasaki*, the State Legislature adopted Act 304, SLH of 1990, which (1) defined "public land trust" and "revenue," (2) specified that 20% of the "revenue" derived from the "public land trust" was to be expended by OHA for the betterment of the conditions of native Hawaiians, and (3) established a process for OHA and the Director of Finance to jointly determine the amount of monies which the State would pay OHA to retroactively settle all of OHA's claims for the period from June 16, 1980 through June 30, 1991. Since fiscal 1992, the State, through its departments and agencies, has been paying 20% of "revenue" to OHA on a quarterly basis.

Notes to Basic Financial Statements

June 30, 2006

In 1993, the State Legislature enacted Act 35, SLH of 1993, appropriating \$136.5 million to pay the amount determined to be OHA's claims, with interest, for the period from June 16, 1980 through June 30, 1991.

In January 1994, OHA and its Board of Trustees (the Plaintiffs) filed suit against the State (*OHA, et al. v. State of Hawaii, et al.*, Civil No. 94-0205-01 (First Circuit) (*OHA I*)), claiming that the amount paid to OHA was inadequate and alleging that the State had failed to properly account for and fully pay the pro rata share of proceeds and income derived from the public land trust. Among other things, the Plaintiffs seek an accounting of all proceeds and income, funds and revenue derived from the public land trust since 1978, and restitution or damages amounting to 20% of the proceeds and income derived from the public land trust, as well as interest thereon. In its answer to OHA's complaint, the State denied all of the Plaintiffs' substantive allegations, and asserted its sovereign immunity from suit and other jurisdictional and claim-barring defenses.

The Plaintiffs thereafter filed four motions for partial summary judgment as to the State's liability to pay OHA 20% of monies it receives from (1) Airports' in-bond duty-free airport concession (including receipts from the concessionaire's off-airport sales operations); (2) the state-owned and operated Hilo Medical Center; (3) the State's public rental housing projects and affordable housing developments; and (4) interest income, including investment earnings (collectively, the Sources). In response, the State filed a motion to dismiss on the basis of sovereign immunity and opposed Plaintiffs' four motions on the merits and raised several affirmative defenses.

On October 24, 1996, the Circuit Court of the First Circuit of the State of Hawaii (First Circuit Court) filed an order denying the State's motion to dismiss and rejecting its affirmative defenses. Also on October 24, 1996, the First Circuit Court filed an order granting the Plaintiffs' four motions for partial summary judgment with respect to the State's liability to pay OHA 20% of the monies it receives from each of the Sources, and deferred establishing amounts owed from those Sources for further proceedings or trial. The State's motion for leave to file an interlocutory appeal from both the order denying its motion to dismiss and the order granting the Plaintiffs' four motions for partial summary judgment was granted, and all proceedings in the suit have been stayed pending the Hawaii Supreme Court's disposition of the State's appeal.

On September 12, 2001, the Hawaii Supreme Court concluded *OHA I* by holding in *OHA v. State of Hawaii*, 96 Haw., 388 (2001) that Act 304 was effectively repealed by its own terms, and that there were no judicially manageable standards by which to determine whether OHA was entitled to the revenue it sought from the Sources because the repeal of Act 304 revived the law which the Hawaii Supreme Court in *Yamasaki* had previously concluded was insufficiently clear to establish how much OHA was entitled to receive from the ceded lands. See *OHA v. State*, 96 Haw., 388 (2002). The Hawaii Supreme Court dismissed the case for lack of justiciability noting that it was up to the State Legislature to enact legislation to give effect to the right of native Hawaiians to benefit from the ceded lands under the State Constitution. The State Legislature took no action during the 2002 legislative session, and the State's payments of 20% of "revenue" were discontinued as of the first quarter in fiscal 2002.

The State Legislature took no action during the 2002 and 2003 legislative sessions to establish a new mechanism for establishing how much OHA was entitled to receive from the ceded lands. On January 10, 2003, and pending legislative action to establish such a mechanism, the Governor issued

Notes to Basic Financial Statements

June 30, 2006

Executive Order No. 03-03 directing state agencies to resume transferring 20% of receipts from leases, licenses, and permits indisputably paid for the use of improved or unimproved parcels of ceded lands to OHA, if federal or state law did not preclude all or any portion of the receipts from being used to better the conditions of native Hawaiians, and the transfer of all or any portion of the receipts to OHA would not cause the state agency to renege on a preexisting pledge, rate covenant, or other preexisting obligation to holders of revenue bonds or other indebtedness of the State or state agency. During the 2003 legislative session, the State Legislature appropriated monies from the various funds into which the ceded lands receipts had been deposited after the decision in *OHA I* was issued and the state agencies ceased making payments to OHA, and directed the state agencies to pay them to OHA.

