"The concept and development of the Hawaii-Japan friendship missions".-

PINAO BRICKWOOD MEMORIAL COLLECTION

INTRODUCTION

The Pinao Brickwood Memorial Collection of Hawaiian prints, maps and etchings was donated to the Territory of Hawaii by Victor S. K. Houston in October, 1938. The Archives was designated as the repository. The collection was originally framed and on public display. Subsequently the material was removed from display, the frames were discarded and the collection was stored under conditions intended to enhance long-term preservation.

BIOGRAPHICAL SKETCH

Pinao G. Brickwood

Born in Honolulu	ca. 1876
Married Victor S. K. Houston	July 19, 1909
Died in Honolulu	September 27, 1936

Source: Honolulu Advertiser, 9/28/1936, p1

SCOPE AND CONTENT NOTE

The collection was assembled by Victor S. K. Houston over the span of many years. It originally consisted of approximately 122 framed prints of Hawaiiana and ten framed maps of Honolulu Harbor. In 1940, additional prints were received from Mr. Houston and added to the Collection. Whether or not it was Mr. Houston's intent that this subsequent gift be added to the collection cannot be determined from available records. The maps were transferred to the Map Collection.

See also: Photo Collection, voyage prints
Victor S.K. Houston Collection (M-68)

SERIES DESCRIPTION

1. Prints and Photographs. 1778-1841, 1867, 1928. 4 linear inches in 2 drop front print boxes.

As presently constituted, the collection consists of 157 prints (engravings, lithographs) from originals done by artists who accompanied early European explorers, including John Webber,

James Clevely, Louis Choris and Jacques Arago. See the attached inventory. The subjects of the prints include natives, villages, cultural activities and incidents (such as the death of Captain Cook). There are in addition a few photographs of artifacts, such as Captain Cook memorial coins.

The collection provides insights into the cultural landscape of immediate post-western contact Hawaii.

Print no. 223 was not located during processing.
