

STATE OF HAWAII

WIRELESS ENHANCED 911 BOARD

August 12, 2010
10:00 a.m.

Department of Accounting and General Services
Room 426
Kalanimoku Building
1151 Punchbowl Street
Honolulu, Hawaii 96813

AGENDA

- I. Call to order – Chair Russ Saito
- II. Introductions
- III. Review and Approval of Minutes from July 8, 2010 Board Meeting – Chair Russ Saito
- IV. Committee Updates by Chairs.
 - a. Finance Committee – Russell Lundberg
 - b. Technical Committee – Victor Ramos
 - c. Policies and Objectives Committee – Cedric Apaka
 - d. Administration Committee – Paul Ferreira
 - e. Public Relations Committee – Glenn Roach
- V. PSAP Status Updates
 - a. Kauai –
 - b. Oahu – Gordon Bruce
 - c. Molokai – Victor Ramos
 - d. Maui – Clayton Tom
 - e. Hawaii – Paul Ferreira
- VI. Items for Discussion, Consideration and Action
 - a. Monthly Financial Report – Courtney Tagupa
 - b. Hawaiian Telcom explanation of charges related to Honolulu Police Department request for 3 additional CML positions to be installed at the primary PSAP in the amount of \$147.40 NRC and \$15,268.50 MRC – Glenn Roach/Kevin Kuwahara (Hawaiian Telcom)

- c. Adjustments to the FY 2011 Budget and Spending Plan – Glenn Roach
 - 1. Request to Exacom Recorder Maintenance for Honolulu in the amount of \$40,000 from Priority 1 to Priority 3
 - 2. Request from the Federal Consolidated Dispatch Center for reimbursement of costs of Hawaiian Telcom charges in the amount of \$29,425.44 related to the circuits in support of daily updates to the GeoComm Mapping System
- d. Consolidation of Administration, Policy and Objectives, and Public Relations Committees within a new Communications Committee
- e. SCR 180, the Wireless E 911 Report.

VII. Announcements.

VIII. Next meeting date – Thursday, September 9, 2010

IX. Adjournment.

HAWAII WIRELESS ENHANCED 911 BOARD
STATEMENT OF CASH FLOWS
For month ending 31 July 2010

AVG PER MO	2,930	1,081		1,846		2		556	
Note:		Total Calls include Administrative calls that are not direct 911 calls.							

Notes:

- (1) "Abandoned" calls represent the number of incoming 9-1-1 calls for which the caller had hung up before a call-taker answered.
- (2) "Abandoned" calls are included in the "Wireline" and "Wireless" counts respectively. The standard CML reports do not provide a break-out of "Abandoned" calls between "Wireline" and "Wireless" calls.
- (3) Total call volumes include Administrative calls. (Administrative calls = Calls made between 911 positions but are not 911 calls.)

07/21/10	T-Mobile Network Connectivity	Connectivity Testing – 1 Test Call		Kauai PSAP

Kauai County Wireless E9-1-1 Status Report July 1, 2010 – July 31, 2010

• PSAP Operations (continued)

07/01/10 -- Ongoing Akimeka personnel continues to monitor an open AT&T Mobility trouble ticket (11/21/09) for missing house number (HN), street and community information when transferring a WPH2 call or rebidding a WPH2 call. Trouble was isolated to signalling problems.

Akimeka personnel provided samples of 9-1-1 calls from the mainland that provided tower addressing to Goldie Cross of AT&T Mobility.

07/01/10 -- Ongoing Akimeka personnel and Intrado continue to work on OnStar, Hughes, and ATX call display issues. Anthony Smith of Intrado has set up a "webinar/conference call" on August 10, 2010 at 9:00 a.m. HST to discuss telematics implementation in Hawaii. Mr. Smith also responded to questions posed by the Neighbor Island PSAPs and they are under review.

07/01/10 -- Ongoing Akimeka personnel, with the assistance of Intrado, continues to work on a flowchart for the Neighbor Island PSAPs which documents the flow of a Call Routing Spreadsheet (CRSS) and Testing Validation Worksheet (TVW). The flowchart will merely be documentation of the process as known and will help all parties involved to better understand the timeframes needed to plan a test.

Final information and recommendations were received from Corinne Faulmann of Intrado and Akimeka personnel are working to incorporate them into the final documents which will be sent to the Neighbor Island PSAPs for review and comments.

07/01/10 -- Ongoing Akimeka personnel notified Sprint/Nextel and Intrado that an annual audit will be conducted. Jennie Stein of Sprint requested a delay to the end of August 2010 to provide the information due to a major software upgrade on their system.

07/01/10 -- Ongoing Akimeka personnel participated in the joint NENA/APCO Urgency Algorithm/3rd Party EMD working group and Telematics committee conference calls. Responses from the Neighbor Island PSAPs involving EMD dispatches called in by the Telematics operators were consolidated and presented on the conference call which will be used in dispatcher training.

07/01/10 -- 07/12-10 Akimeka personnel and Intrado completed T-Mobile's Annual Audit for the County of Kaua'i. 17 towers/43 sectors were reviewed with no discrepancies.

Annual audits are completed on each Wireless Service Provider (WSP) in order to match the information between the WSP's tower databases and the mapping layers which allows for accurate plotting of a Wireless 9-1-1 call. Inaccuracy by as little as a letter or digit could hamper the response of first responders.

07/02/10 Akimeka personnel assisted the Kaua'i Planning Division with addressing non-standard residential areas with a unique numbering system that will allow for faster response for emergency first responders.

