MINUTES

Members in Attendance: Paul Ferreira, Russ Lundberg, Mark Begley, Clement Chan, Clayton Tom, Aimee Wana, Victor Ramos, Tony Ramirez

Staff in Attendance: Courtney Tagupa

Other in Attendance: Janet Crotteau, Dave Peck, Patrick Chau, Jim Howe, Thera Bradshaw, Jeffrey Ono

I. Call to order

The meeting was called to order at 10:05am, Tuesday, February 8, 2011.

II. Introductions

Introductions were made of all attendees.

III. Review and Approval of Minutes from January 11, 2011 Joint Technical, Finance and Communications Committee Meeting.

A motion to approve the minutes was made by Mr. Tony Ramirez was seconded by Mr. Paul Ferreira. The motion was approved unanimously by voice vote.

IV. Items for Discussion, Consideration and Action

a. Monthly Cash Flow Report

- i. A review of the cash flow for the month and year-to-date was conducted by Mr. Tagupa. A summary of the cash flow is as follows:

1. Month of January:

- a. Cash receipts - \$802,376.98
 - b. Cash Disbursements - \$166,783.86
 - 2. Fiscal Year-to-Date:
 - a. Cash Receipts - \$4,841,311
 - b. Cash Disbursements - \$1,170,625
- b. Update on status of PSAP projects with funds pending expenditure.**
 - i. Mr. Mark Begley had indicated that the pending procurement for Kauai CAD upgrade was still on track to be awarded in April 2011.
 - ii. Major Janet Crotteau acknowledged that the procurement process for the Akimeka, LLC services was proceeding as planned with a possible award date in April 2011.
- c. Request approval of proposed attendees to 9-1-1 Goes to Washington Conference (March 28-31, 2011).**
 - i. 11 attendees were acknowledged by: Maui (2), Hawaii (1), Kauai (1), Oahu-HPD (2), Oahu-HFD (2), Oahu-EMS (1), Oahu-Ocean Safety (1), Executive Director (1). The total funding will be \$40,000.
 - ii. A motion to forward the request for Board approval for attendance at the 9-1-1 Goes to Washington Conference by Mr. Tony Ramirez was seconded by Mr. Mark Begley. The motion was approved unanimously by voice vote.
- d. Request PSAP updates for Wireless E911 Timeline continuum.**
 - i. The existing timeline has not been updated since the end of FY 2008.
 - ii. **Action Item-** Mr. Tagupa will send a soft copy of the Timeline to each PSAP member to update. The update would then be submitted to the Executive Director for processing.
- e. Request approval for adding Ms. Thera Bradshaw as a signatory on the Board bank account pending approval as Executive Director by the Board.**
 - i. Mr. Tagupa had indicated that there was a need for an additional signatory on the Board's bank account and the Executive Director was recommended.
 - ii. There was a motion by Mr. Ferreira to approve and was seconded. The motion was approved unanimously by voice vote.
- f. Request approval to reschedule the Wireless Technology Conference (March 7, 2011) to a future date to concentrate on current 9-1-1 legislative issues.**
 - i. Ms. Bradshaw stated that additional time was needed in order to plan a quality conference with quality speakers.

- ii. Deputy Chief Paul Ferreira had moved that the Wireless Technology Conference be rescheduled and will recommend to the Board that an investigative committee take charge of the conference planning. The motion was seconded by Mr. Lundberg was approved unanimously by voice vote.

g. Request approval for Honolulu Fire Dept. to purchase integration software for the Pictometry imagery. Estimated cost \$55K - \$60K.

- i. Battalion Chief Kenison Tejada had requested that this matter be deferred for next month's meeting.

h. Request approval for reimbursement for Hawai'i Police Department PSAP representatives to attend the Intergraph 2011 International User Conference in Orlando, Florida (June 6-9, 2011).

- i. The request for \$5,400 of funding for 2 attendees from the Hawaii County PSAP was made by Deputy Chief Paul Ferreira.
- ii. There was a motion by Mr. Victor Ramos to forward the request to the Board for approval of funding and was seconded. The motion was approved by voice vote with Deputy Chief Paul Ferreira and Lt. Aimee Wana abstaining.

i. Discussion regarding the rules of order for the Joint Committee which includes but not limited to:

- i. Appointment/reappointment of Joint Committee members and Chairpersons
- ii. Limitation on the number of committee members.
- iii. Determining Quorum
- iv. Voting procedures

The following points were stated:

1. Committee chair should lead meeting
2. Committee members would sit at the table only.
3. The Technical and Finance Committees would be held during the same 2 hour period.
4. Encourage participate from non-committee members
5. Joint meetings are helpful.
6. Can only be a voting member of one committee.
7. Do the Tech Committee members must require expertise?
8. Technical was established to determine if the requested reimbursement is consistent with legislation and if there is a nexus with wireless 911. Finance role - can we afford it?
9. 11 Technical members are recommended by Mr. Victor Ramos.
 - a. Eliminations- G. Bruce, Russell Lundberg, Kevin Kurihara, Paul Ferreira, Mark Begley.
 - b. Add: Major Janet Crotteau
10. Finance Committee:

- a. Russell Lundberg, Mark Begley, Paul Ferreira, Gordon Bruce, John Thompson.

