**DEPARTMENT OF TAXATION
1847-1990**

INTRODUCTION

The records of the State Department of Taxation and its predecessor agencies document several statutory functions relating to the assessment and collection of taxes. They contain records of personal, individual real property, corporate, poll, and school taxes. The records span the years 1847 to 1990, from the period when island governors had jurisdiction over taxation to the current system of taxation divisions and districts. The Office of the Director (1959-1978), Oahu, Maui, Hawaii and Kauai District Offices (1847-1975), Property Technical Office (1932-1969), Tax Review Commission (1988-1990), Board of Equalization (1928-1931), and Natural Disaster Claims Commission (1955-1965) are subgroups of this record group.

The collection consists of 573 reels of microfilm, 84.1 linear feet of 1555 oversize ledgers and 31.29 cubic feet of paper records. Access to taxation records is not restricted except for the Income Tax Assessment and Collection Ledgers, for the Honolulu District, 1924-1927 (Series 224). Access is restricted by HRS 92F-14(6) and HRS 235-116. Restrictions will be lifted on December 31, 2007 (HRS 94-7).

AGENCY HISTORY

Established: When Hawaii became a state in 1959, the executive branch was reorganized and the newly created State Department of Taxation was assigned the function and responsibility of assessing and collecting taxes (Act 1, Second Special Session, Session Laws of Hawaii).

Predecessor Agencies: Department of Finance of the Kingdom of Hawaii, 1846-1893
Department of Finance of Hawaii, 1893-1900
Tax Bureau, Treasury Department of the Territory of Hawaii,
1900-1932
Tax Commissioner, 1932-1959

Functions: The Department of Taxation, headed by the Director of Taxation, is responsible for the administration and enforcement of the tax laws of the State. This includes the assessment of taxes and collection of tax revenues. It develops tax interpretations, studies the provisions of the tax laws, and recommends to the Legislature changes and revisions to those laws. The Department also collects the employment security contributions paid by employers under the Unemployment Compensation Law. Tax appeals are administered by the Tax Appeal Court and the Boards of Taxation Review in the four districts.

To carry out these functions, the Department is organized into several divisions, offices and attached boards and commissions. The organization of the department evolved over time, and has included the following divisions, offices, boards, and commissions: Office of the Director; Oahu, Maui, Hawaii, and Kauai District Offices; Property Technical Office; Tax Review Commission; Board of Equalization; and Natural Disaster Claims Commission.

SCOPE AND CONTENT NOTE

This record group contains materials created and collected by the Department of Finance of the Kingdom, Provisional Government, and Republic; Tax Bureau of the Treasury Department of the Territory of Hawaii; and the Department of Taxation of the State of Hawaii.

The records are organized in six subgroups: Office of the Director; Oahu, Maui, Hawaii and Kauai District Offices; Property Technical Office; Tax Review Commission; Board of Equalization; and Natural Disaster Claims Commission. Within the subgroups, the records are arranged in series by record type (e.g. assessment and collection records, correspondence, minutes) and chronological, numerical or alphabetical order by island division or district name thereunder.

Office of the Director (1959-1978)

Administrative Records of the Director (Series 337) contain memos, correspondence, press releases, report, responses to audits, programs, speeches, and recommendations for various tax directors while administering and enforcing tax laws of the State of Hawaii.

Oahu, Maui, Hawaii, and Kauai District Offices (1847-1975)

The functions of the Oahu, Maui, Hawaii, and Kauai District Offices are to provide administrative and enforcement services to taxpayers, collecting taxes, assessment of taxes, appraising real property, and rendering policy decisions. They are documented in the following two series: Tax Assessment and Collection Records, 1847-1975 (Series 224); and the Tax Assessor's Correspondence 1900-1902, 1906-1907, 1909-1916 (Series 333).