07/06/10 Akimeka personnel provided recommendations to the Kaua'i IT Department for hardware requirements for a "Drop and Run" evacuation site. Akimeka will provide the software application for Dispatch Operations.

Kauai County Wireless E9-1-1 Status Report July 1, 2010 – July 31, 2010

• PSAP Operations (continued)

- 07/13/10 Akimeka personnel met with Hawaiian Telcom, Inc. (HTI) representatives to discuss the MSAG process and ways to resolve/correct errors and issues.
- 07/15/10 -- Ongoing Akimeka personnel assisted Kaua'i Dispatch Supervisor, Kathleen Langtad, in testing and documenting new emergency callboxes at Kauai Community College. There will be six (6) callboxes on campus that will have the capability to reach 9-1-1 when activated. A request for pictures and a location map were made so the dispatchers can be trained accordingly. The locations will be added to a map layer for faster identification and response.
- 07/28/10 -- 07/29/10 Akimeka personnel worked with Time Warner regarding Time Warner's service interruption on July 28, 2010. The service interruption was caused by a fiber optic undersea cable cut off of Maui. Kaua'i County was not affected by the fiber optic cable cut.

Akimeka personnel provided updates to the Neighbor Island PSAPs as information became available.
- 07/29/10 Akimeka personnel reviewed Intrado's request to deploy a new functionality called "Temporary Address Posting (TAP)". This feature is specific to converged services and is at the service provider's request. This will allow for a civic address that has failed MSAG validation to be temporarily delivered to the PSAP while the error is being resolved. Notification to the PSAPs is pending and should be resolved in the August timeframe.

• MSAG

Current Month – July 2010

2010		9-1-1NET REQUESTS							(a)	(b)		
		Total	Change	Combined	Delete	Insert	Split	Customer Addresses Affected	Customer Address Change Requests Submitted	# of Transactions	TNs Affected	
PSAP	TOTAL	95	75	0	3	1	16	13	1	0	0	
KAUAI		96	95	75	0	3	1	16	13	1	0	0

Revised categories and report format changes effective April 2009.

A total of 96 transactions were made on the MSAG database. See attached spreadsheet for a detailed description of changes and additions.

During the month of July 2010, 13 customer ANI/ALI records were updated as a direct result of the 95 total changes made to the MSAG database.

Additionally, a partial comparison was performed between the street centerline and the MSAG database to identify any street ranges (low side) in the MSAG database that are not synchronized with the street centerline database. Issues identified were researched and necessary action was taken, with work continuing. This comparison will be periodically performed to ensure continuous street range synchronization between the street centerline and MSAG databases.

There are no records in Suspended status as of July 31, 2010 – six consecutive months.

Kauai County Wireless E9-1-1 Status Report July 1, 2010 – July 31, 2010

- **Mapping Layers Updated/Loaded Into GIS – July 2010**
(continued)

Current Month GIS Activities – July 2010

- 07/10 Akimeka upgraded PowerMap from version 3.2 to 4.0. During the update, Akimeka discovered that the mapping configurations on each system were not in sync. Therefore, a synchronization of all mapping systems were performed and all systems were updated with the most up-to-date data. Akimeka has confirmed that the system is working properly and will continue to update the system accordingly.
- 07/02/10 Kauai County Police Department requested an address be assigned to a property on Hookui Road. This is a popular swim spot. Unfortunately, this property cannot be addressed at this time. As such, Akimeka recommended adding an address point with a "Common Place Name" for the area. This way, it can be added as a Points of Interest (POI) on the "Points of Interest" layer and Address Point layer in order to be searchable.
- 07/08/10 Akimeka GIS personnel attended on-line basic Pictometry training for EFS software. All PSAPs will benefit from this training as their Pictometry imagery becomes available.
- 07/08/10 Akimeka GIS and IT personnel attended in-house training for troubleshooting PowerMap. Akimeka GIS personnel plan to put together a PowerMap troubleshooting guide which will benefit all PSAPs.
- 07/12/10 -- Alexa Jacroux Biggs attended ESRI International User Group Conference and
07/16/10 networked with ESRI personnel and others for future support issues. She attended meetings with ESRI technical support to discuss parcel spatial improvement issues and GPS'ed street centerline and attributes issues. She also discussed methods for merging "good attribute" data to "spatially good" geometry.
- Alexa Jacroux Biggs also attended Public Safety workshops to gather ideas for Next Generation 9-1-1 implementation and lessons learned in developing Map Books.
- 07/23/10 Akimeka GIS personnel sent an email to the Kauai County PSAP asking whether Skilled Nursing and Assisted Living facilities would be useful layers to add into PowerMap. The information was deemed useful and will be added once a contract is in place with Akimeka.
- 07/27/10 The Akimeka Kihei office was affected by the Time Warner undersea fiber optic cable outage on July 27, 2010. The Neighbor Island PSAPs were notified around 7:30 a.m. and Akimeka personnel on Maui were available via cell phones during the Internet/telephone/email outage. Everything was restored to normal capacity by the following business day.

Note:		Total Calls include Administrative calls that are not direct 911 calls.									

Notes:

- (1) "Abandoned" calls represent the number of incoming 9-1-1 calls for which the caller had hung up before a call-taker answered.
- (2) "Abandoned" calls are included in the "Wireline" and "Wireless" counts respectively. The standard CML reports do not provide a break-out of "Abandoned" calls between "Wireline" and "Wireless" calls.
- (3) Total call volumes include Administrative calls. (Administrative calls = Calls made between 911 positions but are not 911 calls.)