OHA continues to pursue its claims for a portion of the revenues from the Sources and other ceded lands that it made in *OHA I*. On July 21, 2003, OHA filed a new lawsuit, *OHA, et al. v. State of Hawaii, et al.*, Civil No. 03-1-1505-07 (*OHA II*). There follows additional background information pertinent to *OHA II*. In September 1996, the Office of the Inspector General of the U.S. Department of Transportation (DOT) issued a report (the IG Report) concluding that from 1992 to 1995, the Hawaii Department of Transportation's payment to OHA of \$28.2 million was a diversion of airport revenues in violation of applicable federal law as OHA provided no airport services in return. The Hawaii Attorney General disagreed with the IG Report's conclusion, stating in November 1996 that the payments to OHA were simply an operating cost of the airports, and thus not a diversion of airport revenues in violation of federal law. In April 1997, the Acting Administrator of the FAA concurred in writing (the FAA Memorandum) with the IG Report and opposed the Hawaii Attorney General's position. In support of its appeal of the First Circuit Court's *OHA I* decision to the Hawaii Supreme Court, but differing with the original position of the Hawaii Attorney General, the State noted in its May 1997 amended opening brief that "unless the federal government's position, set forth in the IG Report, changes, Act 304 prohibits the State from paying OHA airport-related revenues." In its June 1997 reply, the State stated that the "DOT Inspector General's determination shows that the federal government is on its way to finding such payments illegal and requiring the State to reimburse past payments of airport-related revenues to OHA." In October 1997, Public Law 105-66, 1997 HR 2169 (the Forgiveness Act) was enacted into federal law. The Forgiveness Act essentially provides that in exchange for there being no further payments of airport revenues for claims related to ceded lands, any such payments received prior to April 1, 1996 need not be repaid. The Hawaii Attorney General submitted the Forgiveness Act to the Hawaii Supreme Court (Court) in December 1997, "for the Court's use" in conjunction with the *OHA I* appeal, whereupon the Court requested the parties submit supplemental briefs to address whether the Forgiveness Act affected the Court's interpretation of Act 304. The State, in its March 1998 supplemental brief, stated, inter alia, that paying OHA a pro rata share of airport monies violated federal law, and that there was no live, ripe controversy regarding those payments because the Forgiveness Act relieved the State and OHA of any obligation to return improper past payments.

Despite the adverse *OHA I* decision, the Plaintiffs in *OHA II* have now sued the State for alleged breaches of fiduciary duties as purported trustee of the ceded lands public trust, alleged violations of Act 304, Chapter 10, and Article XII, Sections 4, 5, and 6 of the Hawaii Constitution, alleged violations of the Contract Clause of the U.S. Constitution, and alleged misrepresentation and non-disclosure, by the following alleged acts (but not limited to these acts): (1) failing to oppose positions set forth in the FAA Memorandum; (2) resolving its dispute with the FAA by obtaining a forgiveness

Notes to Basic Financial Statements

June 30, 2006

of the prior \$28.2 million payments in exchange for a promise not to make future airport revenue payments to OHA and not to appeal the positions set forth in the FAA Memorandum; (3) breaching the trust duty of impartiality by not opposing the positions set forth in the FAA Memorandum in order to use as a sword in *OHA I*; (4) failing to timely advise OHA that the State was not going to continue to oppose the positions set forth in the FAA Memorandum or IG Report, and that it was planning to settle with the federal government, in order to provide OHA with a fair opportunity to take measures to step into the State's position to oppose the FAA; and (5) failing to obtain instructions from the Court on how to proceed given the State's conflict between defending the State against OHA in *OHA I*, and having a duty to oppose the positions set forth in the FAA Memorandum.