11. Any other committee member can be a member of the Communications committee.

There was a motion by Mr. Paul Ferreira to move this matter to the Board to vote to approve the committee chairs and its members. The motion was seconded by Mr. Russell Lundberg and was unanimously approved by voice vote.

j. 9-1-1 Legislation Update.

i. The following legislative hearings were discussed:

1. **SB 783 eliminates the .66 surcharge and the Board.**
2. **SB 1227 Expands the scope of the responsibilities of the Board.**
3. **HB 1000 House version of SB 1227**
4. **SB 640 Independent audit E911 fund annually.**
5. **SB 120 Repeals certain special funds.**

ii. All PSAPs are encouraged to give verbal and/or written testimony since it affects all PSAP operations.

iii. Mr. Tony Ramirez had proposed that submit testimony by the Consumer Advocate on behalf of the people of Hawaii to not remove the Wireless E911 fund. Mr. Jeffrey Ono responded that DCCA has not included Wireless E911 as a part of it testimony to the legislature.

k. Review of FY2012/FY2013 Strategic Budget and proposed expenditures from PSAPs.

Mr. Tagupa had reviewed the consolidation of the inputs from the PSAPs and stated the PSAP inputs resulted in the following funding requests:

- i. 2012 - \$10M
- ii. 2013 - \$11M
- iii. 2014 - \$9.7M
- iv. 2015 - \$9.2M

Mr. Tagupa further stated that there was a request for an increase in the legislative ceiling for FY 2012 from \$9M to \$14M to be submitted in the Governor's budget package from DAGS. Under this scenario, all PSAP funding requests should be covered.

Mr. Tagupa further stated that this plan excludes any funding for EMS.

Ms. Thera Bradshaw had requested that the budget plan be renamed to Strategic Budget Plan. Mr. Ferreira had moved to approve the name change. The move was seconded and approved unanimously.

Mr. Paul Ferreira had moved for Mr. Tagupa to identify what would the Strategic Budget Plan if the legislative ceiling were raised to \$14M during FY 2012. The motion was seconded by Mr. Russell Lundberg and the motion was approved unanimously by voice vote.

l. Request approval of Honolulu Police Department Request for funding CAD upgrade.

- i. Mr. Tagupa had recommended that the request for funding for the HPD CAD upgrade be deferred and placed in the approval process for the FY 2012 – FY 2015 Strategic Budget.
- ii. There was a motion by Mr. Paul Ferreira to approve the FY 2011 expenditure for HPD only if funding is available. The requested HPD expenditures for FYs 2013 and 2014 are removed from the agenda. The motion was seconded and unanimously approved by voice vote.

m. Review of feedback from Board members regarding future Board and Joint Committee meeting dates and times.

- i. This matter was deferred until discussions with Board member Goldie Cross were held to determine her availability to attend Board meetings.

n. Request approval of proposed amendment to the new Wireless E911 legislation to expand the scope of the Board to include:

- i. changing the scope of the fund from Special fund to Trust Fund
 1. There was move to approve by Mr. Paul Ferreira. It was seconded and approved unanimously.
- ii. adding permanent staff to facilitate the responsibilities of the Board and assist the Executive Director if the scope of services were expanded as a result of the passing of the proposed legislation.
 1. There was a motion to defer this matter by Mr. Paul Ferreira. The motion was seconded and approved unanimously by voice vote.
- iii. the transfer of responsibilities for handling disbursements to the State of Hawaii.
 1. There was a motion to defer this mater by Mr. Victor Ramos. The motion was seconded and approved unanimously by voice vote.

V. **Announcements:** Kauai PSAP data synchronization has been added to the Akimeka, LLC report starting January; Hawaii in February and Maui in March 2011.

VI. Next meeting date–Tuesday, March 8, 2011, 10am, Conference Room 426

VII. Adjournment – The meeting was adjourned at 12:20pm.

AVG PER MO	1,914	909			1,004			1		22	

Note: Total Calls include Administrative calls that are not direct 911 calls.