Hawaii County Wireless E9-1-1 Status Report July 1, 2010 – July 31, 2010

- **PSAP Operations (continued)**

Wireless Test – July 2010

Date	WSP	Sites Tested	Sectors Tested	Tested By:
07/07/10	AT&T Mobility	1	2	Hawaii PSAP/ Akimeka
07/23/10	T-Mobile Network Connectivity	Connectivity Testing – 1 Test Call		Hawaii PSAP
07/29/10	AT&T Mobility	1	3	Hawaii PSAP/ Akimeka

07/01/10 -- Ongoing Akimeka personnel continues to monitor an open AT&T Mobility trouble ticket (11/21/09) for missing house number (HN), street and community information when transferring a WPH2 call or rebidding a WPH2 call. Trouble was isolated to signaling problems.

Akimeka personnel provided samples of 9-1-1 calls from the mainland that provided tower addressing to Goldie Cross of AT&T Mobility.

07/01/10 -- Ongoing Akimeka personnel and Intrado continue to work on OnStar, Hughes, and ATX call display issues. Anthony Smith of Intrado has set up a "webinar/conference call" on August 10, 2010 at 9:00 a.m. HST to discuss telematics implementation in Hawaii. Mr. Smith also responded to questions posed by the Neighbor Island PSAPs and they are under review.

07/01/10 -- Ongoing Akimeka personnel, with the assistance of Intrado, continues to work on a flowchart for the Neighbor Island PSAPs which documents the flow of a Call Routing Spreadsheet (CRSS) and Testing Validation Worksheet (TVW). The flowchart will merely be documentation of the process as known and will help all parties involved to better understand the timeframes needed to plan a test.

Final information and recommendations were received from Corinne Faulmann of Intrado and Akimeka personnel are working to incorporate them into the final documents which will be sent to the Neighbor Island PSAPs for review and comments.

07/01/10 -- Ongoing Akimeka personnel notified Sprint/Nextel and Intrado that an annual audit will be conducted. Jennie Stein of Sprint requested a delay to the end of August 2010 to provide the information due to a major software upgrade on their system.

07/01/10 -- Ongoing Akimeka personnel participated in the joint NENA/APCO Urgency Algorithm/3rd Party EMD working group and Telematics committee conference calls. Responses from the Neighbor Island PSAPs involving EMD dispatches called in by the Telematics operators were consolidated and presented on the conference call which will be used in dispatcher training.

Hawaii County Wireless E9-1-1 Status Report July 1, 2010 – July 31, 2010

- **PSAP Operations (continued)**

- 07/01/10 -- Akimeka personnel and Intrado completed T-Mobile's Annual Audit for the
07/12-10 County of Hawai'i. 46 towers/138 sectors were reviewed with ten (10) discrepancies involving street name and community discrepancies.
- Annual audits are completed on each Wireless Service Provider (WSP) in order to match the information between the WSP's tower databases and the mapping layers which allows for accurate plotting of a Wireless 9-1-1 call. Inaccuracy by as little as a letter or digit could hamper the response of first responders.
- 07/07/10 Akimeka personnel assisted Sergeant Kelley Matsumoto with finalizing Lesson Plans for dispatcher training on Pictometry and Positron Mapping.
- 07/13/10 Akimeka personnel met with Hawaiian Telcom, Inc. (HTI) representatives to discuss the MSAG process and ways to resolve/correct errors and issues.
- 07/27/10 -- Akimeka personnel worked with Time Warner regarding the service interruption
07/28/10 that affected both Time Warner and Wavecom Solutions (formally Pacific LightNet) customers on the island of Hawai'i on July 27, 2010. The service interruption began at approximately 1:10 a.m. and was caused by an undersea fiber optic cable cut off of Maui. Time Warner and Wavecom Solutions customers were unable to dial out and call 9-1-1. All of the wireless carriers, except for Sprint, were affected by "tower" outages or network degradation which affected calling out and calling 9-1-1 sporadic based on the caller's location or when Wireless Phase I (AT&T Mobility) was available. The Hawai'i County PSAPs remained operational since they are served by Hawaiian Telcom, Inc. (HTI).
- Time Warner's service was restored by 3:30 p.m. on July 27, 2010, except for one Mobi PCS tower which was restored on July 28, 2010 by 9:00 a.m. Wavecom Solutions' service was restored by 4:15 p.m. on July 27, 2010.
- Akimeka personnel provided updates to the Neighbor Island PSAPs as information became available.
- 07/27/10 -- The Akimeka Kihei office was affected by the Time Warner undersea fiber optic
07/28/10 cable outage on July 27, 2010. The Neighbor Island PSAPs were notified around 7:30 a.m. and Akimeka personnel on Maui were available via cell phones during the Internet/telephone/email outage. Everything was restored to normal capacity by the following business day.
- 07/29/10 Akimeka personnel reviewed Intrado's request to deploy a new functionality called "Temporary Address Posting (TAP)". This feature is specific to converged services and is at the service provider's request. This will allow for a civic address that has failed MSAG validation to be temporarily delivered to the PSAP while the error is being resolved. Notification to the PSAPs is pending and should be resolved in the August timeframe.
- 07/29/10 Akimeka personnel provided on-site dispatcher training for three (3) new dispatchers. Plant/CML training and Positron Mapping training were provided.

Hawaii County Wireless E9-1-1 Status Report July 1, 2010 – July 31, 2010

- MSAG**

Current Month – July 2010

2010		9-1-1NET REQUESTS							(a)	(b)	
		Total	Change	Combined	Delete	Insert	Split	Customer Addresses Affected	Customer Address Change Requests Submitted	In Suspended Status as of Report Month End	
PSAP	TOTAL								# of Transactions	TNs Affected	
HAWAII	392	237	25	162	2	46	2	8	155	0	0
Revised categories and report format changes effective April 2009.											