OHA further alleges that these alleged "breaches, errors, and omissions" were substantial factors that resulted in the passing of the Forgiveness Act and the issuance of the Hawaii Supreme Court's opinion in *OHA I*. Plaintiffs claim that, accordingly, the State is liable to OHA for damages including, but not limited to: (1) the damages alleged by OHA in *OHA I* and (2) amounts payable under Act 304 that have not been paid, including but not limited to, airport landing fees. Plaintiffs also seek declaratory and injunctive relief ordering the State to reinstate Act 304, pay airport-related revenues to OHA from sources other than airport revenues (and enjoining the State and its agents, employees, and officials from opposing any of the above), and seeks appointment of an independent trustee to temporarily replace the State as trustee of the native Hawaiian public trust with respect to matters relating to reinstatement of Act 304 and the payment of airport-related revenues to OHA from the sources other than airport revenues. The State filed a motion to dismiss OHA's complaint in *OHA II*, which the court granted in an order filed on December 26, 2003. The court entered a final judgment on May 19, 2004, encompassing the order dismissing the complaint and several procedural orders. On June 8, 2004, OHA filed a notice of appeal from the portions of the May 19, 2004 judgment dismissing its complaint in *OHA II*, denying leave to amend the complaint and denying a request for bifurcation of OHA's claims for liability and damages. The Court affirmed the First Circuit Court's order dismissing OHA's complaint in a decision issued September 9, 2005. On December 23, 2005, the Court granted OHA's motion for reconsideration. In a decision issued April 28, 2006, the Court again affirmed the First Circuit Court's order dismissing OHA's complaint and the judgment entered in the State's favor.

In a second lawsuit, OHA filed a complaint for declaratory and injunctive relief on November 4, 1994 (*OHA v. Housing Finance and Development Corporation, et al.*, Civil No. 94-4207-11 (First Circuit)) to enjoin the State from alienating any ceded lands or, alternatively, to preclude the extinguishing of any rights native Hawaiians may have in ceded lands which may be alienated.

Alternatively, OHA sought a declaration that the amounts the Housing Finance and Development Corporation (the Corporation) and the State paid to OHA for ceded lands the Corporation planned to use to develop and sell housing units pursuant to Act 318, SLH of 1992, were insufficient. Act 318 established a separate process for valuing the ceded lands the Corporation used for its two housing developments at Kealakeke and Lahaina, and quantifying the amounts of income and proceeds from the ceded lands that the Corporation and State were required to pay OHA for conveying and using the parcels for the Corporation's two projects.

STATE OF HAWAII

Notes to Basic Financial Statements

June 30, 2006

In December 2002, following a trial on the issues, the trial court confirmed the State's authority to sell ceded lands, denied the declaratory ruling that the sale of ceded lands did not directly or indirectly release or limit native Hawaiians' claim to those lands which the Plaintiff requested, and ordered that judgment be entered in the State's and the Corporation's favor as to Counts I, II, and III of the Amended Complaint. The Plaintiffs moved for and were granted leave to file immediate appeals from the trial court's ruling to the Hawaii Supreme Court. Those appeals are now pending. Trial to determine the sufficiency of the proceeds paid to OHA by the Corporation and the State from the sale of particular parcels of ceded lands at issue has not been scheduled.

In a third lawsuit, OHA filed suit against the Hawaii Housing Authority (the HHA), the executive director of the HHA, the board members of the HHA, and the Director of Finance on July 27, 1995 (*OHA v. HHA, et al.*, Civil No. 95-2682-07 (First Circuit)) to secure additional compensation and an itemized accounting of the sums previously paid to OHA for five specifically identified parcels of ceded lands which were transferred to the HHA for its use to develop, construct, and manage additional affordable public rental housing units under HRS Chapter 201G. On January 11, 2000, all proceedings in this suit were stayed pending the Hawaii Supreme Court's decision in the State's appeal in *OHA v. State of Hawaii*, Civil No. 94-0205-01 (First Circuit). The repeal and revival of the pre-*Yamasaki* law by the Hawaii Supreme Court's September 12, 2001 decision in *OHA v. State* should also require dismissal of the claims OHA makes in *OHA v. HHA*, and the case remains pending.

The State intends to vigorously defend against all of OHA's claims. It is currently unable to predict with reasonable certainty the magnitude of its potential liability for such claims, if any. Accordingly, no estimate of loss has been made in the accompanying basic financial statements. However, resolution of all of OHA's claims in OHA's favor could have a material adverse effect on the State's financial condition.

