Report to the Twenty-Sixth State Legislature  
2011 Regular Session

Relating to Office of Election Budget Provisions

As Required by  
Act 162, Session Laws of Hawaii 2009

July 12, 2011

Section 55 of Act 162, Session Laws of Hawaii (SLH) 2009, provides that the Office of Elections will submit quarterly reports concerning (1) vacancies; (2) travel and overtime expenditures; (3) milestones, accomplishments and activities of the Chief Election Officer; and (4) an updated planning timeline for the 2010 elections. The following is the Office of Elections report for the fourth quarter of Fiscal Year 2011, covering the time period of April 1, 2011 through June 30, 2011.

(1) *An updated list of vacant positions, noting current recruitment status.*

The following positions were vacant at the end of the quarter.

106236E	Hotline Operator (Seasonal)
101887E	Hotline Operator (Seasonal)
32781	Office Assistant III

A hiring freeze prevents further vacancies being filled. However, the majority of these positions are seasonal positions which are filled during election year. As we approach the upcoming 2012 election cycle, it is our hope that we will be able to obtain authority to fill our remaining vacant positions.

It should be noted that separate and apart from the Office of Elections positions, the Reapportionment Commission was authorized a total of four temporary positions in the form of a Project Manager, Administrative Assistant, GIS Analyst, and Secretary. All of the positions except the Secretary position have been filled as the original person selected for the position had to ultimately decline the position.

*(2) A detail of travel and overtime expenditures of the quarter, including justification or reason for expenditure.*

There were no travel or overtime expenditures for Office of Elections' staff during the fourth quarter. However, there were travel expenditures and compensation associated with various meetings of the Election Commission and Reapportionment Commission in the amount of \$1,543.48 and \$9,418.90, respectively. Attached hereto is Exhibit A and is a true and correct copy of a Microsoft Excel spreadsheet reflecting in detail each expenditure.

*(3) A detailed listing of milestones, accomplishments, and activities of the chief election officer and each section occurring during the quarter.*

*Chief Election Officer.* As provided for in the Hawaii State Constitution, reapportionment of the state occurs every ten years after the preceding year's national census. Article IV, Section 1. The Chief Election Officer serves as the secretary to the Reapportionment Commission and provides all necessary technical assistance. Article IV, Section 2. As such, the Office of Elections has been spending a considerable amount of time focused on preparations for work to be conducted by the Reapportionment Commission. This includes executing a contract for geographic information system services to support the drawing of the lines for the reapportionment plan, setting up a reapportionment project office, and holding various meetings of the Reapportionment Commission. Finally, the Chief Election Officer has been working with the various section heads and counties on preparations for the 2012 elections.

*Ballot Operations Section.* This section continued to work on improving the ballot layout and design. In addition, the section has been working with the

vendor to update ballot printing specifications and to improve ballot processes which include ballot order, ballot printing and packing requirements. Finally, forms used in the candidate filing process, procedure manuals, and nomination papers are being updated.

*Computer Services Section.* This section continued its support of all the information and technology needs of the Office of Elections. In addition, this section acted as the contact point for all matters related to the Reapportionment Commission given the section head's prior experience being the Reapportionment Project Manager in 2001.

*Counting Center Operations Section.* The section head position continues to be vacant. However, the Chief Election Officer, who has experience in this area, has continued to update training materials and take other steps to ensure that the future holder of this position will be able to quickly get up to speed on the requirements of the positions.

*Election Support Services Section.* This section continued to receive, process, and report all financial transactions and activities of the Office of Elections to the Department of Accounting and General Services to which the elections office is attached for accounting purposes. The section is continuing to reserve polling places for the 2012 elections through contact with the Department of Education, other government agencies, and private facilities.

*Precinct Operations Section.* This section has been updating polling place materials and training manuals. In addition, this section has been providing administrative support to the Reapportionment Commission.

*Voter Services Section.* This section has been focused on the review and development of voter education materials. It is handling the testing of a new ballot design with various community groups. Due to recent changes in the law regarding the contents of the voter registration form, this section is coordinating with the counties on the development of a new voter registration form.

*(4) Updated planning timeline for the 2010 elections, including justification of any changes from the previously reported timeline.*

The previously submitted timeline for the 2010 elections was not changed and the 2010 elections were successfully completed. As such, there is nothing further to report on this matter.