During the month of July 2010, a total of 237 transactions were made in 911Net, with eight (8) customer ANI/ALI records updated as a direct result. See attached spreadsheet for a detailed description of changes and additions.

Requests were made to update a total of 155 customer ANI/ALI records. Eleven (11) ALI Discrepancy reports were researched, submitted to 911Net for updates and corrections as needed, and monitored for completion.

Efforts continued to focus on correcting 1 – 999999 house number ranges in the community of Hilo.

A Service Request from Hawai'i County Police in the month of June 2010, prompted the identification and research of an unofficial street range in the MSAG. In an attempt to provide valid and updated house numbers to the condominiums, approximately 180 records required research.

Also, a full audit was performed for all County of Hawai'i address change notifications on file for 2010 and 2009, with 2008 planned for the month of August 2010. As a side note, a Hilo resident, who was concerned that his recently updated address would not encounter any issues should an emergency arise, was forwarded to Hawai'i County Police, Lieutenant Wana, from the County of Hawai'i Planning Department. Akimeka assisted with the research and resolution. Lieutenant Wana advised the resident who "was pleased with the response". Lieutenant Wana thanked Akimeka for the "expedient and efficient assistance".

There are no records in Suspended status as of July 31, 2010 – ten consecutive months since October 2009.

Note:	Street Centerline, Address Points, and Parcels layers are provided by Hawaii County.
	Akimeka has been instructed to not perform any edits on the Parcels layers as provided. Akimeka uploads the layer into the Akimeka GIS Server and PSAP GIS Server accordingly.
	For the Street Centerline and Address Points layers, effective November 25, 2009, Akimeka will compare and incorporate the County's changes into Akimeka's Street Centerline and Address Points layer.

Current Month GIS Activities – July 2010

- 07/01/10 -- Ongoing Hawaii County is doing a great job of keeping Akimeka updated with any changes to address points and street centerlines. Due to the Intergraph software standards, Akimeka now performs topology checks for routing purposes. One item the topology checks is if street centerlines are being segmented at the actual intersection and not resulting in multiple points for a single intersection. It also checks for overshoots and undershoots. Akimeka will continue to work with the County to run these checks and inform them of any necessary changes.

- 07/01/10 -- Ongoing Akimeka GIS personnel have been editing the address points to update the 700+ address points that do not have an official county street name. Akimeka is adding notes, for in-house tracking purposes only, to flag these as received to minimize unnecessary re-work and the need to update them every month.

- 07/01/10 Akimeka GIS personnel attended training for Intergraph GeoMedia and I/MapEditor at the Maui Police Department. The Hawaii County PSAP will also benefit from this.

Hawaii County Wireless E9-1-1 Status Report July 1, 2010 – July 31, 2010

- **Mapping Layers Updated/Loaded Into GIS – July 2010**
(continued)

Current Month GIS Activities – July 2010 (continued)

- 07/06/10 Intergraph software was transported from Oahu to Akimeka's Kihei office for installation.
- 07/06/10 Akimeka GIS personnel discussed GPS'ing major roads with sub-consultants.
- 07/08/10 Akimeka GIS personnel attended on-line basic Pictometry training for EFS software. All PSAPs will benefit from this training as their Pictometry imagery becomes available.
- 07/08/10 Akimeka GIS and IT personnel attended in-house training for troubleshooting PowerMap. Akimeka GIS personnel plan to put together a PowerMap troubleshooting guide which will benefit all PSAPs.
- 07/09/10 Akimeka GIS personnel participated on a conference call with Hawai'i County, Pictometry, and Positron regarding the best method to integrate Pictometry imagery into PowerMap.
- 07/09/10 Akimeka GIS personnel created Kona Police District maps. The draft maps were printed and mailed on or about July 14, 2010. Akimeka is waiting for edits to be returned before finalizing the maps.
- 07/12/10 --
07/16/10 Alexa Jacroux Biggs attended ESRI International User Group Conference and networked with ESRI personnel and others for future support issues. She attended meetings with ESRI technical support to discuss parcel spatial improvement issues and GPS'ed street centerline and attributes issues. She also discussed methods for merging "good attribute" data to "spatially good" geometry.

Alexa Jacroux Biggs also attended Public Safety workshops to gather ideas for Next Generation 9-1-1 implementation and lessons learned in developing Map Books.
- 07/19/10 Akimeka GIS personnel downloaded and prepped Hawai'i County address point data and street centerline data for comparison to Akimeka data.
- 07/19/10 Akimeka GIS personnel worked with Gilbert Bailado from Hawai'i County to discuss workflows and timeline constraints and to establish a mutually agreeable schedule to exchange Hawai'i County address point and street centerline data. It was agreed that the address point layer and street centerline layer will be uploaded to the Akimeka FTP site on the Monday before the 3rd Friday of each month. Upon receipt of the address point layer and street centerline layer, Akimeka will run a comparison to the existing address point and street centerline layers and make the updates as required.
- 07/27/10 The Akimeka Kihei office was affected by the Time Warner undersea fiber optic cable outage on July 27, 2010. The Neighbor Island PSAPs were notified around 7:30 a.m. and Akimeka personnel on Maui were available via cell phones during the Internet/telephone/email outage. Everything was restored to normal capacity by the following business day.