Department of Hawaiian Home Lands

Hawaiian Home Lands Trust Fund

Act 14, Special SLH of 1995, was approved by the Governor on June 29, 1995 and obligates the State to make 20 annual deposits of \$30,000,000, or their discounted value equivalent, into the Hawaiian Home Lands Trust Fund beginning in the fiscal year ended June 30, 1996. The primary purpose of Act 14 is to resolve controversies and claims related to the Hawaiian Home Lands trust which arose between August 31, 1959 and July 1, 1988. Act 14 also established in the State Treasury a trust fund known as the Hawaiian Home Lands Trust Fund.

The State transferred \$30,000,000 to the Hawaiian Home Lands Trust Fund during the fiscal year ended June 30, 2006.

As of June 30, 2006, the State has transferred approximately \$330,000,000 to the Hawaiian Home Lands Trust Fund. The State's remaining \$270,000,000 obligation discounted at 6% and assuming annual payments of \$30,000,000 over the remaining term of the obligation is approximately \$204,000,000. Such amount has been included in claims and judgments payable in the accompanying statement of net assets.

Notes to Basic Financial Statements

June 30, 2006

Transfer of Property

Act 95, SLH of 1996, authorizes the transfer of certain parcels of land to DHHL. The properties were conveyed in fiscal 1997 and the allocated costs were charged against contributed capital. The estimated future costs of those parcels will be recognized as contributions returned to the State and others when costs are incurred. The estimated allocated project costs incurred to date of those parcels of land were approximately \$18,740,000.

Individual Claims

In 1991, the State Legislature enacted HRS Chapter 674, entitled "Individual Claims Resolution Under the Hawaiian Home Lands Trust," which established a process for individual beneficiaries of the Hawaiian Homes Commission Act of 1920 to file claims to recover actual economic damages they believed they suffered from a breach of trust caused by an act or omission of an official of the State between August 21, 1959, when Hawaii became a state, and June 30, 1988. Claims were required to be filed no later than August 31, 1995. There were 4,327 claims filed by 2,753 individuals.

The process was a three-step process which (1) began with informal proceedings presided over by the Hawaiian Home Lands Trust Individual Claims Review Panel (the Panel) to provide the State Legislature with non-binding findings and advisory opinions for each claim; (2) provided for the State Legislature's review and consideration of the Panel's findings and advisory opinions, and appropriations of funds to pay the actual economic damages the State Legislature deemed appropriate by October 1, 1999; and (3) allowed claimants to bring de novo civil actions by December 31, 1999 if they were not satisfied with the Panel's findings and advisory opinions, or the State Legislature's response to the Panel's recommendations.

Legislation to allow the Panel and the State Legislature until September 30, 2000 to act on all claims, and postpone the deadline for unsatisfied claimants to file suit until December 31, 2000, was adopted by the State Legislature, but vetoed by the Governor in the 1999 legislative session, and the Panel unseated on December 31, 1999. As of September 30, 1999, claims from 1,376 claimants had not been reviewed by the Panel, and all but the claims of two claimants had not been acted upon by the State Legislature. In 1997, the State Legislature declared it to be its intent to postpone acting upon the Panel's recommendations until all claims had been reviewed and forwarded to it.

On September 30, 1999, three claimants filed a suit for declaratory and injunctive relief in the U.S. District Court to secure an injunction prohibiting the enforcement of the notice and suit filing deadlines specified in HRS Chapter 674. *Kalima, et al. v. Cayetano*, Civil No. 99-00671HG/LEK. A motion for preliminary injunction was heard on November 15, 1999 and denied as moot on September 28, 2000. By stipulation filed on November 13, 2000, the action was dismissed without prejudice.