Tax Assessment and Collection Records, 1847-1975 (Series 224)

The Tax Assessment and Collection Records document the revenue generating activities of the government of Hawaii. The records provide the name and residence of the taxpayer, tax assessed, amount owed and whether delinquent. Real property, income, poll and school are examples of the types of taxes assessed. After 1930, property tax assessments were recorded separately from the other taxes. Nearly complete records are available for the First (Oahu), Third (Hawaii) and Fourth (Kauai and Niihau) taxation divisions. Records of the Second Taxation Division (Maui, Kahoolawe, Molokai and Lanai) are incomplete. Indices are available for Honolulu District Tax assessments and collection ledgers, 1888-1906 (see the container list for more information).

The majority of the Tax Assessment and Collection Records date from the nineteenth century and are fragile. Extreme care should be used when handling them. Twentieth Century ledgers have been microfilmed. Ledgers determined to be illegible at the time of microfilming are indicated as such on the film and the ledgers are available for inspection in the Archives.

DEPARTMENT OF TAXATION

Tax Assessment and Collection Records complement the following record groups or collection in that they also provide information about land ownership: Department of Interior, 1849-1900; Island Governors, 1839-1897; Finance Department, 1839-1900; Judiciary, 1839-1970; Public Land, 1839-1879; Department of Land and Natural Resources 1846-1900; and the Archives Map Collection.

Tax Assessor's Correspondence, 1900-1902, 1906-1907, 1909-1916 (Series 333)

Tax Assessors' Correspondence is made up of internal correspondence between the deputy assessors and the district assessors for transmittal of taxes collected, request for supplies, and requests for information, along with external correspondence in response to collection of delinquent taxes.

Letters from the years 1900-1902 are handwritten. Letterbooks for the years 1909-1916 contain some mimeographed correspondence with original signatures. Because mimeographed documents have a high risk of fading with time, these documents were replaced by more stable photocopies of the documents.

Property Technical Office (1932-1969)

The Property Technical Office's function is to supervise the operations of Hawaii's tax map system for the classification of real property and to develop uniform classification and valuation systems for use in property assessments. Their functions are documented in the Cancelled Tax Map Prints (Series 278). Cancelled Tax Map Prints show all parcels of land in the mapped area. The prints contain land ownership information and illustrates the Tax Map Key System which assigned each parcel a unique four-part numerical identification. There are some gaps in coverage and many lack dates of cancellation. Cancelled Tax Map Prints are available on microfilm.

Cancelled Tax Map Prints complement the following record groups or collections in that they also provide information about land ownership: Department of Interior, 1849-1900; Island Governors, 1839-1897; Finance Department, 1839-1900; Judiciary, 1839-1970; Public Land, 1839-1879; Department of Land and Natural Resources, 1846-1900, and the Archives Map Collection.

Tax Review Commission (1980-1990)

The Tax Review Commission was established to conduct a systematic review of the state's tax structure and recommend revenue and tax policy. The Records of the Tax Review Commission (Series 284) consist of minutes, agendas, correspondence, speeches, general rules of practice, public hearing notices and public hearing files.

Board of Equalization (1928-1931)

The function of the Board of Equalization was to standardize assessments of property throughout Hawaii. The Records of the Board of Equalization (Series 290) consist of assessment records and minutes.

Natural Disaster Claims Commission (1955-1965)

The duties of the Natural Disaster Claims Commission were to receive, process, review and investigate claims, to conduct hearing regarding each claim, and to certify the amount of losses. The Records of the Natural Disaster Claims Commission (Series 291) consist of minutes, correspondence and newspaper clippings, along with photographs which were separated and added to the Photograph Collection.

Series No: 278 **Series Title:** Cancelled Tax Map Prints

Date Range: 1932-1980

Quantity of Records: 72 reels of 35 mm microfilm.

Content Description: This series is made up of tax map prints issued in Hawaii under the Territory and the State up to 1980. The tax map prints were created to assist assessors in arriving at correct valuation of real property for tax collection.

Tax map prints show all parcels, blocks, lots, etc. numbered according to a Tax Key System which assigns each parcel, block, lot, etc. a unique four-part number. Information contained on the map usually includes acreage or square footage of each parcel and its ownership. Sometimes, metes and bounds, lease information, old Land Commission Award or Patent land sale information is also shown.