Notes:

- (1) "Abandoned" calls represent the number of incoming 9-1-1 calls for which the caller had hung up before a call-taker answered.
- (2) "Abandoned" calls are included in the "Wireline" and "Wireless" counts respectively. The standard CML reports do not provide a break-out of "Abandoned" calls between "Wireline" and "Wireless" calls.
- (3) Total call volumes include Administrative calls. (Administrative calls = Calls made between 911 positions but are not 911 calls.)

Hawaii County Wireless E9-1-1 Status Report January 1, 2011 – January 31, 2011

- **PSAP Operations (continued)**

Wireless Test – January 2011

Date	WSP	Sites Tested	Sectors Tested	Tested By:
01/24/11 – 01/25/11	AT&T Mobility	16	47	Hawai'i PSAP/ Akimeka (on-site support)

Current Month PSAP Operations Activities – January 2011

- 01/06/11 Akimeka forwarded, at the request of the Hawai'i County PSAP, the published (via a news article) Molokai 9-1-1 call recording of the caller who lost control of his car. The recording provided an example of the ability of one Molokai dispatcher to effectively assist the 9-1-1 caller and radio at the same time. This recording can also be used as a Dispatcher training tool.

- 01/07/11 -- Pending Akimeka prepared a 2011 Holiday Testing Schedule, which is currently under internal review. Once approval is received from the Hawai'i County PSAP, the schedule will be released to all Service Providers doing business in the State of Hawai'i.

- 01/10/11 Akimeka provided Sergeant Ing with an electronic copy of the 9-1-1 and Positron Mapping training materials.

- 01/12/11 -- 01/25/11 Akimeka coordinated efforts to add and test sixteen (16) AT&T Mobility cell towers to the Hawai'i Wireless E9-1-1 database. All of the cell towers needed to be added to the Positron mapping system. A coordinated date and drive plan was approved by the Hawai'i County PSAP.

Akimeka provided on-site testing support to test all of the cell towers and sectors. This was done over two days -- January 24 - 25, 2011. All cell towers and sectors were tested and approved.

Note: While conducting testing on Kauai, the AT&T Mobility cell towers failed testing due to incorrect display of the street name field as validated on the CRS and TVW. The trouble, as identified by Intrado, was a result of duplicate Emergency Service Routing Numbers (ESRNs). This is an internal number between Intrado and AT&T Mobility. The duplicate ESRNs would prevent the street address from displaying properly.

It was discovered that this was not a Kauai specific problem but rather a nationwide issue regarding shared ESRNs when unique identifiers (street address) are required. The solution is to separate the ESRNs when establishing GSM and UMT networks. This trouble/issue is being addressed by AT&T Mobility.

Hawaii County Wireless E9-1-1 Status Report January 1, 2011 – January 31, 2011

- **PSAP Operations (continued)**

Current Month PSAP Operations Activities – January 2011 (continued)

01/14/11 At the request of the Hawai'i County PSAP, Akimeka received DEM (demographic) map data from the Hawai'i County GIS section to use for the development of a Police radio coverage map layer

Open Issues (To be Monitored and Tracked by Akimeka)

No further updates as of January 31, 2011.

11/21/09 Akimeka will continue to monitor and track AT&T Mobility's open trouble ticket (11/21/09) for missing house number (HN), street and community information when transferring a WPH2 call or rebidding a WPH2 call. This issue was escalated to the State of Hawaii Wireless Enhanced 9-1-1 Board for action (August 2010). There have been no updates received to date. Unfortunately, the trouble is still occurring.

Akimeka will provide status updates via the Monthly Status Report (MSR) when there are significant changes or updates as provided by the State of Hawaii Wireless Enhanced 9-1-1 Board and/or AT&T Mobility.

01/14/10 Akimeka will continue to monitor and track the work with Telematics providers, OnStar, Hughes, and ATX. The Executive Director of the State of Hawaii Enhanced Wireless 9-1-1 Board volunteered to coordinate and chair implementation calls (August 2010). There have been no updates or further testing scheduled by the Telematics providers.

Akimeka will provide status updates via the Monthly Status Report (MSR) when there are significant changes or updates as provided by the State of Hawaii Wireless Enhanced 9-1-1 Board and/or Telematics providers.

04/16/10 Akimeka personnel worked on a flowchart for the Neighbor Island PSAPs to document the flow of a Call Routing Spreadsheet (CRS) and Testing Validation Worksheet (TVW). It was discovered that different processes exist among the carriers.

Akimeka created and submitted for review a DRAFT Call Routing Spreadsheet (CRS) and Testing Validation Worksheet (TVW) process flowchart to the Neighbor Island PSAPs on December 20, 2010.