Hawaii County Wireless E9-1-1 Status Report July 1, 2010 – July 31, 2010

- Service Requests Transactions**

Open Service Requests – July 2010 (June 29 – July 28, 2010)

#	Date	Ticket #	Description	Category	Urgency	Comments
1	05/25/10	220	MSAG Community Layer	911 Map – Other	Low	Hawaii County Police reviewed Akimeka's 2008 MSAG Community layer data and would like to redefine them. New boundaries for West Hawaii was received on May 16, 2010. This request will take considerable effort to coordinate MSAG Community changes with MSAG. Akimeka will discuss this further with the Hawaii County PSAP.
2	06/03/10	225	Verify addresses on Puako Beach Road	MSAG - AN/ALI Discrepancy	Normal	Customer records were researched and update requests were sent to Sprint via Intrado and Hawaiian Telcom, Inc. (HTI).
Documented Items Per April 9 Intergraph Conference Call						
3	04/21/10	192	Police/Fire Districts	911 Map – Other	High	Akimeka received written descriptions of the police and fire beats from the Hawaii County PSAPs. Screenshots illustrating the changes were sent to the Hawaii PSAPs and Akimeka is awaiting approval of the modifications.

Maui County Wireless E9-1-1 Status Report July 1, 2010 – July 31, 2010

• PSAP Operations (continued)

- 07/01/10 -- Ongoing Akimeka personnel continues to monitor an open AT&T Mobility trouble ticket (11/21/09) for missing house number (HN), street and community information when transferring a WPH2 call or rebidding a WPH2 call. Trouble was isolated to signaling problems.
Akimeka personnel provided samples of 9-1-1 calls from the mainland that provided tower addressing to Goldie Cross of AT&T Mobility.
- 07/01/10 -- Ongoing Akimeka personnel and Intrado continue to work on OnStar, Hughes, and ATX call display issues. Anthony Smith of Intrado has set up a "webinar/conference call" on August 10, 2010 at 9:00 a.m. HST to discuss telematics implementation in Hawaii. Mr. Smith also responded to questions posed by the Neighbor Island PSAPs and they are under review.
- 07/01/10 -- Ongoing Akimeka personnel, with the assistance of Intrado, continues to work on a flowchart for the Neighbor Island PSAPs which documents the flow of a Call Routing Spreadsheet (CRSS) and Testing Validation Worksheet (TVW). The flowchart will merely be documentation of the process as known and will help all parties involved to better understand the timeframes needed to plan a test.

Final information and recommendations were received from Corinne Faulmann of Intrado and Akimeka personnel are working to incorporate them into the final documents which will be sent to the Neighbor Island PSAPs for review and comments.
- 07/01/10 -- Ongoing Akimeka personnel notified Sprint/Nextel and Intrado that an annual audit will be conducted. Jennie Stein of Sprint requested a delay to the end of August 2010 to provide the information due to a major software upgrade on their system.
- 07/01/10 -- Ongoing Akimeka personnel participated in the joint NENA/APCO Urgency Algorithm/3rd Party EMD working group and Telematics committee conference calls. Responses from the Neighbor Island PSAPs involving EMD dispatches called in by the Telematics operators were consolidated and presented on the conference call which will be used in dispatcher training.
- 07/01/10 -- 07/12-10 Akimeka personnel and Intrado completed T-Mobile's Annual Audit for the County of Maui -- including Maui (25 towers/80 sectors), Molokai (2 towers/4 sectors), and Lanai (3 towers/7 sectors) -- with one discrepancy on Maui.

Annual audits are completed on each Wireless Service Provider (WSP) in order to match the information between the WSP's tower databases and the mapping layers which allows for accurate plotting of a Wireless 9-1-1 call. Inaccuracy by as little as a letter or digit could hamper the response of first responders.
- 07/06/10 Akimeka personnel provided information to re-activate the callbox at Koki Beach in Hana.
- 07/13/10 Akimeka personnel addressed the Intergraph mapping concerns that the Maui Police mobile units are experiencing. Concerns are under review.

Maui County Wireless E9-1-1 Status Report July 1, 2010 – July 31, 2010

• PSAP Operations (continued)

- 07/13/10 Akimeka personnel consulted with the Watson Furniture Company regarding the furniture requirements for the new Kihei Station and replacement console furniture for the Molokai Dispatch Center.
- 07/13/10 Akimeka personnel met with Hawaiian Telcom, Inc. (HTI) representatives to discuss the MSAG process and ways to resolve/correct errors and issues.
- 07/19/10 -- 07/20/10 Akimeka personnel coordinated with Verizon Wireless and the Maui Police Department to test one (1) Verizon Wireless customer who alleged having difficulty calling 9-1-1. Test calls were placed and the trouble was isolated to the customer's handset.
- 07/27/10 Akimeka personnel responded to Intergraph field unit issues. Issues are currently under review.
- 07/27/10 Akimeka personnel worked with Time Warner regarding the service interruption that affected both Time Warner and Wavecom Solutions (formally Pacific LightNet) customers on the island of Maui on July 27, 2010. The service interruption began at approximately 1:10 a.m. and was caused by an undersea fiber optic cable cut off of Maui. Time Warner and Wavecom Solutions customers were unable to dial out and call 9-1-1.
- The Maui Police Department was affected by the Wavecom Solutions outage, except for the Maui County PSAP/Dispatch Center who is served by Hawaiian Telcom, Inc. (HTI) and remained in service. All of the wireless carriers, except for Sprint, were affected by "tower" outages or network degradation which affected calling out and calling 9-1-1 sporadic based on the caller's location or when Wireless Phase I (AT&T Mobility) was available. Time Warner's service was restored by 3:30 p.m. and Wavecom Solutions' service was restored by 4:15 p.m. on July 27, 2010.
- Akimeka personnel provided updates to the Neighbor Island PSAPs as information became available.
- 07/27/10 -- 07/28/10 The Akimeka Kihei office was affected by the Time Warner undersea fiber optic cable outage on July 27, 2010. The Neighbor Island PSAPs were notified around 7:30 a.m. and Akimeka personnel on Maui were available via cell phones during the Internet/telephone/email outage. Everything was restored to normal capacity by the following business day.
- 07/29/10 Akimeka personnel continues to work with the Maui Police IT department regarding connectivity to the Intergraph system.
- 07/29/10 Akimeka personnel reviewed Intrado's request to deploy a new functionality called "Temporary Address Posting (TAP)". This feature is specific to converged services and is at the service provider's request. This will allow for a civic address that has failed MSAG validation to be temporarily delivered to the PSAP while the error is being resolved. Notification to the PSAPs is pending and should be resolved in the August timeframe.
- 07/29/10 Akimeka personnel delivered and installed the Pictometry server in the Maui Dispatch Center. Akimeka is still in the process of establishing connectivity and configuring the software for release and testing.

