

WKEND – Weekend Differential Time Reporting Code (TRC)

- Effective July 1, 2024, a new Weekend Differential Time Reporter Code (TRC) labeled **WKEND** is available to record weekend differential time worked. Please refer to the Bargaining Unit 9 – Registered professional nurses information under article 60 referenced here: [unit-9-contract-2021-2025.pdf \(hawaii.gov\)](https://www.hawaii.gov/dhrd/files/2021/07/unit-9-contract-2021-2025.pdf).

The screenshot above may be referenced at <https://dhrd.hawaii.gov/state-hr-professionals/lro/public-emp-excl-reps/>

- **IMPORTANT:** HIP will not determine or calculate eligibility or entitlement for Weekend Differential. Any WKEND time worked needs to be input to the HIP timesheet by employees (or employee may seek assistance from supervisor or Time Keeper). Employees, Supervisors and Time Keepers may consult department HR/Payroll if any questions should arise regarding determining WKEND differential eligibility or entitlement.

- NOTE 1:** Input TRC WKEND on **Saturday** or **Sunday ONLY** (do not input TRC WKEND on weekdays). HIP is configured to allow TRC WKEND to be input on Saturday or Sunday only. Should there be other eligible time worked during shifts that overlap with the weekend (such as overtime or other time on Friday or Monday), these may be input separately on the actual dates worked, however **TRC WKEND must be entered only on Saturday or Sunday.** Timely and accurate input of Weekend Differential time is needed in order for timely payment to be processed.
- Example 1:** Employee works scheduled shift hours for a total of 12 hours from 7:00 PM Sunday to 7:00 AM Monday.
 - The employee is entitled to 5 hours of weekend differential therefore, 5 hours WKEND is input on the timesheet for Sunday

WKEND - Weekend 5.00 + -

- **NOTE 2:** Input of weekend differential time on days other than Saturday or Sunday will generate an exception.
- **Example 2:** Employee works scheduled shift hours for a total of 12 hours from 7:00 PM Friday to 7:00 AM Saturday.
 - The employee is entitled to 12 hours of weekend differential because one-half or more of the scheduled 12 hours worked fell between 12:00 AM Saturday and 11:59:59 PM Sunday. Therefore, 12 hours of TRC WKEND is input on the timesheet for Saturday.

WKEND - Weekend 12.00 + -

- Example 3:** Employee works scheduled shift hours for a total of 8 hours from 7:00 PM Sunday to 3:00 AM Monday but is asked to work an additional 4 hours of post-shift overtime (O.T.) from 3:00 AM Monday to 7:00AM.
 - The employee is entitled to 8 hours of weekend differential because one-half or more of the scheduled 8 hours worked fell between 12:00 AM Saturday and 11:59:59 PM Sunday. Therefore, 8 hours of TRC WKEND is input on the timesheet for Sunday and 4 hours of O.T. is input on Monday. As the O.T. isn't preapproved an exception is expected to be generated. The exception for O.T. is reviewed by the supervisor as normal to determine whether to allow the exception or work with the employee to edit the time and resubmit.

Action Required: Overtime request is not pre-approved in the system. High 07/22/2024

Explanation

Exception Information

Exception ID MTLX0001

Description Overtime is not pre-approved

Overtime request is not pre-approved in the system. All overtime must be pre-approved in the system.

Action Required: This needs to be either allowed or edited if not correct. Check your department policies for pre-approve

- Any WKEND input and submitted on Monday will generate an exception MTLX0025.

The screenshot shows the 'Enter Time' interface for a BU9 Nurse. A modal message states: "2 unresolved High Severity exception(s) in the time period. Please review. High Severity Exceptions exist in the time period. Please work with your department timekeeper or Supervisor to resolve the exception(s) and process the timesheet entries." Below the message is a table for 'Time Reporting Code / Time Details' with columns for days 16 Tue through 22 Mon. The 'WKEND - Weekend Diffe' row shows a value of 3.00 for Monday, which is crossed out with a red X. Other rows include 'OT - Overtime Pay' with a value of 4.00.

- To resolve the exception MTLX0025 TRC WKEND must be input on Sunday or Saturday and the timesheet needs to be resubmitted again.

This screenshot shows the same 'Enter Time' interface, but the error message is gone. The 'WKEND - Weekend Diffe' row now shows a value of 8.00 for Sunday (21 Sun), which is highlighted with a green box. The 'OT - Overtime Pay' row still shows 4.00. The interface also displays 'Week 1 of 3' and 'Scheduled 40.00 | Reported 12.00 Hours'.