Kauai County Wireless E9-1-1 Status Report January 1, 2011 – January 31, 2011

- **PSAP Operations (continued)**

Wireless Test – January 2011

Date	WSP	Sites Tested	Sectors Tested	Tested By:
01/20/11	AT&T Mobility	2	6	Kauai PSAP/Akimeka

Note: Cell Sites/ Sectors Did Not Pass the Test – Failed Test

Current Month PSAP Operations Activities – January 2011

- 01/03/11 Akimeka delivered a 9-1-1 Center Evacuation/Relocations Guideline to the Kauai Dispatch Supervisor, Police Assistant Chief, and Kauai County IT personnel to facilitate with the organizing and completing of the Dispatch Evacuation project. The purpose of the document is to identify the essential equipment and resources needed when an evacuation of the 9-1-1 Center is declared. Fifteen (15) areas were identified as needing attention during an evacuation.

- 01/06/11 Akimeka shared the published (via a news article) Molokai 9-1-1 call recording of the caller who lost control of his car with the Kauai County PSAP. The recording provided an example of the ability of one Molokai dispatcher to effectively assist the 9-1-1 caller and radio at the same time. The recording can also be used as a Dispatcher training tool.

- 01/07/11 -- Pending Akimeka prepared a 2011 Holiday Testing Schedule, which is currently under internal review. Once approval is received from the Kauai County PSAP, the schedule will be released to all Service Providers doing business in the State of Hawai'i.

- 01/10/11 Akimeka prepared a draft Standard Operating Procedure -- No. 107 for the 9-1-1 Center Evacuation plan. The draft document was delivered to the Kauai Dispatch Supervisor, Police Command, and Kauai County IT personnel. The procedure outlines the emergency evacuation and mobilization plan for the Police Communications section and includes a supervisor's evacuation checklist, notifications checklist, and radio stations checklist.

Kauai County Wireless E9-1-1 Status Report January 1, 2011 – January 31, 2011

- **PSAP Operations (continued)**

Current Month PSAP Operations Activities – January 2011 (continued)

01/12/11 Akimeka coordinated efforts to add and test two (2) AT&T Mobility cell towers to the Kauai Wireless E9-1-1 database. All of the cell towers needed to be added to the Positron mapping system. A coordinated date and drive plan was approved by the Kauai Dispatch Supervisor.

Testing was scheduled and conducted on January 20, 2011. Both cell towers did not pass the test due to incorrect display of the street name field as validated on the CRS and TVW. The trouble, as identified by Intrado, was a result of duplicate Emergency Service Routing Numbers (ESRNs). This is an internal number between Intrado and AT&T Mobility. The duplicate ESRNs would prevent the street address from displaying properly.

It was discovered that this was not a Kauai County specific problem but rather a nationwide issue regarding shared ESRNs when unique identifiers (street address) are required. The solution is to separate the ESRNs when establishing GSM and UMT networks.

The CRS and TVW were referred back to AT&T Mobility and Intrado due to the failed test results. Corrective action will be taken by AT&T Mobility.

01/24/11 -- Akimeka personnel developed a Dispatcher training guide and presentation for
01/26/11 PowerMap and Pictometry.

Akimeka personnel provided on-site Dispatcher training for four (4) new Kauai dispatchers on January 26, 2011. Training included Plant/CML equipment, Wireless, Positron Mapping and Pictometry.

01/26/11 Akimeka personnel met with the Kauai Assistant Police Chief, Patrol Captain, Dispatch Supervisor, and Kauai County IT personnel to discuss and review the Dispatch Evacuation plan and procedures, including the draft Standard Operating Procedure (No. 107) document. The project is moving forward as scheduled.

Kauai County Wireless E9-1-1 Status Report January 1, 2011 – January 31, 2011

- **PSAP Operations (continued)**

Open Issues (To be Monitored and Tracked by Akimeka)

No further updates as of January 31, 2011.

11/21/09 Akimeka will continue to monitor and track AT&T Mobility's open trouble ticket (11/21/09) for missing house number (HN), street and community information when transferring a WPH2 call or rebidding a WPH2 call. This issue was escalated to the State of Hawaii Wireless Enhanced 9-1-1 Board for action (August 2010). There have been no updates received to date. Unfortunately, the trouble is still occurring.

Akimeka will provide status updates via the Monthly Status Report (MSR) when there are significant changes or updates as provided by the State of Hawaii Wireless Enhanced 9-1-1 Board and/or AT&T Mobility.

