9/1/2017 - 9/30/2017	The Hawai'i County Primary and Secondary PSAPs continue with GIS updates and spatial realignments to their GIS data to conform to the new NG911 requirements for 9-1-1 location databases. This service includes performing the updates to the MSAG and ALI records for the Telephone Companies to ensure database synchronization. The Update Process also includes receiving updated Address Points and Street Centerlines from the Hawai'i County Planning Department. Akimeka compares and incorporates any of the County's additions, changes, and deletions into the Akimeka Address Points and Street Centerlines layers that appear necessary for the dispatch and response of 911 personnel. This is an on-going project.
9/1/2017 - 9/30/2017	The Hawai'i County Primary and Secondary PSAP continued with the situational awareness project to provide the Hawai'i County public safety responders with a visual display of the Kilauea's East Rift, June 27, 2016 Lava Flow. This will be an on-going project as the situation requires. This activity will continued to be monitored. There were lava flow activity in July 2016 that does not impact Public Safety.
9/1/2017 - 9/30/2017	The Hawaii County PSAPs initiated a soft launch of their Text to 9-1-1 system on February 1, 2016. During this soft launch period, internal testing and training should continue to be conducted. Although there is a "Text to 911" plot on the MapFlex, the location of the plot is not reliable. Text to 911 Dispatchers should use their skills to determine the exact location of the emergency response. There were a total of (14) 911 Text messages received at the Primary and Secondary PSAPs in September 2017.