Maui County Wireless E9-1-1 Status Report July 1, 2010 – July 31, 2010

PSAP	TOTAL										
MAUI COUNTY	228	220	11	165	3	38	3	75	8	1	1

Revised categories and report format changes effective April 2009.

A total of 228 transactions were made on the MSAG database. See attached spreadsheet for a detailed description of changes and additions.

During the month of July 2010, 220 changes were made to the Maui County MSAG database. There currently exists one (1) request under Suspended status with one (1) TN affected, which is a carryover from last month. The location remains unknown.

Efforts were focused on identifying and changing MSAG ranges 1 – 9999. Additionally, research continued in an effort to clarify official street names and ranges for E Main St, W Main St, and Lower Main St in Wailuku, Maui.

Note: The Parcels layer is provided by Maui County. Akimeka does not perform any edits on the spatial information of the layer. Changes to the attribute table are made when needed. Akimeka uploads the layers into the Akimeka GIS Server and PSAP GIS Server accordingly.

Current Month GIS Activities – July 2010

- 07/01/10 Akimeka GIS personnel received and reviewed specifications for the Mapping Machine for Intergraph with Bruce (Maui IT).
- 07/01/10 Akimeka GIS personnel attended training for Intergraph GeoMedia and I/MapEditor at the Maui Police Department. The Maui County PSAPs will benefit from this.
- 07/06/10 Intergraph software was transported from Oahu to Akimeka's Kihei office for installation.
- 07/08/10 Akimeka GIS personnel attended on-line basic Pictometry training for EFS software. All PSAPs will benefit from this training as their Pictometry imagery becomes available.
- 07/08/10 Akimeka GIS and IT personnel attended in-house training for troubleshooting PowerMap. Akimeka GIS personnel plan to put together a PowerMap troubleshooting guide which will benefit all PSAPs.
- 07/09/10 Akimeka GIS personnel met with Captain Hudson and Chuck (Maui IT) about Akimeka's role in updating Intergraph maps. Prior to Akimeka updating Intergraph, specific system configurations must be changed by Maui IT to allow Akimeka access to the Map Machine and test environment.

Maui County Wireless E9-1-1 Status Report July 1, 2010 – July 31, 2010

- **Mapping Layers Updated/Loaded Into GIS – July 2010**
(continued)

Current Month GIS Activities – July 2010 (continued)

- 07/12/10 -- 07/16/10 Alexa Jacroux Biggs attended ESRI International User Group Conference and networked with ESRI personnel and others for future support issues. She attended meetings with ESRI technical support to discuss parcel spatial improvement issues and GPS'ed street centerline and attributes issues. She also discussed methods for merging "good attribute" data to "spatially good" geometry.
- Alexa Jacroux Biggs also attended Public Safety workshops to gather ideas for Next Generation 9-1-1 implementation and lessons learned in developing Map Books.
- 07/13/10 Akimeka GIS personnel met with the Maui PSAP Dispatch Supervisor and Maui dispatchers to discuss implementing a workflow to incorporate all of the address points that dispatchers have added over time. A workflow process involving Akimeka and Maui IT was implemented so when an address is added or modified in the Intergraph CAD, it can be incorporated into the Akimeka database.
- Each time an Intergraph map roll occurs, these address points get deleted and replaced with the data from the Akimeka database.
- 07/23/10 Akimeka GIS personnel held a conference call with ESRI tech support to discuss areas from the Maui Parcels layer with excessive spatial accuracy issues and what can be done to rectify the accuracy without influencing surrounding areas.
- 07/27/10 – 07/28/10 The Akimeka Kihei office was affected by the Time Warner undersea fiber optic cable outage on July 27, 2010. The Neighbor Island PSAPs were notified around 7:30 a.m. and Akimeka personnel on Maui were available via cell phones during the Internet/telephone/email outage. Everything was restored to normal capacity by the following business day.
- 07/29/10 Although data was available for an update, no map update was performed during the month of July 2010. Maui Police is in the process of transitioning to a new CAD, RMS, and mobile mapping system. On July 29, 2010, Akimeka personnel were on site to physically deliver and configure the Pictometry imagery server and load the imagery. The Dispatch Center was busy, so arrangements need to be made to configure each dispatch workstation.