01/14/10 Akimeka will continue to monitor and track the work with Telematics providers, OnStar, Hughes, and ATX. The Executive Director of the State of Hawaii Enhanced Wireless 9-1-1 Board volunteered to coordinate and chair implementation calls (August 2010). There have been no updates or further testing scheduled by the Telematics providers.

Akimeka will provide status updates via the Monthly Status Report (MSR) when there are significant changes or updates as provided by the State of Hawaii Wireless Enhanced 9-1-1 Board and/or Telematics providers.

04/16/10 Akimeka personnel worked on a flowchart for the Neighbor Island PSAPs to document the flow of a Call Routing Spreadsheet (CRS) and Testing Validation Worksheet (TVW). It was discovered that different processes exist among the carriers.

Akimeka created and submitted for review a DRAFT Call Routing Spreadsheet (CRS) and Testing Validation Worksheet (TVW) process flowchart to the Neighbor Island PSAPs on December 20, 2010.

Kauai County Wireless E9-1-1 Status Report January 1, 2011 – January 31, 2011

- **E9-1-1 Database Synchronization**

(Reference: NENA 71-501, Version 1.1 – NENA Information Document for Synchronizing Geographic Information System databases with MSAG & ALI)

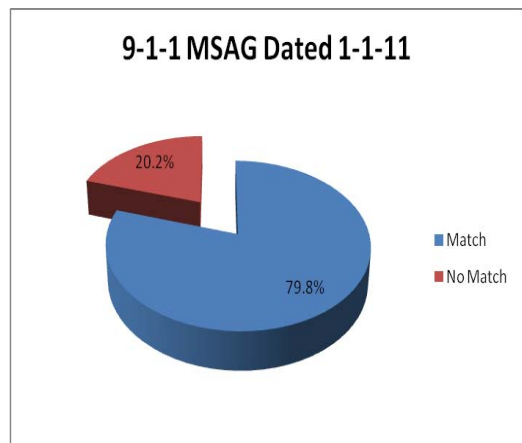

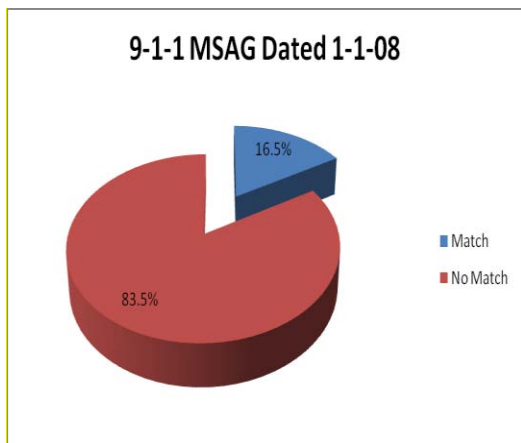

As part of Akimeka's value added services, Akimeka conducted a database synchronization audit for Kauai County in January 2011. Kauai County was selected as the pilot test site based on the 9-1-1 MSAG work that had been completed thus far by Akimeka and the size of Kauai County's 9-1-1 MSAG.

The database synchronization effort included comparing Kauai County's 9-1-1 MSAG against its GIS Street Centerline data. A total number of 1,200 9-1-1 MSAG records were reviewed in the audit and analyzed. Results of the database synchronization audit completed on January 13, 2011 for Kauai County is reported below.

Database synchronization should be part of an ongoing and continuous process to ensure that the databases remain current and synchronized. Since neither database is static in nature, the synchronization process will never yield a 100 percent match rate. As such, NENA's recommended minimum match rate is 98%.

The database synchronization process is essential to monitor and ensure the level of accuracy of the E9-1-1 databases and prepare for Next Generation 9-1-1 (NG9-1-1). As such, Akimeka will perform database synchronization audits on a quarterly basis as part of its ongoing maintenance process. Results of the database synchronization audit will be included and reported in the Monthly Status Report (MSR) accordingly.

Audit Summary Results – 2008 vs. 2011

Kauai County Wireless E9-1-1 Status Report January 1, 2011 – January 31, 2011

- **E9-1-1 Database Synchronization (continued)**
(Reference: NENA 71-501, Version 1.1 – NENA Information Document for Synchronizing Geographic Information System databases with MSAG & ALI)

Audit Summary Results – 2008 vs. 2011 (continued)