Notes to Basic Financial Statements

June 30, 2006

On December 29, 1999, the same three claimants filed a class action lawsuit in the First Circuit Court for declaratory and injunctive relief and for general, special, and punitive damages for breach of trust or fiduciary duty under HRS Chapters 674 and 673, violation of the due process, equal protection and native rights clauses of the State Constitution, and breach of contract under HRS Chapter 661. *Kalima, et al. v. State of Hawaii, et al.*, Civil No. 99-4771-12VSM (First Circuit Court) (*Kalima I*). Five other claimants filed similar individual claims actions for themselves on or before December 31, 1999. *Aguiar v. State of Hawaii, et al.*, Civil No. 99-612 (Third Circuit Court); *Silva v. State of Hawaii, et al.*, Civil No. 99-4775-12 (First Circuit Court); *Wilhelm v. State of Hawaii, et al.*, Civil No. 99-4774-12 (First Circuit Court); *Williamson v. State of Hawaii, et al.*, Civil No. 99-4773-12 (First Circuit Court); *Hanohano v. State of Hawaii, et al.*, Civil No. 99-4775-12 (First Circuit Court). The Plaintiffs in these other actions have stipulated to stay all proceedings in their actions pending the resolution of all questions of law in *Kalima I* that are common to the questions of law presented in their suits. Plaintiff Hanohano has since stipulated to the dismissal of her action without prejudice.

On March 30, 2000, the three named-plaintiffs in *Kalima I* filed a second class action lawsuit in the First Circuit Court for declaratory and injunctive relief, and for damages under HRS Chapter 673, for the Panel's and the State Legislature's alleged failure to remedy their breach of trust claims under HRS Chapter 674. *Kalima, et al. v. State of Hawaii, et al.*, Civil No. 00-1-1041-03 (First Circuit Court) (*Kalima II*). All proceedings in this action were stayed by stipulation, pending the resolution of those questions of law in *Kalima I* that are common to both *Kalima I* and *Kalima II*.

On August 30, 2000, the First Circuit Court entered an order in *Kalima I* granting Plaintiffs' motion for summary judgment and declaratory relief as to Count I of the Complaint, and denying Defendants' motion for judgment on the pleadings. Essentially, the First Circuit Court rejected Defendants' sovereign immunity, lack of subject matter jurisdiction, and no-cause of action defenses, and ruled that the Plaintiffs and those similarly situated to them (by an order filed on August 29, 2000, a class was so certified for purposes of Count I) could pursue their claims for damages and other relief under HRS Chapters 674 and 661.

The First Circuit Court allowed the State to take an interlocutory appeal from the August 30, 2000 order to the Hawaii Supreme Court, and entered an order staying all proceedings in *Kalima I* pending the Hawaii Supreme Court's disposition of the appeal. Orders to stay proceedings in all of the other cases were also entered. In a decision issued on June 30, 2006, the Hawaii Supreme Court affirmed the Plaintiffs' right to pursue their claims for damages under HRS Chapter 674, reversed the First Circuit Court's ruling that the Plaintiffs had a similar right under HRS Chapter 661, and remanded the case to the First Circuit Court for further proceedings. Proceedings in *Kalima II* and all of the other cases remained stayed.

The State intends to defend vigorously against all claims. It is currently unable to predict with reasonable certainty the magnitude of its potential liability, if any, for such claims. Resolution of all the claims in the Plaintiffs' favor could have a material adverse effect on the State's financial condition.

Notes to Basic Financial Statements

June 30, 2006

(13) RISK MANAGEMENT

The State records a liability for risk financing and insurance related losses if it is determined that a loss has been incurred and the amount can be reasonably estimated. The State retains various risks and insures certain excess layers with commercial insurance companies. The excess layers insured with commercial insurance companies are consistent with the prior fiscal year. Settled claims have not exceeded the coverage provided by commercial insurance companies in any of the past three fiscal years. A summary of the State's underwriting risks is as follows:

A. Property Insurance

The State has an insurance policy with a variety of insurers in a variety of layers for property coverage. The deductible for coverage is 3% of loss subject to a \$250,000 per occurrence minimum. This policy includes windstorm, earthquake, flood damage, tsunami, and volcanic action coverage. The limit of loss per occurrence is \$100,000,000, except for flood and earthquake which individually is a \$50,000,000 aggregate loss, and terrorism which is \$50,000,000 per occurrence.

The State also has a crime insurance policy for various types of coverages with a limit of loss of \$10,000,000 per occurrence with a \$500,000 deductible per occurrence. Losses not covered by insurance are paid from legislative appropriations of the State's General Fund.