Events and Project Status

Ongoing

- DIT continues to configure Geolynx servers with Pictometry data.
- DIT is working with HFD and HPD to migrate their admin/backup lines off of the City's Legacy PBX system.
- DIT continues to distribute weekly updates to GeoLynx data.
- DIT is developing and testing programs/scripts written to help automate the updating of core maps used by GeoLynx. Data are obtained from the DPP GIS warehouse directly with little to no adjustments.
- DIT is continuing its development and testing of a 911 call database for all Honolulu PSAP (HPD, HFD, EMS, Hickam AFB, and Pearl Harbor RDC). The database catalogs all ALI/ANI data sent to Honolulu's dispatch centers. This includes keeping track of initial routing and the order of transferred calls.
- DIT is also developing and testing software to process the logs and to provide meaningful numbers and figures as determined by PSAP request. These products include call volume (per hour, day, shift, etc), WPH1 vs. WPH2 comparison, calls per city, call routing, and much more in the form of tables, graphs, and maps.
- Long term observations utilizing the above database and custom software will help DIT to not only provide a general report for each PSAP with useful information, but also an idea of what typical days look like (i.e. usual number of calls, log sizes, etc), so we may be able to spot data delivery problems or system glitches. The availability of this information and our data comparison capability also aids in the ability of DIT to provide support for various 911 dispatch testing or troubleshooting.
- As per the City & County Honolulu's new computer security policies, DIT is in the process of testing cyber security measures and developing maintenance plans to conform to those guidelines.
- Transferred DIT network subscription for GeoComm maintenance to RDC and Hickam to the military.
- DIT continues to process routing sheet requests and updating Oahu's cell tower/sector layers.
- DIT extended warranty on the E911 workstations and servers.

City & County of Honolulu

Aloha Glenn,

Hope all is well.

We received this email from Mr. Chan.

We are requesting as the representatives for the Federal Consolidated Dispatch Centers that you investigate further whether the GeoComm circuits can remain under the Wireless E911 fund for cost reimbursement.

If the circuits were part of a larger Master Services contract, as you stated, they may be covered.

Please advise if there are other technical options available to receive this information in a timely manner for example as a PDF file from a secure website.

As the secondary PSAP for Oahu, what costs can be supported under the reimbursable umbrella? When the IG made the determination not to include the Federal Dispatch Centers because of the definition of a Public Safety Agency - was it made clear that the RDC provides backup support to HPD?

As always, appreciate your continued support.

Mahalo,

Bernice Bishop-Kanoa

Subject: e911 t1s

Hi Morris/Bernice,

As you may already been made aware, the WE911 Board will no longer be able to reimburse the City for the cost of the communication lines reimbursement from the City's computing center to the military PSAPs for the weekly upgrade of the GeoComm mapping data (see email below).

I've initiated contact with Cynthia Fong with Hawaiian Telcom regarding the transfer of billings (see attached invoices). Please advise if you want to keep the T1 lines and pick up the cost. If not, we'll work with HawTel to cancel the communication lines effective Aug 1, 2010.

Please note that without these communication lines, DIT will not be able to perform the weekly mapping data upgrade from the City's GIS database to your PSAPs GeoComm mapping systems.

Clement

Subject: RE: Request for Reimbursement

Clement:

I agree the Centrex lines for Ocean Safety are reimbursable and there is a line item in this current FY spending plan. We will move ahead and process that request.

On the GeoComm maintenance for the military, are those costs part of a Master Services Agreement that includes all of Oahu? If the answer is yes, I don't think there is an issue. But, considering the line charges are costs specific to the military, I don't believe we can legally reimburse those charges.

Subject: FW: Request for Reimbursement

Glenn,

About Ocean Safety's request for the Centrex lines, you've previously indicated that it's reimbursable (see attached email).

About the Hickam line charges, it's for connection from the City's computer center to the Hickam PSAP to update their mapping system. Need your take on whether DIT should continue to support the military's GeoComm mapping system. If not, then the request for the communication line is moot.

Thanks.

Clement

Hi Glenn

Please change the designation of the Exacom Recorder Maintenance from category 3 to category 1. The Oahu PSAPs are requesting this change because the recorder is critical for all Oahu PSAPs operations. The Board has been funding the maintenance for the past 3 years. Thanks.

SENATE CONCURRENT RESOLUTION

REQUESTING A REPORT OF THE WIRELESS ENHANCED 911 FUND.

1 WHEREAS, the Legislature enacted Act 159, Session Laws of
2 Hawaii 2004, finding that statewide enhanced 911 has proven to
3 be a lifesaving service and that routing a 911 call to the
4 appropriate public safety answering point with a display of the
5 caller's identification and location should be available for all
6 users of telecommunications services, regardless of the
7 technology used to make and transmit the 911 call; and
8

9 WHEREAS, Act 159 also determined that it is in the best
10 interest of the public to ensure that there is adequate ongoing
11 funding to support enhanced 911 service, and beginning July 1,
12 2004, established a monthly wireless enhanced 911 surcharge upon
13 each commercial mobile radio service connection, with the moneys
14 to be deposited into the Wireless Enhanced 911 Fund, pursuant to
15 section 138-3, Hawaii Revised Statutes; and
16

17 WHEREAS, due to the unprecedented revenue shortfalls of
18 over \$2,000,000,000 during this fiscal biennium, \$16,000,000 in
19 funds were deemed to be in excess of Wireless Enhanced 911
20 project needs and that amount was transferred out of the
21 Wireless Enhanced 911 Fund in 2009 (Act 69, Session Laws of
22 Hawaii 2009) to the general fund, and it is likely that at least
23 \$5,000,000 in additional funds may be transferred out of the
24 Fund in 2010; and
25