9-1-1 MSAG TO GIS STREET CENTERLINE AUDIT COMPARISON RESULTS	Notes	As of January 1, 2008		As of January 13, 2011	
		9-1-1 MSAG Dated 1-1-08		9-1-1 MSAG Dated 1-1-11	
		# of Records	%	# of Records	%
Total 9-1-1 MSAG Records Reviewed		938		1,200	
Less: 9-1-1 MSAG Exception Records	(1)			57	4.8%
Net 9-1-1 MSAG Records Eligible for Comparison		938		1,143	
Total 9-1-1 MSAG Records Match (9-1-1 MSAG – GIS Match – No Corrections Required)		155	16.5%	912	79.8%
9-1-1 MSAG -- GIS No Match - Minor Correction Required	(2)			222	19.4%
9-1-1 MSAG -- GIS No Match - Major Correction Required	(3)			0	0.0%
9-1-1 MSAG Record With No GIS Record	(4)			9	0.8%
Total 9-1-1 MSAG Records No Match		783	83.5%	231	20.2%

Objective: NENA Recommended Match Rate = 98%

Notes:

- (1) An MSAG Record that will not have a corresponding GIS Street Centerline Record but is required for the routing of E9-1-1 calls (i.e., Emergency Call Box, Foreign Exchange Records, Wireless Shell Records, etc.). No further action is required.
- (2) An MSAG Record that requires minor MSAG attention in 9-1-1Net to correct MSAG Records (i.e., Reassignment of an MSAG Community, modification of the House Number Range, assignment of an ESN, performing a combine or insert of an existing MSAG Record, etc.).
- (3) A Major Correction is one in which the correction will/or has resulted in an ALI fall-out (Orphan ALI Record) and will require additional work effort to correct the problem.
- (4) An MSAG Record that does not have a corresponding GIS Record and will require additional research and validation. The GIS Section will assist with this effort.

Kauai County Wireless E9-1-1 Status Report January 1, 2011 – January 31, 2011

- **E9-1-1 Database Synchronization (continued)**
(Reference: NENA 71-501, Version 1.1 – NENA Information Document for Synchronizing Geographic Information System databases with MSAG & ALI)

Audit Summary Results – 2008 vs. 2011 (continued)

- ❖ The total number of 9-1-1 MSAG Records increased by 27.9% (from 938 to 1,200 records) covering the period from January 1, 2008 to January 1, 2011.
- ❖ 9-1-1Net MSAG Requests processed by Akimeka since January 1, 2008 are as follows:

KAUAI		9-1-1NET REQUESTS							Customer Address Change Requests Submitted
YEAR	TOTAL	Total	Change	Combined	Delete	Insert	Split	Customer Addresses Affected (*)	
2008	582	483	383		29	71			99
2009	953	876	610	25	94	130	17	5,226	77
2010	430	420	277	5	42	55	41	580	10
TOTAL	1,965	1,779	1,270	30	165	256	58	5,806	186
Notes:		Revised categories and report format changes effective April 2009.							

- ❖ Akimeka also cleaned up Kauai County's MSAG Communities. As of January 1, 2008, there were 262 MSAG Communities as compared to 42 MSAG Communities as of January 20, 2011 -- a decrease of 84.0% (220 less MSAG Communities).

By establishing defined MSAG Communities that are aligned with 9-1-1 call routing, the PSAP is able to quickly identify the location of the 9-1-1 caller thereby reducing the time involved with searching and processing a 9-1-1 call while simultaneously improving dispatch and response time.
- ❖ As a result of Akimeka's work effort on the 9-1-1 MSAG and MSAG Communities, Kauai County's the level of accuracy or 9-1-1 MSAG Match percentage improved from 16.5% as of January 1, 2008 to 79.8% as of January 1, 2011 -- which represents a 63.3 percentage point improvement and/or 488% improvement in address accuracy.
- ❖ Additional work is needed to investigate and correct the identified No Match opportunities and database synchronization efforts will continue.

<u>Note:</u>		Total Calls include Administrative calls that are not direct 911 calls.							

Notes:

- (1) Total call volumes include Administrative calls. (Administrative calls = Calls made between 911 positions but are not 911 calls.)
- (2) "Abandoned" calls represent the number of incoming 9-1-1 calls for which the caller had hung up before a call-taker answered.
- (3) "Abandoned" calls are included in the "Wireline" and "Wireless" counts respectively. The standard CML reports do not provide a break-out of "Abandoned" calls between "Wireline" and "Wireless" calls.

Wireless Test – January 2011

Date	WSP	Island	Sites Tested	Sectors Tested	Tested By:
01/18/11	Mobi PCS	Molokai	1	3	Molokai PSAP/ Akimeka
01/28/11	AT&T Mobility	Maui	7	21	Maui PSAP/ Akimeka

Maui County Wireless E9-1-1 Status Report January 1, 2011 – January 31, 2011

• PSAP Operations (continued)

Current Month PSAP Operations Activities – January 2011

01/06/11 Akimeka shared the published (via a news article) Molokai 9-1-1 call recording of the caller who lost control of his car with the Maui PSAP. The recording provided an example of the ability of one Molokai dispatcher to effectively assist the 9-1-1 caller and radio at the same time. The recording can also be used as a Dispatcher training tool.

