

## PCS Transition Q & A

Question	Answer
Do we use this the component interface to pay workers comp payments? We have been using rapid time to pay workers comp payments are we going to be able to continue to use rapid time?	No, you will continue to use Rapid time for all current pay and anything from go-live date, this will only be used for anything to be paid before go-live and Term payouts.
Will this new revised PCS replacement do an automatic no voluntary deduction for COB employee vacation and comp time payout?	Yes, we have it set up that the system will function as followed: When earn codes V and CTP are used for Vacation Payouts it will do a separate Check of 52 and Subset set to VAC.
I don't see a box to click to turn off voluntary deductions for vacation payouts and comp time payouts.	You won't see a box like you use to in PCS, we have the system set up to function as follows: When earn codes V and CTP are used for Vacation Payouts, it will do a separate Check of 52 and Subset set to VAC.
Will this new deadline be added to the current calendar of deadlines?	It will be the same deadline as current PCS deadline on the Calendar.
Since we can use this new process to transact vacation payouts, the system allows for staff to bring up/verify employees that have already terminated with the state?	You will be able to pay out term employees' vacation & comp payouts now using this new process instead of creating a salesforce ticket for Central Payroll to process.
Where can I get the Template file for uploading?	Please see the handout from the meeting last slide Helpful links and resources and it can be found here: <a href="https://ags.hawaii.gov/hip/files/2021/10/example-csv-file.xlsx">https://ags.hawaii.gov/hip/files/2021/10/example-csv-file.xlsx</a>
If I need to input 10 paylines, can I input 1 payline in .CSV file first, after upload the file add another 9 lines on the validate page. Since the validating page seems easier to work with than that of .CSV file. I am hoping the answer is YES.	Keep in mind that it's based on Dept. ID, so you can create as many lines as you want in the CSV to upload and then you are also able to add and subtract lines in the validation screen after uploading.
Is the deadline same as Timesheet submission deadline or Supervisor approval deadline?	The deadline will be the same as the current PCS deadline on the Calendars.
