PLANNING AND COORDINATION

1. Working Group Plans and Findings

The working group for the Hawaii First Responders Memorial (HFRM), established under HCR No. 97 and SCR No. 46 held its inaugural meeting on November 4, 2024. A walking tour of various memorials was conducted on November 19, 2024, to gather inspiration and ideas for the design of the Hawaii First Responders Memorial. The second meeting is scheduled for December 4, 2024.

Going forward, the working group plans to meet during the first week of each month. These regular meetings will ensure that progress is made through the collaborative efforts of all members as they work toward the completion of the memorial. Additionally, Public Works will coordinate regular meetings, assist in establishing a framework, and continue to provide support and guidance to help the working group successfully build the memorial.

2. Working Group Recommendations and Projected Costs

- The working group reviewed cost estimates for past memorial projects, with projected expenses for the new memorial ranging between \$1.5 million and \$2.25 million, depending on the location, size, and improvements required.
- The importance of establishing a foundation, potentially a 501(c)(3) nonprofit, to manage fundraising and ongoing maintenance efforts was discussed.
- Joe Earing, Planning Branch Manager, suggested seeking funding for planning purposes, including engaging with consultants to evaluate potential sites. He also recommended prioritizing State or County property for the memorial's location.
