      ii. ESInet Cost Discussion
      iii. Update on Procurement & Decision Maker Questionnaire
      iv. Next Steps - Decision Making as it pertains to each county
      v. October 2021 Committee Draft Agenda
   b. Outline Framework for Upcoming Legislative Meetings
      i. Goal-Deliver one common message from all Counties and the Board to the State Legislature regarding the ESInet Migration Plan
      ii. Logistics:
          1. November 2021 timeframe
          2. Preference for in person versus remote meeting
          3. Recommend single person coordinate while working with local agency representatives.
          4. Important that local agency representatives are present – Agency Chiefs and other key personnel.
          5. Need to reactivate the legislative Committee to assist Winbourne with developing this message.
      iii. Educational/Discussion Topics for Legislators
          1. Winbourne would like to work with the legislative committee to develop this outline. See draft outline below.
          2. Background information
             a. What is ESInet?
                i. basic description of what is ESInet and how it is different then the current 911 system.
                ii. Telecommunication provider are migrating to an IP based infrastructure
             b. Why does the State need to change?
                i. Current system is nonstandard
                ii. Current system is approaching its end of life.
             c. Benefit to Citizens & First Responders
                i. Will serve as the infrastructure to support the receipt of 911 calls for Emergency Communications Centers
                ii. Allow the full integration of IP based communications from citizens.
                iii. Will improve the receipt of calls during Natural Disasters-being able to contact appropriate agencies like the Coast Guard. Lifeguards, Public Works, Hawaiian Electric Company. Not to have to worry if the phone lines are over loaded.
             d. County/Board Vision for Migrating to ESInet.
e. Cost Estimates
f. Legislative Changes – State Legislators to approve enabling Legislation to give Board authority to serve as a Technical Clearing house and resource for the implementation of the ESInet.
g. Issues and Risks?

iv. ESInet Cost Estimation Development
1. Option 1- Provide the Board generic costs based on other jurisdictions deployment – Note that Hawaii is unique and so costs may not be applicable to support budgetary estimations.
2. Option 2 – Poll a cross section of ESInet providers to determine estimated costs. Will need the following info to provide as a baseline for their estimates:
   a. Mainland verses Hawaii located infrastructure and redundancy and diversity requirements
   b. Applications other than call delivery across the network.
   c. Shared CPE or individual CPE.

v. Counties Procurement Status
1. Maui – Respectfully declined
2. Hawaii – Hawaii County Procurement assist Kauai County Procurement with the procurement.
3. Oahu – Respectfully declined.
4. Kauai – Has offered to procure and is able to have a selection committee made up with representatives from other Counties.

vi. County Decision Makers
2. Hawaii – County Finance Director Deanna Sako and Purchasing Agent Diane Nakagawa, Police Chief Paul Ferreira, Deputy Chief Kenneth Bugado, with input from Lt. Robert Fujitake.
3. Oahu- Major Aaron Farias (Commander of Communications Division)
4. Kauai- Chief Raybuck, A/C E. Kalani KE

vii. Comments by Everett Kaneshige regarding new legislation for NG911.
1. Preparing for discussions with legislators
   a. Background document with an explanation of why the NG911 is needed and that the board has examined all the options and supports the bill.
   b. A strategic plan is a critical document prior to the discussions with the legislature that also reflects support from all stakeholders.

VII. Committee Updates by Committee Chairs
a. Communications Committee – Davlynn Racadio
   Chair Racadio shared NENA and APCO’s push to pass the 911 Saves Act since no one from Hawaii is supporting the bill. Ed Case needs to be contacted for his support. We also need to contact the other congressmen. Here are a couple other related acts that needs our support: Lift America Act requests funding for NG911. Protect Act requests support for mental health issues that includes telecommunicators as well.

b. Technical Committee – Thalia Burns
i. Educational Investigative Committee – Jeffrey Riewer.
Comments were favorable from the attendees of the PST course. Both Maui and Kauai favored continuing support of the PST course across all agencies before the counties consider advanced courses. We will need the following information to complete the cost analysis:
1. Tuition cost.
2. The total amount of attendees from each agency.
3. Overtime costs for each agency.
4. Recertification costs for each agency.

This is deferred for further discussion for next month.

ii. ICTE Investigative Committee- Everett Kaneshige
Report to the legislature regarding the reclassification of telecommunicators. NENA is pursuing their own initiatives as well as other states. There has been a sharing of the language of their bills and other resource materials that could be part of the package of information to DHRD. NHTSA has materials that would be supportive of reclassification of telecommunicators. However, those materials must be requested.

iii. Establishment of an Advisory Committee:
Definitions:

PIG (permitted interaction group) allows two or more board members (but less than quorum) to meet at the direction of the board to discuss board issues that must be specific and the PIG dissolves after fulfilling its purpose. No secret meetings. Must report back to the board.

An advisory committee is not a formal group and may consist of no more than one board member and reports their findings to the board or sub committees. The board may or not adopt their findings. The advisory committee does not dissolve after presenting their findings.

1. Agenda
   a. Existing platform
      i. Telephone Based
         1. CAMA/TDM CORE
      ii. Originating Service Providers (OSP) trunks are TDM based
      iii. HT MPLS Network – ESInet equivalent
     iv. MSAG/ALI Routing to PSAP