B. General Liability (Including Torts)

Claims under \$10,000 are handled by the risk management office of the Department of Accounting and General Services. All other claims are handled by the Department of the Attorney General. The State has personal injury and property damage liability, including automobile and public errors and omissions, insurance policy in force with a \$4,000,000 deductible per occurrence. The annual aggregate per occurrence is \$10,000,000.

Losses under the deductible amount or over the aggregate limit are paid from legislative appropriations of the State's General Fund.

C. Medical Insurance

The State's community hospitals included in the HHSC are insured by a comprehensive hospital professional liability policy. The policy covers losses from personal injury, professional liability, patient property damage, and employee benefits. This policy covers losses up to a limit of \$20,000,000 per occurrence and in the aggregate.

D. Self-Insured Risks

The State generally self-insures its automobile no-fault and workers' compensation losses. Automobile losses are administered by third-party administrators. The State administers its workers' compensation losses.

STATE OF HAWAII

Notes to Basic Financial Statements

June 30, 2006

E. Reserve for Losses and Loss Adjustment Costs

A liability for workers' compensation and general liability claims is established if information indicates that a loss has been incurred as of June 30, 2006 and the amount of the loss can be reasonably estimated. The liability also includes an estimate for amounts incurred but not reported. The amount of the estimated loss is recorded in the accompanying statement of net assets as those losses will be liquidated with future expendable resources. The estimated losses will be paid from legislative appropriations of the State's General Fund. The following table represents changes in the amount of the estimated losses and the loss adjustment costs at June 30 (amounts expressed in thousands):

	<u>2006</u>	<u>2005</u>
Unpaid losses and loss adjustment costs at the beginning of the fiscal year	\$ 89,100	\$ 103,500
Incurred losses and loss adjustment costs:		
Provision for insured events of current fiscal year	16,500	11,400
Decrease in provision for insured events of prior fiscal years	(1,900)	(1,600)
Total incurred losses and loss adjustment costs	<u>14,600</u>	<u>9,800</u>
Payments:		
Losses and loss adjustment costs attributable to insured events of current fiscal year	(3,400)	(2,600)
Losses and loss adjustment costs attributable to insured events of prior fiscal years	(22,800)	(21,600)
Total payments	<u>(26,200)</u>	<u>(24,200)</u>
Unpaid losses and loss adjustment costs at the end of the fiscal year	<u>\$ 77,500</u>	<u>\$ 89,100</u>

(14) SUBSEQUENT EVENTS

In July 2006, Harbors issued \$96,570,000 in Revenue Bonds, Series A of 2006. The Series A of 2006 Bonds will mature through the year 2031 at an average interest rate of 5.08%.

Due to the critical importance to preserve the Honolulu Harbor to support maritime needs, Act 165, SLH of 2006, was enacted to remove Piers 1 and 2 at Honolulu Harbor from the jurisdiction of HCDA and convey authority to the DOT and the Foreign Trade Zone Division of the Department of Business, Economic Development and Tourism effective July 1, 2006.

In September 2006, the Board of Regents of the UH issued University Revenue Bonds, Refunding Series 2006A, in the principal amount of \$133,810,000. The bonds bear interest at rates ranging from 3.50% to 5.00% and mature in annual installments through fiscal 2032.

In October 2006, the State experienced an earthquake centered off the Big Island of Hawaii. Harbors is currently in the process of evaluating the effects of the earthquake on the undertaking and any repairs or maintenance that would be required.

In November 2006, the Board of Regents of the UH issued University Revenue Bonds, Series 2006A, in the principal amount of \$100,000,000. The bonds bear interest at rates ranging from 3.62% to 5.00% and mature in annual installments through fiscal 2026.

In November 2006, the DHHL issued Certificates of Participation, 2006 Series A, in the principal amount of \$24,500,000 for the construction of the DHHL's Kapolei office facility. The certificates bear interest at rates ranging from 3.62% to 5.00% and mature in annual installments through fiscal 2022.

SUPPLEMENTARY INFORMATION

NONMAJOR GOVERNMENTAL FUNDS

Special Revenue Funds

The Special Revenue Funds are used to account for the proceeds of specific revenue sources that are legally restricted for specific purposes. Certain Special Revenue Funds are presented separately in the accompanying combining financial statements, with the remainder grouped as a single entity. The Special Revenue Funds are as follows:

Highways – accounts for programs related to maintaining and operating land transportation facilities.