Tax maps are useful resources for tracing ownership of real property since they list registered owner(s) of the land at the time of the map's creation. They also complement the information found in Tax Assessment and Collection Records in Series 224. Cancelled tax map prints are available on microfilm. There are some random gaps in the records where there are no maps for a particular locale.

TAX REVIEW COMMISSION

Administrative History

Established: The Tax Review Commission was established by a 1978 amendment to the Hawaii State Constitution (Article VII, Section 3). The Committee on Taxation and Finance of the 1978 Constitutional Convention found that neither the Executive Branch nor the Legislature had reviewed the overall tax system for more than 20 years. Therefore a commission was created to review Hawaii's tax system beginning in 1980, and every 5 years thereafter.

Function: The Tax Review Commission is directed by the Hawaii Revised Statutes (Chapter 232E) to conduct a systematic review of the State's tax structure, submit to the legislature an evaluation using such standards as equity and efficiency, and recommend revenue and tax policy.

A seven member commission was sworn in on May 28, 1980 and was to have submitted its report to the Legislature 120 days prior to the opening of the 1982 regular session. In its initial meetings in the summer of 1980, the commission found itself unable to reconcile its budget appropriation with its mandate and the 1980 Legislative requests. In subsequent meetings, members of the commission reviewed tax studies of a number of states, solicited the advice of concerned groups regarding the nature and scope of the reviews, consulted with experts on managing the review process, and developed a research agenda. When their request for funding to carry out the agenda was denied, the members of the first Tax Review Commission resigned. A reconstituted first Tax Review Commission (with its replacement members) was then convened on August 5, 1983 and submitted its report to the Legislature on December 14, 1984. The 1988-1990 Tax Review Commission is the second to be appointed under the constitutional provisions of Article VII, Section 3.

BOARD OF EQUALIZATION

Administrative History

Established: By Section 65 of Act 51, Session Laws of Hawaii, 1896.

Functions: The Board of Equalization was created to standardize assessments of property throughout the Republic. The Board was made up of assessors, with the Minister of Finance as chairman. The Board was mandated to hold a meeting in Honolulu in December of each year, during which general rules for assessments and valuation were adopted.

In 1929, Section 1350-A of Act 237, Session Laws of Hawaii established Divisional Boards of Equalization for each taxation division of the Territory of Hawaii. Each board consisted of three members who were appointed by the governor. The duty of the Divisional Board was to equalize assessments within their respective taxation divisions so that all property subject to tax would be valued, assessed and taxed on the same basis of valuation as all other property of the same kind or class similarly situated. Also that all properties subject to tax would be assessed as nearly as possible according to their true relative values.

Each board was mandated to examine the basic scale or scales of valuation proposed or used by the assessors for the division and to hold public meetings. The boards ruled on appeals from assessments and had the power to allow or disallow exceptions as provided by law, to increase or lower assessments, and to direct the assessor to assess any taxable property when a false or incomplete assessment has been rendered.

Any person aggrieved by a change made by the assessor in the valuation of property was authorized to appeal. In cases where the amount of valuation equaled or exceeded \$50,000, the appeal went to the Territorial Board of Equalization. In all other cases the appeal went to the Divisional Board, unless the assessment appealed from had been directed by the Divisional Board, in which case the appeal went directly to the Territorial Board.

NATURAL DISASTER CLAIMS COMMISSION

Administrative History

Established: In 1955, Act 207, Session Laws of Hawaii, provided victims of the Puna volcanic eruption with the recovery of certified losses through the remission of certain taxes over a period of five years. This was later extended another 5 years.

In 1959, Act 29, Special Session Laws of Hawaii, provided similar relief for persons sustaining property damage from Hurricane Dot which hit the island chain in August of that year. The First State Legislature, meeting in early fall of 1961, enacted Act 173, Session Laws of Hawaii, which provided a general tax relief law for all future natural disasters.

Functions: The duties of the Natural Disaster Claims Commission are: (1) to receive, process, review and investigate claims, (2) to conduct a hearing regarding each claim to ascertain the amount of losses suffered by the claimant, and (3) to certify the amount of losses. Upon receipt of the certification of losses, the director of the Department of Taxation shall remit, refund, or forgive real property and general excise taxes in accordance with the law.