01/07/11 -- Akimeka prepared a 2011 Holiday Testing Schedule, which is currently under Pending review. Once approval is received from the Maui County PSAPs, the schedule will be released to all Service Providers doing business in the State of Hawai'i.

01/12/11 -- Akimeka coordinated efforts to add and test seven (7) AT&T Mobility cell towers to the Maui Wireless E9-1-1 database. All of the cell towers needed to be added to the Positron mapping system. A coordinated date and drive plan was approved by the Maui PSAP.

Akimeka provided on-site testing support to test all of the cell towers and sectors. All cell towers and sectors were tested and approved on January 28, 2011.

Note: While conducting testing on Kauai, the AT&T Mobility cell towers failed testing due to incorrect display of the street name field as validated on the CRS and TVW. The trouble, as identified by Intrado, was a result of duplicate Emergency Service Routing Numbers (ESRN's). This is an internal number between Intrado and AT&T Mobility. The duplicate ESRN's would prevent the street address from displaying properly.

It was discovered that this was not a Kauai specific problem but rather a nationwide issue regarding shared ESRN's when unique identifiers (street address) are required. The solution is to separate the ESRN's when establishing GSM and UMT networks. This trouble/issue is being addressed by AT&T Mobility.

01/21/11 Akimeka personnel attended a meeting requested by Assistant Chief of Police Hudson. The purpose of the meeting was to meet Captain Klingman who is replacing Assistant Chief of Police Hudson due to a promotion. Akimeka also shared the contractual duties that Akimeka performs in support of Maui County PSAP's Wireless E9-1-1 mission.

01/28/11 Akimeka personnel met with Assistant Chief of Police Hudson to discuss roles and responsibilities relative to providing updated mapping layers for the Maui Police Department's Computer Aided Dispatch (CAD) system. It was agreed that the Maui Police Department (MPD) Information Technology (IT) personnel and Akimeka will work together to establish a process to properly update the CAD mapping system in a live environment that provides Continuous Continuity of Communications (CCC) with minimal disruptions to E9-1-1 operations.

Maui County Wireless E9-1-1 Status Report January 1, 2011 – January 31, 2011

- **PSAP Operations (continued)**

Open Issues (To be Monitored and Tracked by Akimeka)

No further updates as of January 31, 2011.

11/21/09 Akimeka will continue to monitor and track AT&T Mobility's open trouble ticket (11/21/09) for missing house number (HN), street and community information when transferring a WPH2 call or rebidding a WPH2 call. This issue was escalated to the State of Hawaii Wireless Enhanced 9-1-1 Board for action (August 2010). There have been no updates received to date. Unfortunately, the trouble is still occurring.

Akimeka will provide status updates via the Monthly Status Report (MSR) when there are significant changes or updates as provided by the State of Hawaii Wireless Enhanced 9-1-1 Board and/or AT&T Mobility.

01/14/10 Akimeka will continue to monitor and track the work with Telematics providers, OnStar, Hughes, and ATX. The Executive Director of the State of Hawaii Enhanced Wireless 9-1-1 Board volunteered to coordinate and chair implementation calls (August 2010). There have been no updates or further testing scheduled by the Telematics providers.

Akimeka will provide status updates via the Monthly Status Report (MSR) when there are significant changes or updates as provided by the State of Hawaii Wireless Enhanced 9-1-1 Board and/or Telematics providers.

04/16/10 Akimeka personnel worked on a flowchart for the Neighbor Island PSAPs to document the flow of a Call Routing Spreadsheet (CRS) and Testing Validation Worksheet (TVW). It was discovered that different processes exist among the carriers.

Akimeka created and submitted for review a DRAFT Call Routing Spreadsheet (CRS) and Testing Validation Worksheet (TVW) process flowchart to the Neighbor Island PSAPs on December 20, 2010.

(*) Applies to Change, Delete and Insert categories

Note: Revised categories and report format changes effective April 2009.

Definitions:	(a)	Represents customer address change requests submitted to Intrado to correct customer ANI/ALI records, including those identified by Akimeka.
	(b)	Represents what is in suspension status at the end of the report month -- awaiting further action by County, Telco, or Akimeka.

Maui County Wireless E9-1-1 Status Report January 1, 2011 – January 31, 2011

- Mapping Layers Updated/Loaded Into GIS – January 2011

9-1-1 GIS layers provided by Akimeka to the PSAP are designed for use on E9-1-1 systems.