Natural Resources – accounts for programs related to the conservation, development, and utilization of agriculture, aquaculture, water, land, and other natural resources of the State.

Wastewater – accounts for programs related to the water sanitation of the State.

Health – accounts for programs related to mental health, nutrition services, communicable disease, and for other public health services.

Med-Quest – accounts for the programs related to the health care programs of the State.

Human Services – accounts for social service programs, which include public welfare, eligibility and disability determination, and housing assistance.

Education – accounts for programs related to instructional education, school food services, and student driver education.

Economic Development – accounts for programs related to the development and promotion of industry and international commerce, energy development and management, economic research and analysis, and the utilization of resources.

Employment – accounts for programs related to employment and training, disability compensation, placement services, and occupational safety and health.

Regulatory – accounts for programs related to consumer protection, business registration, and cable television regulation.

Hawaiian Programs – accounts for programs related to the betterment of the conditions of native Hawaiians.

Administrative Support – accounts for programs of certain administrative agencies.

All Other – accounts for programs related to water recreation, inmate stores, and driver training and education.

Debt Service Fund

The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, general obligation bonds serviced by the General Fund and general obligation bonds and revenue bonds serviced by the Special Revenue Funds.

PART III: STATISTICAL SECTION

STATISTICAL SECTION

This part of the State's comprehensive annual financial report presents detailed information as a context for understanding the information in the financial statements, note disclosures, and required supplementary information on the State's overall financial health.

<u>Contents</u>	<u>Page</u>
Financial Trends: These schedules contain trend information to help the reader understand how the State's financial performance and well-being have changed over time.	121
Revenue Capacity: These schedules contain information to help the reader assess the State's most significant local revenue sources, the general excise tax, and net income tax.	125
Debt Capacity: These schedules present information to help the reader assess the affordability of the State's current levels of outstanding debt and the State's ability to issue additional debt in the future.	130
Demographic and Economic Information: These schedules offer demographic and economic indicators to help the reader understand the environment within which the State's financial activities take place.	134
Operating Information: These schedules contain service and infrastructure data to help the reader understand how the information in the State's financial report relates to the services provided and the activities performed by the State.	136

Sources: Unless otherwise noted, the information in these schedules is derived from the comprehensive annual financial reports for the relevant year. The State implemented GASB Statement No. 34 in 2002; schedules presenting government-wide information include information beginning in that year.

Debt service:					
Principal	1,250	1,200	1,155	1,115	—
Interest	391	440	487	531	552
Total Debt Service	1,641	1,640	1,642	1,646	552
Coverage(10)	242%	184%	175%	179%	453%

- (1) Total operating revenues plus interest income and federal operating grants, exclusive of interest earned on investment in financing leases.
- (2) Total operating expenses other than depreciation less (plus) excess of actual disbursements over (under) required reserve for major maintenance, renewal, and replacement plus amounts required to be paid into the General Fund for general obligation bond requirements.
- (3) On January 5, 2005, Airports disbursed \$69,300 for the Airport Revenue Fund to the paying agent to redeem the outstanding balance of the Airports System Revenue Bonds, Refunding Series of 2003 in its entirety.
- (4) For fiscal 2005, Airports deposited \$20,000 of available funds into the Airport Revenue Fund for credit to the interest account in the current year to reduce the amount required pursuant to the provisions of Section 6.01 to be paid or credited during fiscal 2005 to the interest account as required in the "Certificate of the Director of Transportation Providing for the Issuance of State of Hawaii Airports System Revenue Bonds."
- (5) Airports revenue bond indentures require a minimum debt service coverage percentage of 125%.
- (6) Total operating and nonoperating revenues exclusive of interest income on investment in financing leases and special facility construction fund and revenue fund investments.
- (7) Total operating expenses other than depreciation, less State of Hawaii surcharge for central service expenses.
- (8) Harbors revenue bond indentures require a minimum debt service coverage percentage of 125%.
- (9) Highways revenue bond indentures require a minimum debt service coverage percentage of 100% during a routine year, 200% during the year bonds are issued, and 135% is required for any year Highways' funds are transferred out (i.e., General Fund)
- (10) DHHL revenue bond indentures require a minimum debt service coverage percentage of 125%.

Coverage equals net available revenue divided by debt service.