26 WHEREAS, Hawaii's remote location within the Pacific also
27 requires the State of Hawaii to leverage its federal, state,
28 county and Wireless Enhanced 911 funds to improve and enhance
29 its capabilities to respond to life-threatening circumstances,
30 including natural disasters like hurricanes, tsunamis,
31 earthquakes, power outages, and other unpredictable geographic
32 conditions; now, therefore,
33

1 BE IT RESOLVED by the Senate of the Twenty-fifth
2 Legislature of the State of Hawaii, Regular Session of 2010, the
3 House of Representatives concurring, that the Wireless Enhanced
4 911 Board is requested to report on the Wireless Enhanced 911
5 Fund; and

6
7 BE IT FURTHER RESOLVED that the report include:

- 8
9 (1) The total aggregate surcharge collected by the State
10 in the previous and current fiscal years;
11
12 (2) Disbursements from the fund by the Board in the
13 previous and current fiscal years, and the amount of
14 unexpended or unencumbered funds remaining at the end
15 of each of the two fiscal years;
16
17 (3) Any transfers of unexpended balances in each of the
18 fiscal years, and the impact of the transfers on
19 projects undertaken or planned by the Board; and
20
21 (4) The status of and available funding for any projects
22 that have been undertaken or planned by public safety
23 answering points during the most recent two fiscal
24 years; and

25
26 BE IT FURTHER RESOLVED that the Wireless Enhanced 911 Board
27 report to the Legislature no later than September 1, 2010, on
28 the status of the Wireless Enhanced 911 Fund; and

29
30 BE IT FURTHER RESOLVED that certified copies of this
31 Concurrent Resolution be transmitted to the Comptroller and the
32 Chairperson of the Wireless Enhanced 911 Board.

STATE OF HAWAII

WIRELESS ENHANCED 911 BOARD

August 12, 2010
10:00 a.m.

Department of Accounting and General Services
Room 426
Kalanimoku Building
1151 Punchbowl Street
Honolulu, Hawaii 96813

Minutes

Members in attendance: Russ Saito, Victor Ramos, Clayton Tom, Paul Ferreira, Russell Lundberg, Dean Nishina, Cedric Apaka

Staff in attendance: Glenn Roach, Courtney Tagupa, Kerry Yoneshige

Guest in attendance: Tony Ramirez, Scott Yagihara, Kenison Tejada, Kevin Kuwahara, Clement Chan, Thalia Burns, Paul Epstein

I. Call to order

Chair Saito called the meeting to order at 10:00 a.m.

II. Introductions

Introductions were made

III. Review and Approval of Minutes from July 8, 2010 Board Meeting

Russell Lundberg made a motion to approve the minutes of the July 8, 2010 Board Meeting

Victor Ramos seconded the motion

No discussion

Motion passed unanimously by voice vote

IV. Committee Updates by Chairs.

- a. Finance Committee – Russell Lundberg
- b. Technical Committee – Victor Ramos
- c. Policies and Objectives Committee – Cedric Apaka
- d. Administration Committee – Paul Ferreira
- e. Public Relations Committee – Glenn Roach

V. PSAP Status Updates

- a. Kauai – Mark Begley
- b. Oahu – Gordon Bruce
- c. Molokai – Victor Ramos
- d. Maui – Clayton Tom
- e. Hawaii – Paul Ferreira

VI. Items for Discussion, Consideration and Action

- a. Monthly Financial Report – Courtney Tagupa
- b. Hawaiian Telcom explanation of charges related to Honolulu Police Department request for 3 additional CML positions to be installed at the primary PSAP in the amount of \$147.40 NRC and \$15,268.50 MRC

Executive Director explained that Kevin Kuwahara, with Hawaiian Telcom presented a document and explained the components of the charges, during the Joint Technical/Finance Committee Meeting, related to Honolulu Police Department request for 3 additional CML positions to be installed at the primary PSAP

No further action needed

- c. Adjustments to the FY 2011 Budget and Spending Plan – Glenn Roach
 - 1. Request to Exacom Recorder Maintenance for Honolulu in the amount of \$40,000 from Priority 3 to Priority 1

Paul Ferreira made a motion to approve Honolulu request to move the costs for the Exacom Recorder Maintenance from a Priority 3 to a Priority 1 reimbursement.

Russell Lundberg seconded the motion

No discussion

Motion passed unanimously by voice vote

- 2. Request from the Federal Consolidated Dispatch Center for reimbursement of costs of Hawaiian Telcom charges in the amount of \$29,425.44 related to the circuits in support of daily updates to the GeoComm Mapping System

Clayton Tom made a motion to deny the request from the Federal Consolidated Dispatch Center for reimbursement of costs of Hawaiian

Telcom charges in the amount of \$29,425.44 related to the circuits in support of daily updates to the GeoComm Mapping System

**Paul Ferreira Seconded the motion
No discussion**

Motion passed unanimously by voice vote

- d. Consolidation of Administration, Policy and Objectives, and Public Relations Committees within a new Communications Committee

Paul Ferreira made a motion to consolidate the Administration, Policy and Objectives, and Public Relations Committees into new Communications Committee

Clayton Tom seconded the motion

No discussion

Motion passed unanimously by voice vote

- e. SCR 180, the Wireless E 911 Report.

Paul Ferreira made a motion for the Executive Director to draft the Wireless E911 Report as required by SCR 180 and for the Chair to submit the report to the Governor for transmittal to the Legislature by September 1, 2010 on behalf of the Board.

Russell Lundberg seconded the motion

No discussion

Motion passed unanimously by voice vote