MAUI COUNTY					
Type of Layer	Island	Akimeka GIS Server		Date Loaded Into PSAP GIS Server	Other/Remarks
		Date Created/ Edits Performed	Date Uploaded to Server		
WSP Cell Towers	Molokai	01/28/11			Per Mobi PCS CRS
	Maui			01/27/11	
	Maui	01/21/11			Per AT&T Mobility CRS
Street Centerlines	Maui			01/27/11	
	Maui	01/25/11			Extended range for Aleo Place in Kahului
	Maui	01/24/11			Extended range for Kalaihi Place in Kaanapali
	Molokai	01/21/11			Edited two street ranges and one street name
	Maui				Extended range for Amakihi Way
	Maui	01/10/11			Corrected range for a street centerline in Lahaina
Address Points	Maui			01/27/11	
	Maui	01/14/11			Corrected eleven (11) address point attributes to meet Intergraph CAD standards
	Maui/Molokai	01/12/11			Populated the MSAG Community field for all address points
	Maui/Molokai	01/12/11			Modified Common Place Names and added address points according to modifications made in the Intergraph CADDDBM by the PSAP
		01/10/11			
	Maui	01/06/11			Spatially corrected 200 Address Points using Pictometry imagery
Maui	01/04/11			Spatially corrected 300 Address Points using Pictometry imagery	
MSAG Address Points (aka Pseudo Address Points)					
MSAG Communities					
Parcels	Maui			01/27/11	
Airports					
Bridges					
Cane Fields					
Coastal Names					
Common Places					
Emergency Callboxes					
EMS Zones					
ESZ/ESN					

() Every time the GIS Update tool is used, Indexes and Cache have to be built. The Positron system configurator is adjusted every time a layer is loaded in the PowerMap database. Each PSAP position is updated accordingly.*

Maui County Wireless E9-1-1 Status Report January 1, 2011 – January 31, 2011

- **Mapping Layers Updated/Loaded Into GIS – January 2011 (continued)**

9-1-1 GIS layers provided by Akimeka to the PSAP are designed for use on E9-1-1 systems.

MAUI COUNTY					
Type of Layer	Island	Akimeka GIS Server		Date Loaded Into PSAP GIS Server	Other/Remarks
		Date Created/ Edits Performed	Date Uploaded to Server		
Fire Beat Boundaries					
Fire ESZ					
Fire Stations					
Fire Sub Zones					
Fire Zones					
Food & Beverage					Renamed Restaurant layer to Food & Beverage layer to include bakeries, cafes, food factories, etc.
Gate Codes

Medic Stations					
Medical Facilities					
Milepost Markers					
National and State Parks					
Ocean Rescue Boundaries					
Park Polygon					
Points of Interest					
Police Beat Boundaries					
Police Dispatch Group (District)					
Police ESZ	Maui	01/11/11 -- 01/25/11			Edited Police ESZ to match the spatially correct parcels. This is an ongoing project.
Police Reporting Areas					
Police Stations					

(*) Every time the GIS Update tool is used, Indexes and Cache have to be built. The Positron system configurator is adjusted every time a layer is loaded in the PowerMap database. Each PSAP position is updated accordingly.

Maui County Wireless E9-1-1 Status Report January 1, 2011 – January 31, 2011

- **Mapping Layers Updated/Loaded Into GIS – January 2011 (continued)**

9-1-1 GIS layers provided by Akimeka to the PSAP are designed for use on E9-1-1 systems.

MAUI COUNTY					
Type of Layer	Island	Akimeka GIS Server		Date Loaded Into PSAP GIS Server	Other/Remarks
		Date Created/ Edits Performed	Date Uploaded to Server		
Ponds					
Post Offices	Maui/Molokai	01/03/11		01/27/11	Updated the existing Post Offices layer with data from the Points of Interest layer
Radio Towers					
Radius - Two Mile					
Radius - Three Mile					
Schools					
Subdivisions					
Tow Truck					
Towns					
Trails					
Tsunami Evacuation Zones					

() Every time the GIS Update tool is used, Indexes and Cache have to be built. The Positron system configurator is adjusted every time a layer is loaded in the PowerMap database. Each PSAP position is updated accordingly.*

Note: The Parcels layer is provided by Maui County. Akimeka performs edits on the spatial information of the layer for 9-1-1 purposes. Changes to the attribute table are made when needed. The Parcels layer uploaded to the PSAP GIS server is intended for 9-1-1 purposes only and should not be disseminated to other county agencies.
